**Sir Edwin Lutyens** Elizabeth Wilhide,2003      **Cemeteries of the Great War by Sir Edwin Lutyens** Jeroen Geurst,Sir Edwin Landseer Lutyens,2010 The British architect Sir Edwin Lutyens 1869 1944 designed 140 cemeteries in the countryside of Flanders and northern France for soldiers killed in the First World War The cemeteries can be regarded as an imprint of the former battlefield on the map of Europe All are designed according to principles established beforehand based on the idea of a cathedral church or chapel in the open air and include uniform gravestones a War Stone and a Cross of Sacrifice Yet the difference in size alignment and provenance make them all unique variations on the themes in question The most memorable aspects are their meticulously chosen position in the landscape the varied selection of trees and other greenery and the architecture of the entrance and shelter buildings In an exhaustive landscape architectural analysis this opulently illustrated book charts the history of the designs and reveals the underlying principle of order and variation in the architecture All 140 cemeteries are fully documented with references to the places where they are to be found P 4 of cover

Architecture of England, Scotland, and Wales Nigel R. Jones,2005-06-30 The British terrain is a gold mine for the student of architecture Ranging in era from ancient times to the present day from Stonehenge to the Millennium Dome this volume s 76 entries include palaces castles bridges churches country houses and various public buildings and monuments as well as such well known features of British architecture and design as terraced houses suburban semi detached houses and public telephone kiosks Detailed yet accessible to nonspecialist readers the alphabetical entries also provide cross references and lists of additional information sources in both print and electronic formats Appendixes list the entries by location architectural style and architect designer explain the defining characteristics of major British architectural styles and discuss the importance of the Crown peerage and Parliament in British architectural history Besides a detailed subject index the volume includes a timeline a general bibliography a glossary of architectural terms and an introduction that traces the development of British architecture from prehistoric and Roman times to the 21st century Written by an associate professor of architecture at Oklahoma State University Architecture of England Scotland and Wales part of Greenwood s Reference Guides to National Architecture series presents architectural biographies of these countries most famous and significant structures      How the Country House Became English Stephanie Barczewski,2023-09-19 The story of how the country house historically a site of violent disruption came to symbolize English stability during the eighteenth century Country houses are quintessentially English not only architecturally but also in that they embody national values of continuity and insularity The English country house however has more often been the site of violent disruption than continuous peace So how is it that the country how came to represent an uncomplicated nostalgic vision of English history This book explores the evolution of the country house beginning with the Reformation and Civil War and shows how the political events of the eighteenth century which culminated in the reaction against the French Revolution led to country houses being recast as symbols of England s

political stability      **The Oxford Dictionary of Architecture** James Stevens Curl, Susan Wilson, 2015 With over 6 000 entries this is the most authoritative dictionary of architectural history available      Harry Clarke's War Marguerite Helmers, 2015-11-30 Ireland's Memorial Records 1914-1918 contain the names of 49 435 enlisted men who were killed in the First World War Commissioned in 1919 by the Lord Lieutenant of Ireland and published in 100 eight volume sets the Records are notable for stunning and elaborate page decorations by celebrated Irish illustrator Harry Clarke Drawing from published and unpublished sources Marguerite Helmers ground breaking study provides a fascinating insight into the work of Harry Clarke as an extraordinary war artist and examines the process that led to the Records being commissioned through to the eventual placement of the Records within the Irish National War Memorial at Islandbridge Dublin With Harry Clarke's illustrations taking center stage in the story the Records and their genesis are of vital importance to our understanding of how art and commemoration can come together in a powerful visual creation      The Greenwood Encyclopedia of Homes through World History James M. Steele, 2009-03-30 The house throughout history in every place in the world has been built to provide shelter from the elements The dwellings that have resulted are as different as the people that have built them the social norms that prevailed at the time and place in which they were built and the natural environment that they adapted to Studying them now in a comprehensive way allows us to understand the social political economic and religious conditions that existed for their inhabitants They are a three dimensional record of culture Twenty four pages of color images along with black and white images through three volumes illustrate the homes of people throughout the world The volumes cover ancient times to the late Middle Ages the Renaissance to the Industrial Revolution and the Post Industrial Revolution to the Present      Popular Culture and Its Relationship to Conflict in the UK and Australia since the Great War Andrekos Varnava, Michael J.K. Walsh, 2022-12-26 This book shows how cultural production derived from or in anticipation of conflict can be used to create specific social identities national histories and contemporary concepts of memory in Britain and Australia Studies on the politics of cultural production have usually focussed on one conflict or on one particular cultural medium at a time This volume however presents a broader horizon to draw attention to more popular forms of cultural production from the Great War up to and including its Centenary The chapters in this volume interrogate the contentious philosophical notion that culture thrives in times of war and expires in peace and asks whether art as a form of social barometer can anticipate conflict rather than merely respond to it This is a fascinating read for students researchers and academics interested in British and Australian History and its relationship with Popular Culture The chapters in this book were originally published as a special issue of Contemporary British History      **Lutyens and the Modern Movement** Allan Greenberg, 2007 In the exclusionary world of high modern architecture it is curious to discover that two icons of the movement both admired the work of Sir Edwin Lutyens an architect who had little or no interest in modernism Le Corbusier and Frank Lloyd Wright created buildings that are very different and the two men did not even like each other but they

