Six American Families:

Six American Families Paul Wilkes, 1977 *An American Family* Jeffrey Ruoff, 2002 Before 1973 the Loud family of Santa Barbara California lived in the privacy of their own home With the airing of the documentary *An American Family* that privacy extended to every American home with a television This book is the first to offer a close look at *An American Family* the documentary that blurred conventions stirred passions revised impressions of family life and definitions of private and public and began the breakdown of distinctions between reality and spectacle that culminated in cultural phenomena from *The Oprah Winfrey Show* to *Survivor* *A Catalog of Programs for the USIS Video Library* United States Information Agency. Television and Film Service, 1985 **American Families: Trends and Pressures, 1973** United States. Congress. Senate. Committee on Labor and Public Welfare. survey with over 200 Korean American teens and over one hundred parents to provide context then focusing on the stories of five families with young adults in order to go in depth and shed light on today's dynamics in these families. The book argues that Korean American immigrant parents and their children today are thinking in shifting ways about how each member of the family can best succeed in the U.S. Rather than being marked by a generational division of Korean vs. American, these families struggle to cope with an American society in which each of their lives are shaped by racism, discrimination, and gender. Thus, the foremost goal in the minds of most parents is to prepare their children to succeed by instilling protective character traits. The authors show that Asian American and particularly Korean American family life is constantly shifting as children and parents strive to accommodate each other even as they forge their own paths toward healthy and satisfying American lives. This book contributes a rare ethnography of family life following them through the transition from teenagers into young adults to a field that has largely considered the immigrant and second generation in isolation from one another. Combining qualitative and quantitative methods and focusing on both generations, this book makes the case for delving more deeply into the ideas of immigrant parents and their teens about raising children and growing up in America, ideas that defy easy classification as Korean or American.

African American Families Today Angela J. Hattery, Earl Smith, 2012-10-18 From teen pregnancy and single parenting to athletics and HIV/AIDS, myths about African American families abound. This provocative book by two acclaimed scholars of race and ethnicity debunks many common myths about black families in America, sharing stories and drawing on the latest research to show the realities. **African American Families Today** examines the wellbeing of African American families around topics including marriage, health, education, incarceration, wealth, and more. Authors Angela J. Hattery and Earl Smith show that even though the election of the first African American president, Barack Obama, has been symbolically important for African Americans, his presidency has not had a measurable impact on the daily lives of African American families. As the book shows, racial inequality persists; we're clearly not in a post-racial society.

African American Families Angela J. Hattery, Earl Smith, 2007-04-19 Bravo to the authors. They have done an excellent job addressing the issues that are critical to community members, policy makers, and interventionists concerned with Black families in the context of our nation. Michael C. Lambert, University of Missouri Columbia. **African American Families** is a timely work. The strength of this text lies in the depth of coverage, clarity, and the ability to combine secondary sources, statistics, and qualitative data to reveal the plight of African Americans in society. Edward Opoku Dapaah, Winston-Salem State University. **African American Families** is both engaging and challenging and is perhaps one of the most important works I have read in many years. This book will most certainly move the discourse of the socio-economic conditions of black families forward beyond the boundaries already set by other books in the market. **African American Families** is an excellent book whose time has come and one that I would most definitely adopt. Lateef O. Badru, University of Louisville.

African American Families provides a systematic sociological study of contemporary life for families of African descent living in the United States Analyzing both quantitative and qualitative data authors Angela J Hattery and Earl Smith identify the structural barriers that African Americans face in their attempts to raise their children and create loving healthy and raise the children of the next generation Key Features Uses the lens provided by the race class and gender paradigm Examples illustrate the ways in which multiple systems of oppression interact with patterns of self defeating behavior to create barriers that deny many African Americans access to the American dream Addresses issues not fully or adequately addressed in previous books on Black families These issues include personal responsibility and disproportionately high rates of incarceration family violence and chronic illnesses like HIV AIDS Brings statistical data to life The authors weave personal stories based on interviews they ve conducted into the usual data from scholarly literature and from U S Census Bureau reports Provides several illustrations from Hurricane Katrina A contemporary analysis of a recent disaster demonstrates many of the issues presented in the book such as housing segregation and predatory lending practices Offers extensive data tables in the appendices Assembled in easy to read tables students are given access to the latest national agencies data from agencies including the U S Census Bureau Centers for Disease Control and Bureau of Justice Statistics Intended Audience This is an ideal textbook for advanced undergraduate and graduate courses such as African American Families Sociology of the Family Contemporary Families and Race and Ethnicity in the departments of Human Development and Family Studies Sociology African American Studies and Black Studies
