

ANTHONY LAKE,
FORMER NATIONAL SECURITY ADVISOR

"THE REAL THREATS TO AMERICAN SECURITY....

Lake shows an easy mastery of the subject, high intelligence,
and good judgement." — *New York Times Book Review*

6 NIGHTMARES

Six Nightmares Real Threats In A Dangerous World And How America Can Meet Them

Dan Kuwali

Six Nightmares Real Threats In A Dangerous World And How America Can Meet Them:

6 Nightmares Anthony Lake, 2000 A former National Security Advisor offers a chilling portrait of six terrifying scenarios that threaten the safety and security of the United States including the rise of global terrorism and the proliferation of nuclear weapons and describes why and why not the American government is prepared to meet such potential threats 20 000 first printing

6 Nightmares Anthony Lake, 2000-10-26 Part important warning part riveting memoir former National Security Advisor Anthony Lake paints six terrifying scenarios that threaten our country's safety and shows how the government is prepared to face them and how it is not Though we live in a time of peace serious threats to our national security lie just beyond the horizon In Six Nightmares former National Security Advisor Anthony Lake examines six major threats to America's safety that could arise from global terrorism the proliferation of nuclear weapons and other serious risks Weaving in first-hand views of key recent decisions he shows how these threats could become real how the government is prepared to face them and the alarming ways in which it is not

Clinton in Haiti P. Girard, 2004-12-09 The book focuses on Aristide's political career emphasizing his strategizing compromising and dealing with the Clinton administration In his presentation of the conflict Girard carefully balances Aristide's and Clinton's needs and the demands and moral positions the leaders make against each other the result is that each leader and his constituency comes to life and their maneuverings and decisions become engaging and meaningful While Girard focuses on the conflict itself and the foreign policy dynamics at play between Haiti and the US he also paints a compelling picture of contemporary Haiti and delineates with great clarity the tensions which led to recent violence and the deposition of Aristide

Jihad Ahmed Rashid, 2002-12-31 An essential examination of the roots of fundamentalist rage in Central Asia from the acclaimed author of Taliban and Descent into Chaos Ahmed Rashid whose masterful account of Afghanistan's Taliban regime became required reading after September 11 turns his legendary skills as an investigative journalist to five adjacent Central Asian Republics Kazakhstan Kyrgyzstan Tajikistan Turkmenistan and Uzbekistan where religious repression political corruption and extreme poverty have created a fertile climate for militant Islam Based on groundbreaking research and numerous interviews Rashid explains the roots of fundamentalist rage in Central Asia describes the goals and activities of its militant organizations including Osama bin Laden's al Qaeda and suggests ways of neutralizing the threat and bringing stability to the troubled region A timely and pertinent work Jihad is essential reading for anyone who seeks to gain a better understanding of a region we overlook at our peril

Preemption Henry Shue, David Rodin, 2007-11-01 The dramatic declaration by U S President George W Bush that in light of the attacks on 9 11 the United States would henceforth be engaging in preemption against such enemies as terrorists armed with weapons of mass destruction forced a wide open debate about justifiable uses of military force Opponents saw the declaration as a direct challenge to the consensus which has formed since the ratification of the Charter of the United Nations that armed force may be used only in defense Supporters responded that in an age of terrorism defense could only

mean preemption This volume of all new chapters provides the historical legal political and philosophical perspective necessary to intelligent participation in the on going debate which is likely to last long beyond the war in Iraq Thorough defenses and critiques of the Bush doctrine are provided by the most authoritative writers on the subject from both sides of the Atlantic Is a nation ever justified in attacking before it has been attacked If so under precisely what conditions Does the possibility of terrorists with weapons of mass destruction force us to change our traditional views about what counts as defense This book provides the most comprehensive assessment to date of the justifiability of preemptive or preventive military action Its engaging debate accompanied by an analytic Introduction focuses probing criticism against the most persuasive proponents of preemptive attack or preventive war who then respond to these challenges and modify or extend their justifications Authors of recent pivotal analyses including historian Marc Trachtenberg international relations professor Neta Crawford law professor David Luban and political philosopher Allen Buchanan are confronted by other authoritative writers on the nature and justification of war more broadly including historian Hew Strachan international normative theorist Henry Shue and philosophers David Rodin Walter Sinnott Armstrong and Suzanne Uniacke The resulting lively and many sided exchanges shed historical legal political and philosophical light on a key policy question of our time Going beyond the simple dichotomies of popular discussion the authors reflect on the nature of all warfare the arguments for and against it and the possibilities for the moral to constrain the military and the political in the face of grave threat This book is a project of the Oxford Leverhulme Programme on the Changing Character of War

