

CHAPTER 1

BRIEF HISTORY OF THE WORLD BEFORE PROPHET MUHAMMAD (PBUH)

ARABIA

Arabia, before Prophet Muhammad (pbuh), consisted of numerous semi-nomadic tribes. They were illiterate and preserved their history by oral transmission (written through poetry). Before Muhammad (pbuh) announced his prophetic mission, there were approximately twenty individuals in Makkah that were known. Prophet Muhammad (pbuh) was also unknown at his birth.¹

The tribes of Arabia had no formal relationships with other nations. Neither had they been under the rule of the Roman-organized and powerful Roman, Persian or Jews. Tribal leaders were called *qasim*, the descendants of Ishmael, as is stated in Genesis 17:26. The descendants of the twelve patriarch mentioned in Genesis 25: 12-13, practiced the teaching of Abraham (pbuh) until the arrival of their first-born who changed Arabia to Makkah. For several hundred years after Ishmael (pbuh) there was peace among these tribes.

During the time of Prophet David (pbuh), the Arabian tribes still worshipped Allah alone. David visited Makkah because the Arabic tradition of Ishmael worshiped God more Abraham and the several centuries after David's time (Isaiah 44:1).

After the Kaabah was built in Makkah by Ishmael and his son Ishmael, it was ordered by God to perform the pilgrimage (Hajj) to Makkah, at least once in their lifetime. This order was given to all the descendants of Ishmael, from and via sons from Ismael (third wife of Abraham) and followers of Abraham (pbuh) from ten tribes to his sons, Gen. 17:19-21. Tell the people from the children of Ismael followed this order until the Babylonians captured Palestine and took the Israelite to Babylon (606). These Israelite were ordered the seventy years and were not given a chance to perform the Hajj to Makkah. In the meantime the Babylonians also destroyed the temple

of the monotheists, and killed most of the Israelite children. The Israelite lost their teachings and guidance. After their emancipation, they were unable to follow God's order since all was destroyed. They had lost the right path.

PERIA

The Persians had no understanding or belief in Allah or any of the prophets. They worshipped fire and they were extremely polytheistic. They were allowed to marry their daughters or their sisters, and were were allowed to marry their mothers.

A rigid social structure was followed. Members of a family were not allowed to change or change professions. Children were treated as less than human by members of the royal families.² At one time, the Persians received prophetic scriptures (Zohar's) mentioning that a prophet would arise from the Arab people and that the new Persians would follow him. They eventually turned away from Allah and their holy scriptures until the time of Prophet Muhammad (pbuh) when they converted to Islam (Zohar's A 11.).

PROPHETIES ABOUT PROPHET MUHAMMAD IN THE PAST SCRIPTURE.

The First scripture is one of the oldest scriptures in the world, perhaps as old if not older than the Old Testament. It has two collections of scriptures - the Zohar and the Zohar, which may be called respectively the Old and the New Testaments of the First scripture. In Zohar, Ps. 114, which is associated with the name of Israel, there is not only a confirmation of the Christian and the teachings of Jesus, but a clear prophecy as to the advent of the prophet Muhammad (pbuh). The Prophecy is made in the clearest terms, and is preceded by a vision of a state of extreme drought and desolation in Persia. It runs thus:

¹ A. Aziz, August 19, 1958 "The First Islamic"

² M. Margot, May 1, and Mark, November, 1958. A history of the Jewish people p. 309.

³ Zohar, Ps. 114 and Zohar, Zohar (1957) Zohar p. 122-123.

Six Lost Leaders Prophets Of Civil Society:

Six Lost Leaders George W. Liebmann, 2001-01-01 In his new book George W Liebmann discusses the work of six largely forgotten figures Octavia Hill William Glyn Jones Mary Richmond George William Brown Mary Parker Follet and Bryan Keith Lucas Three are British three American Some came from affluent backgrounds some grew up poor One was barely educated another spent eleven years at some of the world's more prestigious institutions of higher learning What united them all was a shared conviction that citizenship involved more than voting that society consists of more than the marketplace or political institutions and that professional values are important for shaping a civil discourse With a sympathetic eye toward the fulfillment of these common aspirations Liebmann looks at the national health social work housing management and educational initiatives spearheaded by these powerful figures over the past two centuries This study is a fascinating retort to our cynical age of political disillusionment and an innovative contribution to social and political history

America's Political Inventors George W. Liebmann, 2017-12-11 Recent American political developments including the election of Donald Trump reveal profound disquiet with the highly centralized political regime based on discretionary allocation of funds and powers to interest groups that has developed since the creation of emergency institutions after America's entry into World War I This book demonstrates the effectiveness in American history of measures conceived in a different spirit addressing the population at large rather than particular interest groups relying on citizen and local initiative and founded not on the distribution of frequently unearned benefits and powers but on reciprocal contributions and obligations George W Liebmann discusses John Winthrop and his foundation of New England towns John Locke and the creation of Southern plantations Thomas Jefferson and his scheme for the organization of Northwestern townships and American territories and states Joseph Pulitzer and the origins of municipal home rule John Wesley Powell and the creation of reclamation districts Hugh Hammond Bennett and the fostering of soil conservation districts and Byron Hanke and the development of residential community associations The book concludes with a number of public policy proposals relating to housing urban renewal care of the elderly immigration and youth unemployment conceived in the same spirit Liebmann brings to light little known facts concerning the growth of practices and institutions that Americans take for granted His book will be of interest to students of biography history and government

