broadly the content is linked to the realities of living speech through a connection via the concept of diacritic with the Merleau Pontian phenomenology and beyond the formal determinations of a semiolinguistic system and its calculus Such problems are mainly epistemological concerning the nature and legitimate scope of semiolinguistic knowledge empirical concerning the observational device and the data s composition and theoretical regarding the choice of a conceptual and formalized explicative frame With regard to theory the book introduces a morphodynamical architecture of linguistic signs and operations as a suitable mathematization of Saussurean theory The Husserlian phenomenological signification of this formal apparatus is then established and from an empirical standpoint its compatibility with neurobiological experimental results is discussed