Clinton's Grand Strategy James D. Boys, 2015-02-26

President Clinton's time in office coincided with historic global events following the end of the Cold War The collapse of Communism called for a new US Grand Strategy to address the emerging geopolitical era that brought upheavals in Somalia and the Balkans economic challenges in Mexico and Europe and the emergence of new entities such as the EU NAFTA and the WTO Clinton's handling of these events was crucial to the development of world politics at the dawn of the twenty first century Only by understanding Clinton's efforts to address the challenges of the post Cold War era can we understand the strategies of his immediate successors George W Bush and Barack Obama both of whom inherited and continued Clinton era policies and practices James D Boys sheds new light on the evolution and execution of US Grand Strategy from 1993 to 2001 He explores the manner in which policy was devised and examines the actors responsible for its development including Bill Clinton Anthony Lake Samuel Berger Warren Christopher Madeline Albright and Richard Holbrook He examines the core components of the strategy National Security Prosperity Promotion and Democracy Promotion and how they were implemented revealing a hitherto unexplored continuity from campaign trail to the White House Covering the entire duration of Clinton's presidential odyssey from his 1991 Announcement Speech to his final day in office the book draws extensively on newly declassified primary materials and interviews by the author with key members of the Clinton administration to reveal for the first time the development and implementation of US Grand Strategy from deep within the West Wing of the Clinton

White House **White House Studies Compendium** Robert W. Watson, 2007 brings together piercing analyses of the American presidency dealing with both current issues and historical events The compendium consists of the combined and rearranged issues of the journal White House Studies with the addition of a comprehensive subject index Preface

National Governments and Control of the Internet Giampiero Giacomello, 2004-11-10 In recent years Internet control has become one of the major indicators to assess the balance between freedom and security in democracies This book explores and compares why and to what extent national governments decide to control the Internet and how this impacts on crucial socio economic activities and fundamental civil rights The author provides detailed studies on the US Germany Italy and further case studies on Brazil Canada India the Netherlands South Africa and Switzerland to address topics such as national security freedom of expression and privacy

The Changing Face of Warfare in the 21st Century Gregory Simons, Julian Chifu, 2017-07-20 This study discusses salient trends demonstrated by contemporary warfare of these first years of the 21st century The authors reinforce previous notions of Fourth Generation Warfare but most importantly explore the workings of new components and how these have modified the theory and practice of warfare beyond the basic divisions of conventional and unconventional warfare as witnessed in the preceding century Throughout history there has been a close interaction between politics communication and armed conflict and a main line of investigation of this book is to track changes that are presumed to have occurred in the way and manner in which armed conflicts are waged Using cogent examples drawn variously from conflicts of the Arab Spring the Islamic State and Russian adventurism in South Ossetia Crimea and Eastern Ukraine the authors demonstrate the application of Information Warfare the practice of Hybrid Warfare and offensive use of diplomacy communications economics and international law to obtain political and military advantages against the status quo states of the international community The authors combine a theoretical framework with concrete empirical examples in order to create a better understanding and comprehension of the current events and processes that shape the character of contemporary armed conflicts and how they are informed and perceived in a highly mediated and politicised world

Ideal Illusions James Peck, 2011-03-15 From a noted historian and foreign policy analyst a groundbreaking critique of the troubling symbiosis between Washington and the human rights movement The United States has long been hailed as a powerful force for global human rights Now drawing on thousands of documents from the CIA the National Security Council the Pentagon and development agencies James Peck shows in blunt detail how Washington has shaped human rights into a potent ideological weapon for purposes having little to do with rights and everything to do with furthering America's global reach Using the words of Washington's leaders when they are speaking among themselves Peck tracks the rise of human rights from its dismissal in the cold war years as fuzzy minded to its calculated adoption after the Vietnam War as a rationale for American foreign engagement He considers such milestones as the fight for Soviet dissidents Tiananmen Square and today's war on terror exposing in the process how the human rights movement has too often failed to