shared a fascination for Lutyens distinctively non international style architecture This polemical text is an account of why this occurred By exposing common aesthetic and structural themes in the architecture of these three giants including the cities of New Delhi and Chandigarh in India the author explains why Wright and Le Corbusier may have had more in common with Lutyens than with many of their modern peers The primary text in the book was written in 1967 and was published in a student journal in the U S with a small circulation It has remained an underground classic since then perhaps because its contents are so disruptive of our current views of 20th century modernism

**British Design** Christopher Breward, Fiona Fisher, Ghislaine Wood, 2015-10-22 British Design brings together leading international scholars designers and journalists to provide new perspectives on British design in the last sixty years and how it at once looked back to the past with the continuation of traditions that spoke to Britain's design heritage and looked forwards with the embrace of modernist and postmodernist style The book responds to and develops new ways of understanding the recent history of design in Britain with case studies on designed spaces and objects including domestic interiors retail spaces schools and university buildings and transport The contributors address significant moments and phenomena in the historical and social history of British design from the rise and fall of the English Country House style and the Brutalist architectural boom of the 1960s to the modern shopping space and consider the work of key contemporary designers ranging from Tommy Roberts to Thomas Heatherwick British Design provides new criticism and analysis on how design from the immediate post war period to the present day has developed and changed how we live and how we interact with the spaces in which we live British Design is split into 13 chapters and is richly illustrated with 65 images 16 of which are in full colour

**Flora's Empire** Eugenia W. Herbert, 2012-01-31 Like their penchant for clubs cricket and hunting the planting of English gardens by the British in India reflected an understandable need on the part of expatriates to replicate home as much as possible in an alien environment In Flora's Empire Eugenia W Herbert argues that more than simple nostalgia or homesickness lay at the root of this garden imperialism however Drawing on a wealth of period illustrations and personal accounts many of them little known she traces the significance of gardens in the long history of British relations with the subcontinent To British eyes she demonstrates India was an untamed land that needed the visible stamp of civilization that gardens in their many guises could convey Colonial gardens changed over time from the garden houses of eighteenth century nabobs modeled on English country estates to the herbaceous borders gravel walks and well trimmed lawns of Victorian civil servants As the British extended their rule they found that hill stations like Simla offered an ideal retreat from the unbearable heat of the plains and a place to coax English flowers into bloom Furthermore India was part of the global network of botanical exploration and collecting that gathered up the world's plants for transport to great imperial centers such as Kew And it is through colonial gardens that one may track the evolution of imperial ideas of governance Every Government House and Residency was carefully landscaped to reflect current ideals of an ordered society At Independence in 1947 the British left behind a lasting legacy in

their gardens one still reflected in the design of parks and information technology campuses and in the horticultural practices of home gardeners who continue to send away to England for seeds *Image, Imagination and Imaginarium* Lu Pan, 2021-01-02 This book explores five cases of monument and public commemorative space related to World War II WWII in contemporary China Mainland Hong Kong and Taiwan all of which were built either prior to or right after the end of the War and their physical existence still remains Through the study on the monuments the project illustrates past and ongoing controversies and contestations over Chinese nation sovereignty modernism and identity Despite their historical affinities the three societies in question namely Mainland China Hong Kong and Taiwan vary in their own ways of telling remembering and forgetting WWII These divergences are not only rooted in their different political circumstances and social experiences but also in their current competitions confrontations and integrations This book will be of great interest to historians sinologists and analysts of new Asian nationalism *An Encyclopaedia in Spatio-Temporal Dimensions* Patit Paban Mishra, 2024-10-20

