attempt to make sense of what philosophy is and to gauge the prospects of philosophical progress *The Appearance of Ignorance* Keith DeRose, 2018-01-10 Contextualism the view that the epistemic standards a subject must meet in order for a claim attributing knowledge to her to be true do vary with context has been hotly debated in epistemology and philosophy of language during the last few decades This volume presents develops and defends contextualist solutions to two of the stickiest problems in epistemology the puzzles of skeptical hypotheses and of lotteries It is argued that at least by ordinary standards for knowledge we do know that skeptical hypotheses are false and that we've lost the lottery Why it seems that we don't know that they're false tells us a lot both about what knowledge is and how knowledge attributions work The Appearance of Ignorance is the companion volume to Keith DeRose's 2009 title The Case for Contextualism Knowledge Skepticism and Context Volume 1 *Pyrrhonian Skepticism* Walter Sinnott-Armstrong, 2004-07-22 Throughout the history of philosophy skepticism has posed one of the central challenges of epistemology Opponents of skepticism including externalists contextualists foundationalists and coherentists have focussed largely on one particular variety of skepticism often called Cartesian or Academic skepticism which makes the radical claim that nobody can know anything However this version of skepticism is something of a straw man since virtually no philosopher endorses this radical skeptical claim The only skeptical view that has been truly held by Sextus Montaigne Hume Wittgenstein and most recently Robert Fogelin has been Pyrrhonian skepticism Pyrrhonian skeptics do not assert Cartesian skepticism but neither do they deny it The Pyrrhonian skeptics' doubts run so deep that they suspend belief even about Cartesian skepticism and its denial Nonetheless some Pyrrhonians argue that they can still hold common beliefs of everyday life and can even claim to know some truths in an everyday way This edited volume presents previously unpublished articles on this subject by a strikingly impressive group of philosophers who engage with both historical and contemporary versions of Pyrrhonian skepticism Among them are Gisela Striker Janet Broughton Don Garrett Ken Winkler Hans Sluga Ernest Sosa Michael Williams Barry Stroud Robert Fogelin and Roy Sorensen This volume is thematically unified and will interest a broad spectrum of scholars in epistemology and the history of philosophy Evidentialism and Epistemic Justification Kevin McCain, 2014-05-09 Evidentialism is a popular theory of epistemic justification yet as early proponents of the theory Earl Conee and Richard Feldman admit there are many elements that must be developed before Evidentialism can provide a full account of epistemic justification or well founded belief It is the aim of this book to provide the details that are lacking here McCain moves past Evidentialism as a mere schema by putting forward and defending a full fledged theory of epistemic justification In this book McCain offers novel approaches to several elements of well founded belief Key among these are an original account of what it takes to have information as evidence an account of epistemic support in terms of explanation and a causal account of the basing relation the relation that one's belief must bear to her evidence in order to be justified that is far superior to previous accounts The result is a fully developed Evidentialist account of well founded belief **Evidentialism** Earl Conee, 2004 Evidentialism is a