challenge Washington's strategies A gripping and elegant work of analysis *Ideal Illusions* argues that the movement must break free from Washington if it is to develop a truly uncompromising critique of power in all its forms *The Age of Sacred Terror* Daniel Benjamin, Steven Simon, 2003-10-14 Winner of the 2004 Arthur Ross Book Award from the Council on Foreign Relations From two of the world's foremost experts on the new terrorism comes the definitive book on the rise of al Qaeda and America's efforts to combat the most innovative and dangerous terrorist group ever Daniel Benjamin and Steven Simon trace the growth of radical Islam from its medieval origins and drawing on their years of counter terrorism work at the National Security Council provide essential insights into the thinking of Usama bin Laden and his followers With unique authority they analyze why America was unable to defend itself against this revolutionary threat on September 11 2001 why bin Laden's apocalyptic creed is gaining ground in the Islamic world and what the United States must do to stop the new terror *Presidential Decision Making and Military Intervention in the Post-Cold War Era* Dennis N. Ricci, 2019-07-08 Despite the end of the Cold War the frequency of U.S. military intervention has increased While military intervention accelerated after 9/11 increasing intervention was demonstrably evident well before 2001 *Presidential Decision Making and Military Intervention in the Post Cold War Era Go or No Go* analyzes presidential decision making regarding military intervention through a focused structured comparison of go and no go decisions from the four successive administrations of Presidents George H.W. Bush Bill Clinton George W. Bush and Barack Obama Dennis Ricci explores competing explanations for why a presidential administration will decide to intervene in one situation and not in another Since both the situations and decision makers vary across cases Ricci analyzes explanations for intervention by asking Why intervene Why use force or not Under what conditions or circumstances are intervention decisions made *State of Recovery* Barry Scott Zellen, 2013-02-28 In the decade that followed 9/11 technologies and technology policies became central to homeland security For example the U.S. erected new border defenses with remote sensors and biometric scanners and deployed new autonomous air warfare capabilities such as the drone program Looking at efforts to restore security after 9/11 the work examines issues such as the rise in technology spending the various scenarios of mass terror and America's effort to ensure that future engagements will take place far from the homeland Operation Iraqi Freedom Iran's emergence as nuclear threat and North Korea's acceleration of its missile program are analyzed along with the axis of evil and America's effort to create a ballistic missile shield to thwart this emerging threat to its security By focusing on the technologies of homeland security rather than on cyber warfare itself the work offers a unique and needed survey that will appeal to anyone involved with the study and development of homeland and strategic security ***In Search of Bill Clinton*** John D. Gartner, 2008-09-16 What makes Bill Clinton tick William Jefferson Clinton the 42nd President of the United States is undoubtedly the greatest American enigma of our age a dark horse that captured the White House fell from grace and was resurrected as an elder statesman whose popularity rises and falls based on the day's sound bytes John Gartner's *In Search of Bill Clinton* unravels

the mystery at the heart of Clinton's complex nature and why so many people fall under his spell. He tells the story we all thought we knew from the fresh viewpoint of a psychologist as he questions the well-crafted Clinton life story. Gartner, a therapist with an expertise in treating individuals with hypomanic temperaments, saw in Clinton the energy, creativity, and charisma that leads a hypomanic individual to success as well as the problems with impulse control and judgment which frequently result in disastrous decision making. He knew though that if he wanted to find the real Bill Clinton, he couldn't rely on armchair psychology to provide the answer. He knew he had to travel to Arkansas and around the world to talk with those who knew Clinton and his family intimately. With his boots on the ground, Gartner uncovers long-held secrets about Clinton's mother, the ambitious and seductive Virginia Kelley, her wild life in Hot Springs, and the ghostly specter of his biological father, Bill Blythe, to uncover the truth surrounding Clinton's rumor-filled birth. He considers the abusive influence of Clinton's alcoholic stepfather, Roger Clinton, to understand the repeated public abuse he invited both by challenging a hostile Republican Congress and engaging in the clandestine affair with Monica Lewinsky that led to his downfall. Of course, there is no marriage more dissected than that of the Clintons, both in the White House and on the Hillary Clinton presidential campaign trail. Instead of going down familiar paths, Gartner looks at that relationship with a new focus and clearly sees in Hillary's molding of Clinton into a more disciplined politician, the figure of Bill Clinton's stern grandmother, Edith Cassidy, the woman who set limits on him at an early age. Gartner brings Clinton's story up to date as he travels to Ireland, the scene of one of Clinton's greatest diplomatic triumphs, and to Africa, where his work with AIDS victims is unmatched, to understand Clinton's current humanitarian persona and to find out why he is beloved in so much of the world while still scorned by many at home. John Gartner's exhaustive trip around the globe provides the richest portrait of Clinton, yet a man who is one of our national obsessions. *In Search of Bill Clinton* is a surprising and compelling book about a man we all thought we knew.