*Architecture and Design at the Museum of Modern Art* Thomas S. Hines, 2019-01-22 A comprehensive and fascinating look at the history of the Museum of Modern Art's Architecture and Design Department under the leadership of the influential curator Arthur Drexler Arthur Drexler 1921 1987 served as the curator and director of the Architecture and Design Department at the Museum of Modern Art MOMA from 1951 until 1986 the longest curatorship in the museum's history Over four decades he conceived and oversaw trailblazing exhibitions that not only reflected but also anticipated major stylistic developments Although several books cover the roles of MoMA's founding director Alfred Barr and the department's first curator Philip Johnson this is the only in depth study of Drexler who gave the department its overall shape and direction During Drexler's tenure MoMA played a pivotal role in examining the work and confirming the reputations of twentieth century architects among them Frank Lloyd Wright Le Corbusier Richard Neutra Marcel Breuer and Ludwig Mies van der Rohe Exploring unexpected subjects from the design of automobiles and industrial objects to a reconstruction of a Japanese house and garden Drexler's boundary pushing shows promoted new ideas about architecture and design as modern arts in contemporary society The department's public and educational programs projected a culture of popular accessibility offsetting MoMA's reputation as an elitist institution Drawing on rigorous archival research as well as author Thomas S

Hines's firsthand experience working with Drexler Architecture and Design at the Museum of Modern Art analyzes how MoMA became a touchstone for the practice and study of midcentury architecture Architecture Of The Classical Interior Steven W Semes, 2004-08-17 The principles of classical architecture applied to the design of interiors both residential and public A practicing architect shows how the elements that constitute the classical interior wall and ceiling treatments doors and windows fireplaces and stairs can be composed into rooms satisfying both aesthetic and practical criteria Historic and contemporary examples illustrate both generic and specific solutions for designers working in the classical tradition today

**The Philadelphia House** Khosrow Bozorgi, Keith Gaddie, 2023-07-03 At the very beginning of the interwar period a small collection of formally trained architects created a distinctive residential type which can undoubtedly be recognized as a Philadelphia landmark They surpassed the conventional pseudo classic or neo Gothic eclectic solution by a unique adaptation of the principles and criteria of design to suit the expression of the exclusive cultural tradition of the clients and to respond to the natural environment The works of three Philadelphia architectural firms Mellor Meigs and Howe McGoodwin and Willing and Sims are analyzed to explore this proposition using six houses constructed between 1917 and 1928 as a basis These homes and others located in the historic Chestnut Hill neighborhood are aesthetically pleasing But they also represent a break with the past the emergence of a new type which is among the architectural design innovations of the last century generally conceived as organic architecture This work which contains over 200 photographs and drawings considers the houses the training and development of the architects the creation and development of Chestnut Hill itself and the larger distinct culture of Philadelphia in contributing to the emergence of this distinctive and lasting style Locating the Transatlantic in Twentieth-century Politics, Diplomacy and Culture Gaynor Johnson, 2024-01-25 Written in tribute to the work of Professor Alan Dobson this collection of essays brings diplomacy and the Anglo American relationship together considering politics and foreign policy in tandem with cultural interactions Uniquely placed to define exactly what transatlanticism is and to explore the ways in which this idea has evolved in the last 150 years this book asks to what extent can it be argued that there was a transatlantic world how can it be defined and what was unique about it With contributions from leading scholars it offers an overview of the field as well as a comparative exploration of Anglo American relations From emotion in foreign policy decision making to the RAF in the Vietnam War as well as leader personalities and transatlantic reactions to women's rights in China Locating the Transatlantic in Twentieth century Politics Diplomacy and Culture explores this special relationship at many levels and from many angles It further asks how this relationship has evolved over the years and considers how it might survive in a globalized post industrial world *INTERPRETING GEOMETRIES* PUBLICATIONS DIVISION, This book has been conceived with the objective of providing a new insight into the floor designs of Rashtrapati Bhavan It will help the readers appreciate the thoughts and ideas of the famous designers who enriched the aesthetics of this building They will also gain a new perspective on geometry as an inherent part of the art and architecture **Journal of the**

**Royal Institute of British Architects** ,1928      **Gardens & Design** John C. Shepherd,Geoffrey Jellicoe,1927 This book is something unique among books on the subject in that it will for the first time try to arrive at the essential conceptions of garden design the fundamental ideas that give each particular type its personality A garden expresses the essentials of a culture no less than a building indeed in the formal gardens the garden was a logical extension of the building the whole forming one complete harmonious plan Dust Jack
