Six Memos For The Next Millennium:

Six Memos for the Next Millennium Italo Calvino, 1988 One of the world's best storytellers Italo Calvino's *Invisible Cities* pinpoints for future generations the universal values for literature Here are his works, methods, intentions and hopes

Six Memos for the Next Millennium Italo Calvino, 2009 Translated by Patrick Creagh A rather wonderful little book full of wit and erudition Daily Telegraph Italo Calvino was due to deliver the Charles Eliot Norton lectures at Harvard in 1985-86 but they were left unfinished at his death The surviving drafts explore the concepts of Lightness Quickness Multiplicity Exactitude and Visibility Constancy was to be the sixth in serious yet playful essays that reveal Calvino's debt to the comic strip and the folktale With his customary imagination and grace he sought to define the virtues of the great literature of the past in order to shape the values of the future This collection is a brilliant précis of the work of a great writer whose legacy will endure through the millennium he addressed

Six Memos for the Next Millennium Italo Calvino, 2016-08-02 The celebrated author of *Cosmicomics* and *Invisible Cities* shares his brilliant original approach to literature in these late career lectures San Francisco Chronicle At the time of his death Italo Calvino was at work on his Charles Eliot Norton poetry lectures to be delivered the following year at Harvard University The six planned lectures would define the qualities he most valued in writing and which he believed would define literature in the century to come *Six Memos for the Next Millennium* collects the five lectures he completed forming not only a stirring defense of literature but also an indispensable guide to the writings of Calvino himself He devotes one memo each to the concepts of lightness quickness exactitude visibility and multiplicity drawing examples from his vast knowledge of myth folklore and works both ancient and modern Written in the mid 1980s these lectures have proven to be astonishingly prescient as we have entered Calvino's next millennium One of the most rigorously presented and beautifully illustrated critical testaments in all of literature Boston Globe A key to Calvino's own work and a thoroughly delightful and illuminating commentary on some of the world's greatest writing San Francisco Chronicle

Six Memos for the Next Millennium Italo Calvino, 1993-08-01 [Painting with Words, Writing with Pictures](#) Franco Ricci, 2001-01-01 Ricci's book ranges widely over Calvino's oeuvre to illustrate the accuracy of the idea articulated by Calvino himself that a visual image lies at the origin of all his narrative The book's main theme is the difficult interface between word and image that Calvino struggled with throughout his career the act of perception that rendered visible that which was invisible and transformed what was seen into what is read Ricci holds that Calvino's narrative has an imagocentric program and that his literary strategy is ekphrastic i.e. it is characterized by literary description of visual representation real or imaginary The book is interdisciplinary in nature and will interest not only scholars of literature but also those who work with the visual arts and with information technology [Literature and Science](#) Donald Bruce, Anthony George Purdy, 1994 Taking as a starting point the embeddedness of all disciplinary and interdisciplinary inquiry since interdisciplinarity is itself not a unitary phenomenon but encompasses many different knowledge practices embedded in

widely differing political economic and ideological constituencies the essays in this volume explore in different ways some of the conversations currently taking place across disciplinary boundaries in the exciting new field of literature and science Like literature science is seen as a site of competing ideological constructions as a complex and richly ambiguous element of modern and postmodern social discourse circulating in a wider cultural community where its currency fluctuates according to complex changes in social and epistemic conditions including the relative prestige or cultural capital of science or literature within professional and disciplinary hierarchies at any given time *Transmissibility* Jae Emerling, 2023-08-17

This book examines transmissibility to remind us why the vitality and epistemic significance of an artwork is anachronistic and futural *Transmissibility Writing Aesthetic History* performs a transdisciplinary philosophy of aesthetic history via the work of Gilles Deleuze and Félix Guattari Cy Twombly Marina Abramović Paul Celan Cecil Taylor Italo Calvino Candida Höfer and others by focusing on the artistic and historiographic labor that differentiates artworks from other modes of creation

The Playfulness of Gerard Manley Hopkins Joseph J. Feeney, 2016-03-03 Renowned Hopkins expert Joseph J. Feeney SJ offers a fresh take on Gerard Manley Hopkins which shakes our understanding of his poetry and his life and points towards the next phase in Hopkins studies While affirming the received view of Hopkins as a major poet of nature religion and psychology Feeney finds a pervasive rarely noticed playfulness by employing both the theory of play and close reading of his texts This new Hopkins lived a playful life from childhood till death as a student who loved puns and jokes and wrote parodies comic verse and satires as a Jesuit who played and organized games and had a gift for mimicry and most significantly as a poet and prose stylist who rewards readers with unexpected displays of whimsy and incongruity even strikingly in *The Wreck of the Deutschland* *The Windhover* and *the Terrible Sonnets* Feeney convincingly argues that Hopkins's distinctive playfulness is inextricably bound to his sense of fun his creativity his style and his competitiveness with other poets In unexpected images quirky metaphors strange perspectives puns coinages twisted syntax wordmusic and sprung rhythm we see his playful streak burst forth to adorn those works critics consider his most brilliant No one who absorbs this book's radical readings will ever see and hear Hopkins's poetry and prose quite the way they used to

First Pages Giancarlo Maiorino, 2010-11 Titology a term first coined in 1977 by literary critic Harry Levin is the field of literary studies that focuses on the significance of a title in establishing the thematic developments of the pages that follow While the term has been used in the literary community for thirty years this book presents for the first time a thoroughly developed theoretical discussion on the significance of the title as a foundation for scholarly criticism Though Maiorino acknowledges that many titles are superficial and indexical there exists a separate and more complex class of titles that do much more than simply decorate a book's spine To prove this argument Maiorino analyzes a wide range of examples from the modern era through high modernism to postmodernism with writings spanning the globe from Spain and France to Germany and America By examining works such as *Essais* *The Waste Land* *Ulysses* and *Don Quixote* *First Pages* proves the power of the title to connect the reader to the thematic cultural and literary context of the writing as a whole Much like a facade to a building the title page serves as the frontispiece of literature a sign that offers perspective and demands interpretation

Italo Calvino's Architecture of Lightness Letizia Modena, 2011-05-09 This study recovers Italo Calvino's central place in a lost history of interdisciplinary thought politics and literary philosophy in the 1960s Drawing on his letters essays critical reviews and fiction as well as a wide range of works primarily urban planning and design theory and history circulating among his primary interlocutors this book takes as its point of departure a sweeping reinterpretation of *Invisible Cities* *Passages* from Calvino's most famous novel routinely appear as aphorisms in calendars posters and the popular literature of inspiration and self help reducing the

novel to vague abstractions and totalizing wisdom about thinking outside the box The shadow of postmodern studies has had a similarly diminishing effect on this text rendering up an accomplished but ultimately apolitical novelistic experimentation in endless deconstructive deferrals the shiny surfaces of play and the ultimately rigged game of self referentiality In contrast this study draws on an archive of untranslated Italian and French language materials on urban planning architecture and utopian architecture to argue that Calvino s novel in fact introduces readers to the material history of urban renewal in Italy France and the U S in the 1960s as well as the multidisciplinary core of cultural life in that decade the complex and continuous interplay among novelists and architects scientists and artists literary historians and visual studies scholars His last love poem for the dying city was in fact profoundly engaged deeply committed to the ethical dimensions of both architecture and lived experience in the spaces of modernity as well as the resistant practices of reading and utopian imagining that his urban studies in turn inspired