Mediation and Liberal Peacebuilding Mikael Eriksson, Roland Kostić, 2013. Despite the wealth of research on external interventions and practices of Western peacebuilding, many scholars tend to rely on findings in the so-called post-agreement phase of interventions. As a result, most mainstream peacebuilding literature pays limited or no attention to the linkages that exist between mediation practices in the negotiation phase and processes in the post-peace agreement phase of intervention. By linking the motives and practices of interveners during negotiation and implementation phases into a more integrated theoretical framework, this book makes a unique contribution to the on-going debate on the so-called Western liberal models of peacebuilding. Drawing upon in-depth case studies, this innovative volume examines a variety of political motives behind third-party interventions, thus challenging the very founding concept of mediation literature from the publisher. [For Love of Politics](#) Sally Bedell Smith, 2007-10-23. During their eight years in the White House, Bill and Hillary Clinton worked together more closely than the public ever knew. Their intertwined personal and professional lives had far-reaching consequences for politics, domestic policy, and international affairs, and their marital troubles became a national soap opera. Based on

unparalleled access to scores of Clinton insiders cabinet officers top administration officials close personal friends and skilled analysis of a vast written record including previously unavailable private papers *For Love of Politics* is the first book to explain the dynamics of Bill and Hillary's relationship showing that they are two halves of a unique whole and that it is impossible to understand one Clinton without factoring in the other Sally Bedell Smith acclaimed author of *Grace and Power The Private World of the Kennedy White House* offers intimate scenes from the Clinton marriage with new details and insights into how a passion for politics sustained Bill and Hillary through one crisis after another With clarity and depth Smith examines the origins of an unconventional copresidency explains the impact of the Clintons tensions as well as their talents and reveals how Hillary shifted from openly exercising power in the first two years to acting as a hidden hand advising her husband on a range of foreign and domestic issues as well as decisions on hiring and firing Smith describes for the first time the inner workings of a White House with an unprecedented three forces to be reckoned with Bill Hillary and Al Gore and shows how the First Lady's rivalry with the Vice President played out in the West Wing and even more profoundly during the 2000 campaign As Hillary seeks to follow in her husband's footsteps this riveting book will leave readers marveling at what they never knew about Bill's intensely covered presidency and wondering what it would be like to have two presidents both named Clinton living in the White House

The Responsibility to Protect Dan Kuwali, 2011 Explores the scope and limits of Article 4 h of the African Union Constitutive Act Introd

AIDS in Asia Susan Hunter, 2015-06-02 AIDS in Asia provides a thorough introduction to the social and economic issues surrounding the AIDS epidemic in Asia including Geographic obstacles to health care Gender inequality and human trafficking Political turmoil and poor leadership Asia's role in the sex and drug trade Economic conditions and exploitation At the crucial moment when the spread of AIDS in this region is beginning to gain worldwide recognition distinguished expert Susan Hunter makes clear the catastrophic threat AIDS poses to Asia and the world and draws on her experience to discuss the potential policy implications

America Between the Wars Derek Chollet, James Goldgeier, 2009-06-02 On November 9 1989 the Berlin Wall collapsed taking the Cold War down with it The next twelve years passed in a haze of self congratulation Republican confusion and angst and economic prosperity until they ended abruptly with a stunning catastrophe on September 11 2001 In *America Between The Wars* Derek Chollet and James Goldgeier blend deep expertise with broad access to both parties political and policy establishments to find out how and why America failed to recognize that when we became the sole superpower with responsibility for the world's oversight we overlooked how the new world actually worked

Will Terrorists Go Nuclear? Brian Michael Jenkins, 2009-12-02 For more than 30 years Jenkins has been advising the military government and prestigious think tanks on the dangers of nuclear proliferation Now he goes beyond what the experts know to examine how terrorists themselves think about such weapons
