Slow The Magazine Of The Slow Food Movement:

Food & Freedom Carlo Petrini, 2015-09-01 Inspiring the global fight to revolutionize the way food is grown distributed and eaten In the almost thirty years since Carlo Petrini began the Slow Food organization he has been constantly engaged in the fight for food justice Beginning first in his native Italy and then expanding all over the world the movement has created a powerful force for change The essential argument of this book is that food is an avenue towards freedom This uplifting and humanistic message is straightforward if people can feed themselves they can be free In other words if people can regain control over access to their food how it is produced by whom and how it is distributed then that can lead to a greater empowerment in all channels of life Whether in the Amazon jungle talking with tribal elders or on rice paddies in rural Indonesia the author engages the reader through the excitement of his journeys and the passion of his mission Here Petrini reports upon some of the success stories that he has observed firsthand From Chiapas to Puglia Morocco to North Carolina he has witnessed the many ways different peoples have dealt with food problems This book allows us to learn from these case studies and lays out models for the future

Pathways to High-Tech Valleys and Research Triangles Willem Hulsink, J. J. M. Dons, 2008-05-23 About the book The contents of most of the chapters included in this volume were originally presented and discussed during the academic workshop High tech Valleys and Research Triangles in the East of the Netherlands and elsewhere held on 30 November and 1 December 2005 at the Wageningen International Congress Centre WICC in the Netherlands At that time we had an informal agreement with Rob Bogers series editor of the Wageningen UR Frontis book series that if the quality and quantity of the talks and papers at the seminar would be sufficient and if there was willingness among the potential authors an edited book volume based upon the results of the workshop would be a possibility After the workshop when we had a critical mass of ten chapters and a dedicated group of committed authors the book project was given the green light As