The Common Law Tradition George Liebmann, 2017-09-04 This book commemorates a place and a time in American law teaching but more importantly an outlook the common law tradition That outlook was empirical and tolerant These values were carried into expression by a group of people who were not part of a cult or faction nor ruled by the herd instinct Now in paperback The Common Law Tradition is a collective portrait of five scholars who epitomize the tradition The focus is Chicago in the 1960s The five figures considered Edward H Levi Harry Kalven Jr Karl Llewellyn Philip Kurland and Kenneth Culp Davis did much to broaden the perspectives of the legal academy Levi made use of sociology economics and comparative law Kalven

collaborated with sociologists on the Jury Project and with economists on tax law and auto compensation plans Llewellyn's commitment to empirical research underpinned his work on the Uniform Commercial Code Kurland's approach to constitutional law was highlighted by his insistence on the relevance of legal history Davis was an energetic comparativist in his work on administrative law What distinguished these Chicagoans is that their work was practical and rooted in the law and hence yielded concrete applications The group's diversity the tolerant atmosphere in which they taught and wrote and the attachment of its individual members to empirical approaches differentiate them from today's legal scholars and make their ideas of continuing importance

From Charity to Social Work Elizabeth N. Agnew, 2004 Mary E Richmond 1861-1928 was a contemporary of Jane Addams and an influential leader in the American charity organization movement In this biography the first in depth study of Richmond's life and work Elizabeth N Agnew examines the contributions of this important if hitherto under valued woman to the field of charity and to its development into professional social work Orphaned at a young age and largely self educated Richmond initially entered charity work as a means of self support but came to play a vital role in transforming philanthropy previously seen as a voluntary expression of individual altruism into a valid organized profession Her career took her from charity organization leadership in Baltimore and Philadelphia to an executive position with the prestigious Russell Sage Foundation in New York City Richmond's progressive civic philosophy of social work was largely informed by the social gospel movement She strove to find practical applications of the teachings of Christianity in response to the social problems that accompanied rapid industrialization urbanization and poverty At the same time her tireless efforts and personal example as a woman created an appealing if ambiguous path for other professional women A century later her legacy continues to echo in social work and welfare reform

The Professional Ideal in the Victorian Novel S. Colon, 2007-05-14 This book makes the claim that Victorian novels do not simply reflect professional ideology they also scrutinize its dilemmas contradictions and limitations In this volume innovative

Consuming Jesus Paul Louis Metzger, 2007-10-04 Foreword by Donald Miller Afterword by John M Perkins Many Americans think that race problems are a thing of the past because we no longer live under the Jim Crow laws that once sustained overt structures of segregation Unfortunately says Paul Louis Metzger today we live under an updated version of segregation through the subtle power of unchallenged norms of consumer preference Consumerism affects and infects the church reinforcing race and class divisions in society Intentionally or unintentionally many churches have set up structures of church growth that foster segregation such as appealing to consumer appetites Metzger here argues that the evangelical Christian church needs to admit this fault and intentionally move away from race class and consumer segregation Challenging the consumerism that fosters ethnic and economic divisions and distorts evangelical Christianity Consuming Jesus puts forth a theologically grounded call to restructure the church's passions and practices transforming the evangelical imagination around a nobler all consuming vision of the Christian faith Visit the Consuming Jesus blog created by the The Institute for the Theology of Culture New Wine New Wineskins at <http://consumingjesus.org>

Woman as Prophet in the Home and the World R. Mary Hayden Lemmons, 2016-09-15 This first ever interdisciplinary study of woman as prophet shows that in these troubling times ordinary women especially Christian women need to function as prophets by proclaiming in word and deed the indispensability of lovingly seeking the welfare of others More specifically social science shows that the person centered love prophesied by women prophets is able to meet interpersonal challenges within the home and world while philosophy and theology establish that women are able to excel as prophets due to the virtuous dispositions inculcated by femininity the choice to be caring a God centered spirituality and a pro life humanitarian personalist feminism that welcomes male collaborators Facilitating the ability of Christian women to prophesy love are Baptismal graces Thomistic virtues and a much needed prophetic Marian ecclesiology based on what John Paul II calls the prophetism of femininity These interdisciplinary findings provide an essential resource for educators and students of humanity the theology of women and evangelization These findings emerge first from an investigation into the cognitive and ontological underpinnings of what John Paul II called the feminine genius A second set of findings emerges from exploring the prophetic dimensions of the feminine genius secular feminism's need to adopt the insights of Christianity and the ability of femininity's prophetism to

recast both femininity and feminism as Marian prophecies A third set of findings arises from analyzing the spirituality of women prophets within the Christian tradition by considering the conditions necessary for prophesying explicating requisite Thomistic virtues and delving into the spirituality of Hildegard Catherine of Siena Julian of Norwich and Teresa of Avila A fourth set of findings arises from innovative studies of polarization secularization lust romantic love the conditions whereby mothers with careers can flourish and the ability of nuns to combat racism in a small Midwestern town Overall these interdisciplinary investigations explicate the theology of women and show that women who prophesy love either in the order of grace or nature can help heal lives families and culture