theory of knowledge the essence of which is the traditional idea that the justification of factual knowledge is entirely a matter of evidence The authors defend this theory arguing evidentialism is an asset virtually everywhere in epistemology from getting started to refuting skepticism Assurance Krista Lawlor,2013-02-28 Claiming to know is more than making a report about one s epistemic position one also offers one s assurance to others What is an assurance In this book Krista Lawlor unites J L Austin s insights about the pragmatics of assurance giving and the semantics of knowledge claims into a systematic whole The central theme in the Austinian view is that of reasonableness appeal to a reasonable person standard makes the practice of assurance giving possible and lets our knowledge claims be true despite differences in practical interests and disagreement among speakers and hearers Lawlor provides an original account of how the Austinian view addresses a number of difficulties for contextualist semantic theories resolves closure based skeptical paradoxes and helps us to tread the line between acknowledging our fallibility and skepticism The Routledge Companion to Twentieth Century Philosophy Dermot Moran,2008-10-27 Featuring twenty two chapters written by leading international scholars this major publication covers all the key figures and movements from Frege to Derrida and philosophy of language to feminist philosophy **The Bloomsbury Research Handbook of Vedanta** Ayon Maharaj,2020-05-28 This handbook brings together a distinguished team of scholars from philosophy theology and religious studies to provide the first in depth discussion of Vedanta and the many different systems of thought that make up this tradition of Indian philosophy Emphasizing the historical development of Vedantic thought it includes chapters on numerous classical Vedantic philosophies as well as the modern Vedantic views of Sri Ramakrishna Sri Aurobindo and Romain Rolland The volume offers careful hermeneutic analyses of how Vedantic texts have been interpreted and it addresses key issues and debates in Vedanta including religious diversity the nature of God and the possibility of embodied liberation Venturing into cross philosophical and cross cultural territory it also brings Vedanta into dialogue with Saiva Nondualism as well as contemporary Western analytic philosophy Highlighting current scholarly controversies and charting new paths of inquiry this is an indispensable research guide for anyone interested in the past present and future of Vedanta and Indian philosophy *Epistemology as Theology* James Beilby,2017-09-29 Alvin Plantinga is arguably one of the most influential philosophers of our time Much of his career has been devoted to explaining and defending the intellectual acceptability of Christian belief Recently he has developed a comprehensive rigorous and distinctively Christian religious epistemology This book presents the development of Plantinga s religious epistemology before considering Plantinga s mature religious epistemology in detail Locating Plantinga s most recent work in the context of his theological assumptions his previous work on religious epistemology and in the context of the current debate over how knowledge should be characterized Beilby blends theological and philosophical discussion to offer a unique perspective on Plantinga s influential proposal **Semantic Externalism** Jesper Kallestrup,2013-03 Semantic externalism is the view that the meanings of referring terms and the contents of beliefs that are

expressed by those terms are not fully determined by factors internal to the speaker but are instead bound up with the environment The debate about semantic externalism is one of the most important but difficult topics in philosophy of mind and language and has consequences for our understanding of the role of social institutions and the physical environment in constituting language and the mind In this long needed book Jesper Kallestrup provides an invaluable map of the problem Beginning with a thorough introduction to the theories of descriptivism and referentialism and the work of Frege and Kripke Kallestrup moves on to analyse Putnam s Twin Earth argument Burge s arthritis argument and Davidson s Swampman argument He also discusses how semantic externalism is at the heart of important topics such as indexical thoughts epistemological skepticism self knowledge and mental causation Including chapter summaries a glossary of terms and an annotated guide to further reading **Semantic Externalism** an ideal guide for students studying philosophy of language and philosophy of mind

Outlines of Skeptical-Dogmatism Mark Walker,2023-12-11 The ancient Pyrrhonian skeptics suspended judgment about all philosophical views Their main opponents were the Dogmatists those who believed their preferred philosophical views In *Outlines of Skeptical Dogmatism* On Disbelieving Our Philosophical Views Mark Walker argues contra Pyrrhonians and Dogmatists for a darker skepticism that we should disbelieve our philosophical views On the question of political morality for example we should disbelieve libertarianism conservatism socialism liberalism and any alternative ideologies Since most humans have philosophical beliefs such as about religious and political matters humanity writ large should disbelieve their preferred philosophical views Walker argues that Skeptical Dogmatism permits a more realistic estimation of our epistemic powers Dogmatists who believe their view is correct while believing that two or more competing views are false must at least implicitly take themselves to be ber epistemic superiors to their disagreeing colleagues Such a self assessment is as implausible as it is hubristic Skeptical Dogmatism in contrast permits a more realistic and humbler epistemic self conception Walker also shows that there are no insuperable practical difficulties in living as a Skeptical Dogmatist *The Routledge Handbook of Epistemic Contextualism* Jonathan Jenkins Ichikawa,2017-03-16 Epistemic contextualism is a recent and hotly debated topic in philosophy Contextualists argue that the language we use to attribute knowledge can only be properly understood relative to a specified context How much can our knowledge depend on context Is there a limit and if so where does it lie What is the relationship between epistemic contextualism and fundamental topics in philosophy such as objectivity truth and relativism *The Routledge Handbook of Epistemic Contextualism* is an outstanding reference source to the key
