## **Smallscale Enterprises In Rural Kenya Constraints And Perspectives Nirp Research For Policy Series:**

**Small-scale Enterprises in Rural Kenya** Daniyel Felzenshtain,2000 The authors of this book argue that small scale enterprises are not necessarily the marginal features of developing economies they are often thought to be If micro enterprises with 0 4 employees succeed in developing into small enterprises with 5 19 workers they can form a dynamic sector with vital links to agriculture and other sectors of the economy Taking this argument as a starting point for their research in the Nakuru and Kericho Districts in Kenya the authors aim to explain why most micro enterprises remain small They convincingly demonstrate that small scale enterprises face considerable constraints at all stages of their development These constraints specifically operate against female owned rurally located and service oriented businesses Innovative policy interventions are needed to remove these constraints and enhance the sector s contribution to peoples cash incomes and economic welfare By providing detailed information on the features of small scale enterprises and their problems during formation operation and growth this book lays the foundations for effective and tailor made support **Refugee**

Sherman,Patrick Mulindwa,2002 Includes statistics Psychological Modernity and Attitudes to Social Change in Ethiopian Young Adults Habtamu Wondimu,Benjamin Beit-Hallahmi,J. Abbink,2001 On the basis of an extensive survey among young students this study explores the often neglected issues of ethnic identities ethnic relations and ethnic conflicts in Ethiopia Unraveling stereo types and perceived characteristics of superiority and inferiority reveals some of the psychosocial contributors to such conflicts and inter ethnic tensions At the same time the study makes clear that intermarriages friendships united struggles for socio economic growth and development and a concern for national unity prevail The study depicts a multiethnic society where the chances for greater political stability and true national integration are still high if ethnicity is properly handled The findings will help policy makers and others in their efforts to bring about mutual understanding and more positive relationships and peace among the over sixty ethnic groups in Ethiopia By investigating the attributes of psychological modernity this study further helps to identify potential agents of change thus contributing to the need for change and future development **Israeli Settlement Assistance to Zambia, Nigeria and**

 Extract This study treats small scale industry in Kenya It is common wisdom that small production units possess a number of virtues and that special effort is warranted to promote the growth of this subsector Such a view is acceptable but in need of some refinement It is the argument of this paper that for each country there exists an optimum size distribution of firms This optimum is determined at any point in time by technological factors and by the pattern of demand Owing to market imperfections and government policies that are biased with respect to scale observed shares of output and employment in many underdeveloped countries are heavily skewed toward large scale enterprise This malproportionality is strikingly evident in the case of Kenya      *Micro and Small Enterprises in Kenya* Andrew Mullei, Crispin Bokea, 1999
