Johnson,Tom Johnson,1999-07-01 From the 1890s through the 1920s the postcard was an extraordinarily popular means of communication and many of the postcards produced during this golden age can today be considered works of art Postcard photographers traveled the length and breadth of the nation snapping photographs of busy street scenes documenting local landmarks and assembling crowds of local children only too happy to pose for a picture These images printed as postcards and sold in general stores across the country survive as telling reminders of an important era in America s history *A Guide to the Collection of Meteorites* British Museum (Natural History). complex relationship between British Great War culture and modernist writings She shows that through the experience of the Great War both civilian and combatant modernist writers found that language could no longer represent experience She goes on to identify and contextualize several of the resulting modernist tropes she links the dissolving modernist self to soldiers familiarity with corpses the modernist mistrust of factuality to the apparent inaccessibility of facts regarding the rape of Belgium and the modernist interest in multiple viewpoints to the singularity of perspective with which generals studied battlefield maps Though her emphasis is on literary works by Robert Graves E M Forster and Vera Brittain among others Booth s analysis extends to memorials posters and architecture of the Great War This interdisciplinary quality of Booth s study results in a much deeper understanding of how the Great War affected cultural representations and how that culture represented the War

Postcard America Jeffrey L. Meikle,2016-01-20 From the Great Depression through the early postwar years any postcard sent in America was more than likely a linen card Colorized in vivid often exaggerated hues and printed on card stock embossed with a linen like texture linen postcards celebrated the American scene with views of majestic landscapes modern cityscapes roadside attractions and other notable features These colorful images portrayed the United States as shimmering with promise quite unlike the black and white worlds of documentary photography or Life

magazine Linen postcards were enormously popular with close to a billion printed and sold Postcard America offers the first comprehensive study of these cards and their cultural significance Drawing on the production files of Curt Teich Co of Chicago the originator of linen postcards Jeffrey L Meikle reveals how photographic views were transformed into colorized postcard images often by means of manipulation adding and deleting details or collaging bits and pieces from several photos He presents two extensive portfolios of postcards landscapes and cityscapes that comprise a representative iconography of linen postcard views For each image Meikle explains the postcard s subject describes aspects of its production and places it in social and cultural contexts In the concluding chapter he shifts from historical interpretation to a contemporary viewpoint considering nostalgia as a motive for collectors and others who are fascinated today by these striking images
