**The Admiralty Sessions, 1536-1834** Gregory J. Durston, 2017-06-23 The growth in England and Britain's merchant marine from the medieval period onwards meant that an increasing number of criminal offences were committed on or against the country's vessels while they were at sea Between 1536 and 1834 such crimes were determined at the Admiralty Sessions if brought to trial This was a special part of the wider Admiralty Court which unlike the other forums in that tribunal used English common law procedure rather than Roman civil law to try its cases To a modest extent this produced a hybrid court dominated by the common law but influenced by aspects of Europe's other major legal tradition The Admiralty Sessions also had their own highly singular regime for executing convicts used the Marshalsea prison to hold their suspects and displayed the Admiralty Court's ceremonial silver oar at their hearings and hangings During the near three centuries of its existence the Admiralty Sessions faced enormous legal and logistical problems The crimes they tried might occur thousands of miles and months of sailing time away from England Assembling evidence that would stand up in front of a jury was a constant challenge not least because of the peripatetic lives of the seafarers who provided most of their witnesses The forum's relationship with terrestrial criminal courts in England was often difficult and the demarcation between their respective jurisdictions was complicated and subject to change Despite all of these problems the court experienced significant successes as well as notable failures in its battle to deal with a litany of serious maritime crimes ranging from piracy to murder at sea It also spawned a series of Vice Admiralty Courts in English and British colonies around the world This book documents the origins development and abolition of the Admiralty Sessions It discusses all of the major crimes that were determined by the forum and examines some of the more arcane and unusual offences that ended up there Some of the unusual challenges presented by the maritime environment whether the impossibility of preserving dead bodies at sea the extensive power given to captains to physically punish sailors the difficulty of securing suspects in small vessels or the often gruesome problems occasioned by the marginal legal status of slaves are also considered in detail *The Documentary History of the Supreme Court of the United States, 1789-1800* Maeva Marcus, 1985

In the 1930s a band of smart and able young men some still in their twenties helped Franklin D Roosevelt transform an American nation in crisis They were the junior officers of the New Deal Thomas G Corcoran Benjamin V Cohen William O Douglas Abe Fortas and James Rowe helped FDR build the modern Democratic Party into a progressive coalition whose command over power and ideas during the next three decades seemed politically invincible This is the first book about this group of Rooseveltians and their linkage to Lyndon Johnson's Great Society and the Vietnam War debacle Michael Janeway grew up inside this world His father Eliot Janeway business editor of Time and a star writer for Fortune and Life magazines was part of this circle

strategizing and practicing politics as well as reporting on these men Drawing on his intimate knowledge of events and previously unavailable private letters and other documents Janeway crafts a riveting account of the exercise of power during the New Deal and its aftermath He shows how these men were at the nexus of reform impulses at the electoral level with reform thinking in the social sciences and the law and explains how this potent fusion helped build the contemporary American state Since that time efforts to reinvent government by brains trust have largely failed in the U S In the last quarter of the twentieth century American politics ceased to function as a blend of broad coalition building and reform agenda setting rooted in a consensus of belief in the efficacy of modern government Can a progressive coalition of ideas and power come together again The Fall of the House of Roosevelt makes such a prospect both alluring and daunting **A**

**History of the County Court, 1846-1971** Patrick Polden,1999-11-04 This 1999 book was the first full length account of the county court which in contemporary English life has become the main forum for most civil disputes It began as the poor man's court largely concerned with the pursuit of working class debtors but as this book shows it has expanded far beyond its origins as an agency for the more easy recovery of small debts and now includes in its jurisdiction a diverse range of matters including housing accidents and consumer goods Drawing on a wide range of sources the author traces the history of the county court from its creation in 1846 through to the reconstruction of the court system in 1971 He describes its organisation and officers from judges to bailiffs and discusses the roles of judges practising lawyers and lay persons The text is an intriguing engagement with themes including access to justice *The Bonds of Freedom* Jake Subryan

Richards,2025-09-02 The story of the long fight for freedom of African captives rescued from the illegal slave trade only to be forced back into bondage The Bonds of Freedom tells the forgotten story of people seized from slave ships by maritime patrols liberated then forced into bonded labor between 1807 and 1880 Using extensive archival research from Sierra Leone South Africa Brazil Cuba the United Kingdom and the United States historian Jake Subryan Richards uncovers the contrasting ideas and practices of authoritarianism and freedom that empires and liberated Africans developed during the protracted end of the illegal slave trade Following the Africans journeys from enslavement to liberation Richards recounts their capture and embarkation on ships that participated in the vast slave trade to Brazil and Cuba the maritime seizure of those ships and the adjudication that assigned freed captives to bonded labor The captives fought against their bondage as state agents limited their freedom of choice and movement The liberated Africans story shows that far from following a straightforward path to freedom these men and women navigated anti slave trade laws that both subjected them to authoritarian control and provided a domain for them to create their own visions of freedom Through meticulous research and engaging narrative Richards sheds light on their legal battles community building efforts and ongoing quest for justice and autonomy in the face of enduring challenges **Legal Foundations of Tribunals in Nineteenth Century England**

