The Feminist Economics of Trade Irene van Staveren, Diane Elson, Caren Grown, Nilufer Cagatay, 2012-08-06

Unravelling the complex relationship between gender inequality and trade this is the first book to combine the tools of economic and gender analysis to examine the relationship between international trade and gender relations It brings together fourteen contributions from a variety of economic perspectives including structuralist institutionalist neoclassical and Post Keynesian by a range of authors including Lourdes Bener a William Darity Marzia Fontana and Mariama Williams to demonstrate what feminist economics has contributed to the analysis of international trade through theoretical modelling econometric analysis and policy oriented contributions It includes evidence from industrialized semi industrialized and agrarian economies using country case studies and cross country analysis Arguing that trade expansion and reduction of gender inequality can be combined but only if an appropriate mix and sequence of trade and other economic policies is implemented this book is key reading for all students of international economics gender and cultural studies and politics and international relations amongst other disciplines World Food Security D. Shaw, 2007-09-28 This book is the first

comprehensive account of the numerous attempts made since the Second World War to provide food security for all It provides a reference source for all those involved and interested in food security issues *Economic Careers* Keith Tribe, 2002-09-11 In this volume fourteen senior economists describe their early introduction to the study of economics and their contribution to the development of academic economics in Britain With experience covering a period stretching from the mid 1920s to the late 1960s many of the contributors not only provide an insight into the role of university disciplines in the education system but describe their experience in wartime administration or as government advisors The interview format of the work makes for accessibility and readability in a sometimes arcane area of work The UN World Food Programme and the Development of Food Aid D. Shaw, 2001-05-17 This is the first history to be written of the World Food Programme WFP the food aid arm of the United Nations System It tells the story of the antecedents and origins of WFP and growth from modest beginnings as a three year experiment in 1963 65 to become the main source of international food aid for both disaster relief and development against the background of the evolution and development of food aid This dual role has put WFP in the front line of the United Nations attack on poverty hunger and food insecurity **International**

Competitiveness, Investment and Finance A Ganesh-Kumar, Kunal Sen, Rajendra Vaidya, 2003-09-02 Using India as a case study this well written concise book covers everything one needs to know to understand how a country becomes internationally competitive Showing that reforms that pertain to the real sector alone such as industrial deregulation and trade reforms are not enough to enhance a country's competitiveness this book makes a compelling case for complimentary financial sector reforms Of interest to academics studying international trade industrial economics and development economics this book is also guaranteed to be extremely useful for professional economists and those involved with policy making in developed and developing countries

Trade Policy, Inequality and Performance in Indian Manufacturing Kunal Sen, 2009 The relationship between trade policy and economic performance is one of the oldest controversies in economic development In recent years there has been a revival of interest in the debate on the implications of trade reforms for productivity growth and domestic pricing behaviour due in part to the current phase of wide spread trade liberalisation in developing countries and in part to developments in economic theory notably endogenous growth theories and theories of imperfect competition Also there has been considerable interest in whether trade reforms can lead to higher wage inequality and regional inequality in developing countries Both in academic and policy arenas the interest in international trade as a powerful positive force for reducing poverty in low income countries has increased In this book the author examines the implications of trade reforms with specific reference to the Indian manufacturing sector In particular it explores the evolution of regional and wage inequality employment productivity and prices from the import substitution phase of the 1970s to the period of radical reforms of the 1990s The strength of the book is the careful and systematic examination of the various aspects of the trade development nexus using rigorous empirical methods and a detailed data set of Indian industries from 1975 to 2000 Economists in general and South Asian scholars in particular will find this thorough study interesting and useful
