*Dead Last* Phillip G. Payne, 2009

2009 CHOICE Outstanding Academic Title

If George Washington and Abraham Lincoln are the saints in America's civil religion then the twenty ninth president Warren G Harding is our sinner. Prior to the Nixon administration the Harding scandals were the most infamous of the twentieth century. Harding is consistently judged a failure ranking dead last among his peers. By examining the public memory of Harding Phillip G Payne offers the first significant reinterpretation of his presidency in a generation. Rather than repeating the old stories Payne examines the contexts and continued meaning of the Harding scandals for various constituencies. Payne explores such topics as Harding's importance as a midwestern small town booster, his rumored black ancestry, the role of various biographers in shaping his early image, the tension between public memory and academic history, and finally his status as an icon of presidential failure in contemporary political debates. Harding was a popular president and was widely mourned when he died in office in 1923 but with his death began the construction of his public memory and his fall from political grace. In *Dead Last* Payne explores how Harding's name became synonymous with corruption, cronyism and incompetence and how it is used to this day as an example of what a president should not be.

*Backlash Presidents* Julia R. Azari, 2025-09-23

How most presidents avoid upsetting the racial status quo and why those who do pave the way for lawless norm violating successors. When Barack Obama won the White House in 2008 becoming the nation's first Black president the stage was set for Donald Trump's eventual rise to power. *Backlash Presidents* shows how throughout American history administrations that challenge the country's racial status quo are followed by presidents who deal in racially charged politics and presidential lawlessness culminating in impeachment crises. In this incisive book Julia Azari traces the connections between racially transformative presidents and their successors examining the presidencies of Abraham Lincoln and Andrew Johnson, Lyndon Johnson and Richard Nixon and Obama and Trump. When he signed long awaited civil rights legislation in 1964 Lyndon Johnson unleashed a perfect political storm that swept Nixon into the White House. Azari demonstrates how Nixon's rhetoric, relationship to Congress and attitudes about executive power exhibit striking parallels with Andrew Johnson and Trump. She discusses how their actions are linked to race and racialized institutions: the Department of War during Reconstruction, the FBI during the Nixon years and elections today, and looks at what happens after impeachment describing how the rush to establish a new order perpetuates many of the same problems as the old. Challenging the conventional wisdom about the role of norms in American democracy *Backlash Presidents* reveals

how normal presidential politics upholds unsustainable racial hierarchy that in turn gives rise to intense periods of instability
