upon international scholarship on collective memory public history testimony and witnessing this book represents a cultural history of contemporary Australia It examines the forms of witnessing that dominated Australian public culture at the turn of the millennium Since the late 1980s witnessing has developed in Australia in response to the increasingly audible voices of indigenous peoples migrants and more recently asylum seekers As these voices became public they posed a challenge not only to scholars and politicians but also most importantly to ordinary citizens When former Prime Minister Kevin Rudd delivered his historic apology to Australia s indigenous peoples in February 2008 he performed an act of collective witnessing that affirmed the testimony and experiences of Aboriginal Australians The phenomenon of witnessing became crucial not only to the recognition and reparation of past injustices but to efforts to create a more cosmopolitan Australia in the present This is a vital addition to Transaction s critically acclaimed Memory and Narrative series **Panic Attacks** Robert E.

Bartholomew,Hilary Evans,2004-08-19 Examining the ability of the media to whip up a panic and our tendency to fall victim to mass delusion and hysteria This title discusses America s kissing bug scare of 1899 Seattle s atomic fallout fiasco of 1954 the phantom slasher of Taipei in 1956 Belgium s recent Coca Cola poisoning scare and the mad gasser of Mattoon and more

Hope Springs Eternal in the Priestly Breast James Valladares PhD,2012-04-09 The clergy abuse scandal has posed the greatest threat to the traditional understanding of the Catholic priesthood since the Protestant Reformation Now as then the deadliest attacks are coming from within the Church In an attempt to improve a system that allowed a small minority of the clergy to violate children and ameliorate the gross negligence of some bishops who recycled these predators the American bishops instituted the Charter for the Protection of Children and Young People in 2002 It is unfortunately doing the Church more harm than good In Hope Springs Eternal in the Priestly Breast Fr James Valladares shows how justice and charity have been violated by some bishops in dealing with accused priests He examines the pertinent canons that guide the Churchs judicial system and finds that these are often ignored or wrongly applied He provides true cases that highlight the injustice of the process and the agony of priests who have been subjected to the charters draconian mandates The Church has incurred tremendous financial losses because of settlements rising from both legitimate and false claims Her image has been marred by the secular media which has taken advantage of the crisis Even so we often fail to understand how trivial these are in comparison to the damage done to the priesthood by the enactment of the charters policies This is the most pressing issue that the bishops need to address *The Repressed Memory Epidemic* Mark Pendergrast,2017-10-13 This

book offers a comprehensive overview of the concept of repressed memories It provides a history and context that documents key events that have had an effect on the way that modern psychology and psychotherapy have developed Chapters provide an overview of how human memory functions and works and examine facets of the misguided theories behind repressed memory The book also examines the science of the brain the reconstructive nature of human memory and studies of suggestibility It traces the present day resurgence of a belief in repressed memories in the general public as well as among

Mental Disorders in the Social Environment Stuart A. Kirk, 2005 Social workers provide more mental health services than any other profession yet recent biomedical trends in psychiatry appear to minimize the importance of their traditional concerns which focus on the social environment that accompanies mental disorders and their treatment In twenty four chapters written by distinguished scholars this book not only calls attention to this emerging problem and challenges conventional mental health beliefs and practices but also raises provocative questions Has social work become too closely associated with psychiatry and too quick to adopt a medical approach Has the focus on the therapeutic relationship negated social work's commitment to social reform Is the social worker marginalized by the emphasis in mental health on biochemistry and psychopharmacology This book calls on social workers and other health care professionals to be more skeptical about diagnosis community treatment evidence based practice psychotherapy medications and managed care

Assessing Sex Offenders Terence W. Campbell, 2007 This book reviews the scientific evidence relevant to assessing the recidivism risk of sex offenders as well as the issues related to sex offenders in considerable detail It is not an attempt for creating sympathy for sex offenders Substantial numbers of psychologists claim they can accurately identify the recidivism risk of sex offenders Despite the very limited peer reviewed data related to these claims many psychologists insist the scientific evidence supports their efforts in this regard Too often the issues detailed in these chapters have been overlooked and or misinterpreted As a result the likelihood of psychologists misusing and abusing scientific data when assessing sex offenders should not be underestimated This book identifies numerous instances of such misuse and abuse Topics include sexually violent person civil commitment statutes clinical judgment and clinical experience guided clinical risk assessments actuarial assessment of recidivism risk actuarial instruments for assessing recidivism risk computing classification accuracy supplementary assessment procedures adjusted actuarial assessments diagnostic classification treating sex offenders and ethical obligations Ultimately however the book challenges psychologists to recognize and respond to their scientific and professional responsibilities When testifying as expert witnesses ethical obligations prohibit psychologists from misinforming and misleading legal proceedings These same obligations necessitate that psychologists

support their opinions with relevant research data **Relational Remembering** Sue Campbell, 2003-10-07 Tracing the impact of the memory wars on science and culture Relational Remembering offers a vigorous philosophical challenge to the contemporary skepticism about memory that is their legacy Campbell's work provides a close conceptual analysis of the strategies used to challenge women's memories particularly those meant to provoke a general social alarm about suggestibility Sue Campbell argues that we cannot come to an adequate understanding of the nature and value of memory through a distorted view of rememberers The harmful stereotypes of women's passivity and instability that have repopulated discussions of abuse have led many theorists to regard the social dimensions of remembering only negatively as a threat or contaminant to memory integrity Such models of memory cannot help us grasp the nature of harms linked to oppression as these models imply that changed group understandings of the past are incompatible with the integrity of personal memory Campbell uses the false memory debates to defend a feminist reconceptualization of personal memory as relational social and subject to politics Memory is analyzed as a complex of cognitive abilities and social narrative activities where one's success or failure as a rememberer is both affected by one's social location and has profound ramifications for one's cultural status as a moral agent *The Martians Have Landed!* Robert E. Bartholomew, Benjamin Radford, 2011-11-08 History is replete with examples of media created scares and panics This book presents more than three dozen studies of media scares from the 17th century to the 21st century including hoaxes perpetrated via newspapers radio television and cyberspace From the 1835 batmen on the Moon hoax to more recent bird flu scares and Hurricane Katrina myths this book explores hoaxes that highlight the impact of the media on our lives and its tendency to sensationalize Most of the hoaxes covered occurred in the United States though incidents from Europe Asia Africa South America and Australia are featured as well Several are global in scope revealing the power global media wields