Animal Farm Prophecy Fulfilled in Africa Chiku Malunga, 2014-09-08 *Animal Farm Prophecy Fulfilled in Africa* A Call to a Values and Systems Revolution discusses why deep levels of poverty and suffering persist in Africa despite all the successive regime changes over the last half century It discusses why more people are poorer now than they were in the colonial era The author argues that this is so because most of the leadership change efforts on the continent focus on replacing individuals rather than changing or overhauling the negative systems and the values inherent in the systems that the individual leaders inherit create or perpetuate The problems persist because they are systemic rather than personal in nature Deep and lasting change that could result in lifting millions of people out of poverty will only occur when the systems rather than only the individuals are changed or replaced The author challenges ordinary citizens especially the youth to rise up against animal farm systems in order to create the tomorrow to which they aspire and deserve

Legacy Of The Prophet Anthony Shadid, 2009-07-21 The World Trade Center bombing suicide attacks in Israel the slaughter of tourists in Egypt and innocents in Algeria One of the world's great religions Islam has become identified today with senseless bloodshed its followers branded as irrational fanatics with a penchant for violence Ours is the era of the Islamic threat But another story remains to be told Beyond the headlines a transformation is under way in both the style and message of Islamic politics at the end of the twentieth century a startling shift from militancy to democracy with vast implications for the West Drawing on his years of reporting in more than a dozen countries of the Muslim world Anthony Shadid charts the striking way in which the adolescence of yesterday's Islamic militants is yielding to the maturity of today's activists Through interview and travelogue he chronicles a new generation in Lebanon Egypt Turkey and elsewhere that is finding a more realistic and potentially more successful future through democratic politics A crucial element of this change and of *Legacy of the Prophet* is his exploration of the failure of militant Islam in countries like Sudan and Iran defeats that ironically may help make way for an alternative democratic future The transformation promises a better future for a region long ruled by soldiers and despots For the West it offers a compelling opportunity to find common ground with the Muslim world But to do so the book argues that we must make the difficult choice of supporting the emergence of democratic Islamic movements possibly even allowing to come to power governments that as it stands have no love for the West *Legacy of the Prophet* promises to redefine the debate over the future of political Islam

Lost Prophet John

D'emilio, 2010-05-11 Bayard Rustin is one of the most important figures in the history of the American civil rights movement. Before Martin Luther King, before Malcolm X, Bayard Rustin was working to bring the cause to the forefront of America's consciousness. A teacher to King, an international apostle of peace, and the organizer of the famous 1963 March on Washington, he brought Gandhi's philosophy of nonviolence to America and helped launch the civil rights movement. Nonetheless, Rustin has been largely erased by history in part because he was an African American homosexual. Acclaimed historian John D. Emilio tells the full and remarkable story of Rustin's intertwined lives: his pioneering and public person and his oblique and stigmatized private self. It was in the tumultuous 1930s that Bayard Rustin came of age, getting his first lessons in politics through the Communist Party and the unrest of the Great Depression. A Quaker and a radical pacifist, he went to prison for refusing to serve in World War II, only to suffer a sexual scandal. His mentor, the great pacifist A. J. Muste, wrote to him: "You were capable of making the mistake of thinking that you could be the leader in a revolution at the same time that you were a weakling in an extreme degree and engaged in practices for which there was no justification." Freed from prison after the war, Rustin threw himself into the early campaigns of the civil rights and anti-nuclear movements until an arrest for sodomy nearly destroyed his career. Many close colleagues and friends abandoned him. For years after, Rustin assumed a less public role, even though his influence was everywhere. Rustin mentored a young and inexperienced Martin Luther King in the use of nonviolence. He planned strategy for the Southern Christian Leadership Conference until Congressman Adam Clayton Powell threatened to spread a rumor that King and Rustin were lovers. Not until Rustin's crowning achievement as the organizer of the 1963 March on Washington would he finally emerge from the shadows that homophobia cast over his career. Rustin remained until his death in 1987 committed to the causes of world peace, racial equality, and economic justice. Based on more than a decade of archival research and interviews with dozens of surviving friends and colleagues of Rustin's, *Lost Prophet* is a triumph. Rustin emerges as a hero of the black freedom struggle and a singularly important figure in the lost gay history of the mid-twentieth century. John D. Emilio's compelling narrative rescues a forgotten figure and brings alive a time of great hope and great tragedy in the not-so-distant past.
