and yes slightly morbid gift      *The Pop Art Tradition - Responding to Mass-Culture* Eric Shanes,2019-12-09 This book offers a radically new perspective on the so called Pop Art creative dynamic that has been around since the 1950s It does so by enhancing the term Pop Art which has always been recognised as a misnomer for it obscures far more than it clarifies Instead the book connects all the art in question to mass culture which has always provided its core inspiration Above all the book suggests that this Mass Culture Art has created a new Modernist tradition which is still flourishing The book traces that tradition down the forty and more years since Pop Mass Culture Art first came into being in the 1950s and locates it within its larger historical context Naturally the book discusses the major contributors to the Pop Mass Culture Art tradition right down to the present in the process including a number of artists who have never previously been connected with so called Pop Art but who have always been primarily interested in mass culture and who are therefore partially or totally connected with Pop Mass Culture Art The book reproduces in colour and discusses in great detail over 150 of the key works of the Pop Mass Culture Art tradition Often this involves the close reading of images whose meaning has largely escaped understanding previously The result is a book that qualitatively is fully on a level with Eric Shanes s other best selling and award winning writings      **Events Management** Debra Wale,Peter Robinson,Geoff Dickson,2010 The book examines the different aspects of events management It is divided into three parts The first part provides an introductory outline of the historical developments and current state of the industry while also taking into account wider political and cultural issues The second part of the book concentrates on practical operations management including planning project management marketing human resource management health and safety logistics and funding Finally the third part covers critical issues such as impacts sustainability and legacy of events Each chapter contains case studies from around the world and review questions ensuring that the book is a useful learning tool and provides a current and up to date view of the industry in this increasingly popular field of study The publication is designed for students and practitioners in the event sector and has been developed so that readers are able to understand theory and concepts presented through applied examples      Storm Tactics Handbook Larry Pardey,Lin Pardey,2008-10-02 Since writing the previous edition of Storm Tactics Handbook Lin and Larry have voyaged an additional 55 000 miles This has taken them as far north as Norway twice across the Atlantic south to Argentina and into the Pacific around Cape Horn contrary to the prevailing winds then on a North Pacific circuit With insights gained from these recent voyages they have fully revised and expanded this text by more than 40% including seven completely new chapters among them Lessons from Cape Horn An interview on storm survival and heaving to with the late Sir Peter Blake Heaving to using a Gale Rider on 55 foot Morgan s Cloud Adding Rudder Protection Stops Discussions on avoiding chafe building and using storm staysails choosing storm gear when to deploy para anchors tactics for avoiding the worst areas of cyclonic storms and many more have been expanded to answer questions posed by readers and seminar attendees      **SIERRA TWO** Marc Lonergan-Hertel,2018-05-15 a large wave buries the bow of Seamaster and I am exhaling bubbles into the ocean as I

try to call for help And then I am hit with a distinct sensation I can no longer breathe This and other incredible adventures are shared in SIERRA TWO the true story of one man s literal and metaphysical journeys In the end it s a story about embarking on a mission greater than oneself a journey of finding the value in your life and the responsibility of following your true life s path as a protector of others no matter what the cost On a river code named SIERRA TWO Marc Lonergan Hertel is seriously wounded after he loses his jungle guide to a violent death in the lost world of the Amazon At his lowest moment of scouting a three thousand mile journey for a National Geographic television show in one of the last remaining biosphere reserves in the Guiana Shield he is befriended by a lost indigenous child and an old shaman from an ancient tribe In an act that seems like repayment for his earlier sacrifices in the cities and slums of Brazil the shaman saves his life and gives Marc an ominous warning death will follow the former SEAL through the steaming jungles It will take everything Marc has learned in his life to keep himself and others alive Travel with Marc Lonergan Hertel on his extraordinary adventures and real world odyssey to make a difference in this world one life at a time