Chantal Stebbings,2007-01-18 Nineteenth century governments faced considerable challenges from the rapid novel and

profound changes in social and economic conditions resulting from the industrial revolution In the context of an increasingly sophisticated and complex government from the 1830s the specialist and largely lay statutory tribunal was conceived and adopted as the principal method of both implementing the new regulatory legislation and resolving disputes The tribunal's legal nature and procedures and its place in the machinery of justice were debated and refined throughout the Victorian period In examining this process this 2007 book explains the interaction between legal constraints social and economic demand and political expediency that gave rise to this form of dispute resolution It reveals the imagination and creativity of the legislators who drew on diverse legal institutions and values to create the new tribunals and shows how the modern difficulties of legal classification were largely the result of the institution's nineteenth century development *Literary Copyright Reform in Early Victorian England* Catherine Seville, 1999-09-20 This text was the first study of the controversial bills leading to the Copyright Act 1842

**Navies in Northern Waters** Rolf Hobson, TOM KRISTIANSEN, 2004-08-02 *Navies in Northern Waters* is a collection of articles covering the roles played by the secondary navies of northern European powers and the United States within the maritime balance of power The contributions covering the 18th and 19th centuries focus on their relations with each other as they sought to create a counterweight to the dominant naval power of Britain The inter war years are treated from the perspectives of international disarmament efforts within the framework of collective security and the subsequent naval rivalry in the Baltic area in the years leading up to the Second World War For the post 1945 period the contributions concentrate on superpower rivalry in northern waters during the Cold War the changing aspects of security policy since the collapse of the Soviet Union and the particular challenges facing small coastal states policing extensive waters of increasing economic importance

**Maintenance in Medieval England** Jonathan Rose, 2017-06-22 This is the first book covering those who abused and misused the legal system in medieval England and the initial attempts of the Anglo American legal system to deal with these forms of legal corruption *Maintenance* in the sense of

intermeddling in another person's litigation was a source of repeated complaint in medieval England. This book reveals for the first time what actually transpired in the resultant litigation. Extensive study of the primary sources shows that the statutes prohibiting maintenance did not achieve their objectives because legal proceedings were rarely brought against those targeted by the statutes; the great and the powerful. Illegal maintenance was less extensive than frequently asserted because medieval judges recognized a number of valid justifications for intermeddling in litigation. Further, the book casts doubt on the effectiveness of the statutory regulation of livery. This is a treasure trove for legal historians, literature scholars, lawyers, and academic libraries.

**Sir Robert Chambers** Thomas M. Curley, 1998. Sir Robert Chambers 1737-1803 was a literary as well as a legal man. Friend and collaborator of Samuel Johnson, professor of English law at Oxford University, and one of the four judges on the first Supreme Court of India, Chambers was an enormously influential figure in the eighteenth-century British empire. This book is the first authoritative biography of Chambers and is also the first major contribution in decades to historical scholarship on Johnson. It demonstrates Chambers's important role in early English legal education, in Samuel Johnson's life and political thinking, and in the formation of British India during a period of active cultural exchange between East and West. The cooperation of Chambers's descendants and the discovery of all his judicial notebooks have given Curley access to a splendid archival collection of rare documents about Sir Robert's private life and public career. Curley adds important dimensions to political and legal history by recounting the establishment of the Vinerian Chair of English law at Oxford University and by documenting long hidden activities, motives, and decisions in the stormy foundation of British India, beginning with Chambers's farsighted role in the century's most infamous criminal case, the prosecution of Maharajah Nuncomar in 1775. Sir Robert Chambers is the first analysis of Chambers's groundbreaking commingling of English law and Indian practice as detailed in seventy-two volumes of his judicial notebooks recovered in Calcutta. As an Indian judge, Chambers founded the enduring hybrid heritage of Anglo-Indian law on which the modern constitution of the Republic of India still rests. This book also provides the first full account of Chambers's close friendship with Samuel Johnson and their collaboration on a survey of the British constitution, which profoundly influenced the later writings of both men. Curley reveals Johnson's literary and political interest in India and his call for encyclopedic study of the East by the West, a call heeded by Chambers and Sir William Jones in founding the Asiatic Society of Bengal. Amassing the largest library of Sanskrit manuscripts in the Western World, Chambers contributed significantly to European awareness of the riches of ancient Indian literature. Lively and readable, this authoritative biography examines the relationships and activities of prominent men in eighteenth-century England and supplements Curley's two-volume edition of Chambers's and Johnson's *A Course of Lectures on the English Law*. It will interest readers curious about multiculturalism two centuries before the term existed, as it developed under the British empire. All scholars of legal and literary history and of Asian and British studies, as well as lovers of biography, should relish this absorbing and well-researched history.

*The Encyclopedia of the Wars of the Early*

*American Republic, 1783-1812* Spencer C. Tucker, 2014-06-11 Relatively little attention has been paid to American military history between 1783 and 1812 arguably the most formative years of the United States This encyclopedia fills the void in existing literature and provides greater understanding of how the nation evolved during this era This encyclopedia offers a comprehensive examination of U S military history from the beginning of the republic in 1783 up to the eve of war with Great Britain in 1812 It enables a detailed study of the Early Republic during which ideological and political divisions occurred over the fledgling U S military The entries cover all the important battles key individuals weapons Indian nations and treaties as well as numerous social political cultural and economic developments during this period The contents of the work will enable readers at the high school college university and even graduate level to comprehend how political parties emerged and how ideological differences over the organization size and use of the military developed Larger global developments including Anglo American and Franco American interactions relations between Middle Eastern states and the United States and relations and warfare between the U S government and various Indian nations are also detailed The extensive and detailed bibliographies will be immensely helpful to learners at all levels
