Century of Space Science J.A. Bleeker, Johannes Geiss, M. Huber, 2012-12-06 One of the most attractive features of the
young discipline of Space Science is that many of the original pioneers and key players involved are still available to describe
their field Hence at this point in history we are in a unique position to gain first hand insight into the field and its
development To this end The Century of Space Science a scholarly authoritative reference book presents a chapter by
chapter retrospective of space science as studied in the 20th century The level is academic and focuses on key discoveries
how these were arrived at their scientific consequences and how these discoveries advanced the thoughts of the key players
involved With over 90 world class contributors such as James Van Allen Cornelis de Jager Eugene Parker Reimar L st and
Ernst Stuhlinger and with a Foreword by Lodewijk Woltjer past ESO Director General this book will be immensely useful to
readers in the fields of space science astronomy and the history of science Both academic institutions and researchers will
find that this major reference work makes an invaluable addition to their collection
