attacked as soon as they crossed the Scottish border Sure Bradley is dead she is shocked to be rescued from the highwaymen
by Major James MacKinnon who has his own reasons for being out on a moonless night He is pursuing a traitor who has sold
out Britain to the French He turns his attention to Romaine and takes her to where she can be safe his home When her maid
arrives to take Romaine home she insists that a duke's granddaughter cannot return from an elopement without a husband
James must marry her After all they spent a night together when he rescued her When he agrees Romaine is astounded until
he tells her that he has arranged for a fake ceremony He needs to go to England to catch his prey and taking her home to her
grandfather gives him the excuse he needs Now it is her turn to agree but nothing goes as they plan Neither of them guessed
someone wants Romaine dead in a plot that began when she was only a baby or that a marriage of convenience can become
very inconvenient when true love gets in the way **Women, Work And Sexual Politics In Eighteenth-Century**
England Bridget Hill, 2005-08-04 The author offers a reassessment of how women's experience of work in 18th century
England was affected by industrialization and other elements of economic social and technological change This study focuses
on the household the most important unit of production in the 18th century Hill examines the work done by the women of the
household not only in housework but also in agriculture and manufacturing and explains what women lost as the household's
independence as a unit of economic production was undermined Considering the whole range of activities in which women
were involved including many occupations unrecorded in censuses which have therefore been largely ignored by historians
Hill charts the increasing sexual division of labour and highlights its implications She also discusses the role of service in
husbandry and apprenticeship as sources of training for women and the consequences of their decline The final part of the
book considers how the changing nature of women's work influenced courtship marriage and relations between the sexes
Among the topics discussed are the importance of the women's contribution to setting up and maintaining a household
labouring women's attitudes to marriage and divorce and the customary alternatives to them and the role of spinsters and
widows The author concludes by asking to what extent the industrial revolution improved the overall position of women and
the opportunities open to them This series aims to re-establish women's history and to challenge the assumptions of much
mainstream history Focusing on the modern period and encouraging perspectives from other disciplines it seeks to
concentrate upon areas of focal importance in the history of Britain and continental Europe Bridget Hill is the author of
