Smoke And Mirrors The War On Drugs And The Politics Of Failure:

Smoke and Mirrors Dan Baum, 1996 Argues that despite increasing levels of government action illicit drugs are more readily available than ever and analyzes the failure of our drug policy Drugs and the Limits of Liberalism Pablo De Greiff, 1999 Society's drug problem will persist and debates over how to solve it will continue getting nowhere until we define our terms This book is an effort to do just that to parse the legal moral and philosophical underpinnings for any discussion of drug policy Does liberal political theory with its commitment to individual freedom offer any guidance in the matter of drugs particularly regarding their legal status Do the commitments that citizens of liberal democracies make commitments to ideals such as rationality equality justice and democratic forms of decision making have implications for drug policy These are the questions addressed in this volume which explores the possibilities and limitations of philosophical reflection on this pressing practical social issue The authors distinguished political and legal philosophers search out the justification of policies that manage problems of drug consumption and social disintegration but do so in keeping with the moral and political commitments of a liberal democratic society Their subjects range from the rationality or irrationality of drug consumption to the scope of liberty from the proper aims of legislation to the rhetoric of the war on drugs particularly as deployed by former Drug Czar William Bennett The Politics of HBO's The Wire Shirin Deylami, Jonathan Havercroft, 2014-12-17 This innovative new work suggests that *The Wire* reflects not simply a cultural take on contemporary America but a structural critique of the conditions of late modernity and global capitalism As such it is a visual text worth investigating and exploring for its nuanced examination of power difference and inequality Deylami Havercroft bring together nine essays addressing issues of interest to a range of academic fields in order to engage with this important cultural intervention that has transfixed audiences and sparked debate within the social scientific community While the TV show is primarily focused upon the urban politics of Baltimore the contributors to this volume read Baltimore as a global city That is they argue that the relations between race class power and violence that the series examines only make sense if we understand that inner city Baltimore is a node in a larger global network of violence and economic inequality The book is divided into three interrelated sections focusing on systemic and cultural violence the rise and decline of national and state formations and the dysfunctional and destructive forces of global capitalism Throughout the series the relation of the urban to the global is constantly being explored This innovative new volume explains clearly how *The Wire* portrays this interaction and what this representation can show social scientists interested in race neo liberal processes of globalization criminality gender violence and surveillance *The Politics of Injustice* Katherine Beckett, Theodore Sasson, 2003-10-16 The U S crime rate has dropped steadily for more than a decade yet the rate of incarceration continues to skyrocket Today more than 2 million Americans are locked in prisons and jails with devastating consequences for poor families and communities overcrowded institutions and overburdened taxpayers How did the U S become the world's leader in incarceration Why have the numbers of women

juveniles and people of color increased especially rapidly among the imprisoned

The Political Economy of Narcotics Julia Buxton, 2013-07-04 This book explores the origins history and organisation of the international system of narcotic drug control with a specific focus on heroin cannabis and cocaine It argues that the century long quest to eliminate the production trade in and use of narcotic drugs has been a profound failure The statistics produced by the international and domestic narcotic drug control agencies point to a sustained expansion of the drug trade despite the imposition of harsh criminal sanctions against those engaged as producers traffickers or consumers in the narcotic drugs market The roots of this major international policy failure are traced back to the outdated ideology of prohibition which is shown to be counterproductive utopian and a fundamentally inadequate basis for narcotic drug policy in the twenty first century Prohibition championed by many US policy makers has left the international community poorly positioned to confront those changes to the drug trade and drug markets that have resulted from globalisation Moreover prohibition based approaches are causing more harm than good as is demonstrated through reference to issues such as HIV AIDS the environment conflict development and social justice As the drug control system approaches its centenary there are signs that the global consensus on narcotic drug prohibition is fracturing Some European and South American states are pushing for a new approach based on regulation decriminalisation and harm reduction But those seeking to revise prohibition strategies faces entrenched resistance primarily by the U S This important text argues that successive American governments have pursued a contradictory approach acting decisively against the narcotic drug trade at home and abroad while at the same time working with drug traffickers and producer states when it is in America s strategic interest As a result US policy approaches emerge as a decisive factor in accounting for the failure of prohibition

Crime & Politics Ted Gest, 2003-08-07 Why has America experienced an explosion in crime rates since 1960 Why has the crime rate dropped in recent years Though politicians are always ready both to take the credit for crime reduction and to exploit grisly headlines for short term political gain these questions remain among the most important and most difficult to answer in America today In Crime Politics award winning journalist Ted Gest gives readers

the inside story of how crime policy is formulated inside the Washington beltway and state capitols why we've had cycle after cycle of ineffective federal legislation and where promising reforms might lead us in the future Gest examines how politicians first made crime a national rather than a local issue beginning with Lyndon Johnson's crime commission and the landmark anti crime law of 1968 and continuing right up to such present day measures as three strikes laws mandatory sentencing and community policing Gest exposes a lack of consistent leadership backroom partisan politics and the rush to embrace simplistic solutions as the main causes for why Federal and state crime programs have failed to make our streets safe But he also explores how the media aid and abet this trend by featuring lurid crimes that simultaneously frighten the public and encourage candidates to offer another round of quick fix solutions Drawing on extensive research and including interviews with Edwin Meese Janet Reno Joseph Biden Ted Kennedy and William Webster Crime Politics uncovers the real reasons why America continues to struggle with the crime problem and shows how we do a better job in the future
