What would you see if you looked directly at your mind The Tibetan Buddhist teachings on mahamudra are known for their ability to lead to profound realization Peaceful and infinitely adaptable these teachings are as useful for today s busy world as they have been for centuries Written by the tutor to the seventeenth Karmapa Essentials of Mahamudra is a commentary on Tashi Namgyal s famous Moonlight of Mahamudra a text that the sixteenth Karmapa had identified as the most valuable for Westerners Khenchen Thrangu Rinpoche recognized that Western meditators don t just need to know how to maintain our meditation practice we need to know why we should do it Unmatched in its directness Essentials of Mahamudra addresses both these needs rendering one of the most advanced forms of meditation more easily adaptable to our everyday lives

Ray,2002-07-23 An entr e into the world of Tantric Buddhism a unique collection of texts concepts and meditation practices presented by Tibetan masters teaching in the West The Vajra World vajradhatu in Sanskrit is a realm of indestructibility the level of reality beyond all thought and imagination all impermanence and change which a fully realized person knows and inhabits Used metaphorically Vajra World refers to the traditional culture of Tibet and the unique spirituality that is its secret strength Secret of the Vajra World is the companion volume to the author s earlier book Indestructible Truth The Living Spirituality of Tibetan Buddhism While that book focuses on the history cosmology philosophy and practice of the more public exoteric side of Tibetan Buddhism this work treats its more hidden and esoteric aspects as they take shape in Vajrayana Together the two volumes provide a broad introduction to the major traditions of Tibetan Buddhism Topics include The tantric view of human nature and the external world The special role of the guru or tantric mentor The preliminary practices that prepare the student for full initiation The major dimensions of Vajrayana practice including visualizations liturgies and inner yogas The tradition of the tulku or incarnate lama The lore surrounding the death of ordinary people and of saints The practice of solitary retreat the epitome of traditional Tibetan

Buddhism The Crystal Mirror of Philosophical Systems Thuken Losang Chokyi Nyima, 2017-06-06 The Crystal Mirror of Philosophical Systems by Thuken Losang Chokyi Nyima 1737 1802 is arguably the widest ranging account of religious philosophies ever written in pre modern Tibet Like most Tibetan texts on philosophical systems this work covers the major schools of India both Buddhist and non Buddhist but then goes on to discuss in detail the entire range of Tibetan traditions as well with separate chapters on the Nyingma Kadam Kagyu Shije Sakya Jonang Geluk and Bon schools Not resting there Thuken goes on to describe the major traditions of China Confucian Daoist and the multiple varieties of Buddhist as well as those of Mongolia Khotan and even Shambhala The Crystal Mirror of Philosophical Systems is unusual too in its concern not just to describe and analyze doctrines but to trace the historical development of the various traditions The Crystal Mirror of Philosophical Systems is an eloquent and erudite presentation exploring the religious history and philosophical systems of an array of Asian Cultures and offering evidence that the serious and sympathetic study of the history of religions has not been a monopoly of Western scholarship **Teachings of Tibetan Yoga** Garma C. C. Chang, 2016-10-27 The author translator of this book was born in China of aristocratic parentage some fifty years ago In early youth he became the disciple of a Buddhist Guru in a part of China near Tibet His Guru sent him to Tibet to further his training After eight years in Tibetan monasteries six of them under one Guru he went to school in the West to study animal husbandry and bring his knowledge back to Tibet The Communist victory in China and the Communist invasion of Tibet cut him off from returning His devotion to Tibetan Buddhism is now expressed by translating into English its hitherto unknown teachings This Book is an extremely concentrated introduction to the mental physical and spiritual exercises of Tibetan Buddhism emphasizing the practice of Yoga exercises The key to its understanding is the learning of Domo the generating of internal heat in one's body Domo's special meaning for Tibetan Yoga flows from the profoundly anti ascetic and anti pessimistic doctrine of Tantric Buddhism The author means precisely what he says when he explains that opposites are also inseparable unities and that the best example of this is that the human body mind can be made into the body of Buddha Sexual bliss can become divine bliss This work will both introduce the reader to the tranquility of yoga and at the same time lead him to explorations in the field of erotic mysticism Richly illustrated throughout **Naropa's Wisdom** Khenchen Thrangu, 2020-01-21 Accessible and practical teachings on the life of Naropa with verse by verse commentary on his two most important Mahamudra songs by a contemporary Karma Kagyu master Naropa is one of the accomplished lineage holders of the Mahamudra tradition of Tibetan Buddhism In this book Khenchen Thrangu Rinpoche a beloved Mahamudra teacher first tells the extraordinary story of Naropa's life and explains its profound lessons He follows this with lucid and practical commentaries on two of Naropa's songs of realization explaining their precious instructions for realizing Mahamudra the nature of one's mind Throughout Thrangu Rinpoche speaks plainly and directly to Westerners eager to receive the essence of Mahamudra instructions from an accomplished teacher **The Tantric Path of Indestructible Wakefulness** Chögyam Trungpa, 2013-04-08 Chögyam

Trungpa explores the vajrayana teachings of the tantric path in this final volume of his masterpiece on Tibetan Buddhism. This three volume collection presents in lively relevant language the comprehensive teachings of the Tibetan Buddhist path of the hinayana mahayana and vajrayana. Considered Ch gyam Trungpa's magnum opus, *The Profound Treasury of the Ocean of Dharma* will resonate with new and senior students of Buddhism. In this third and final volume, Ch gyam Trungpa examines the vajrayana teachings of the tantric path. The vajrayana or diamond vehicle also referred to as tantra draws upon and extends the teachings of the hinayana and mahayana. As with the hinayana and the mahayana, the formal acceptance into the vajrayana is marked by a vow; in this case, the samaya vow. There is an emphasis at this stage on the student-teacher relationship and on the quality of devotion. Generally, students must complete preliminary practices called ng ndro to prepare themselves for initiation into the vajrayana path before going further. Having done so, they then receive the appropriate empowerments to begin tantric practices. There are empowerment ceremonies of many kinds called abhishekas. The vajrayana includes both form practices such as visualizations and sadhanas, ritual liturgies, and formless practices based on allowing the mind to rest naturally in its inherent clarity and emptiness. Although on the surface there is much greater complexity in tantric practices, the principles of mindfulness and awareness and the cultivation of compassion and skillful action continue to be of central importance. The tantric path requires complete engagement and fierce dedication. It is said to be a more rapid path, but it is also more dangerous. There is a quality of directness, abruptness, and wholeheartedness. Tantrikas or vajrayana practitioners recognize that the most challenging aspects of life, the energies and play of confused emotions and frightening obstacles, can be worked with as gateways to freedom and realization. Other topics covered in detail in this volume include the four reminders, the mandala principle, mahamudra, atiyoga, and more.

[The Crystal Mirror of Philosophical Systems](#) Blo-bzang-chos-kyi-nyi-ma (Thu'u-bkwan III), 2009-04. *The Crystal Mirror of Philosophical Systems* by Thuken Losang Ch kyi Nyima 1737-1802 is probably the widest ranging account of religious philosophies ever written in pre-modern Tibet. Thuken was a cosmopolitan Buddhist monk from Amdo, Mongol by heritage, Tibetan in education, and equally comfortable in a central Tibetan monastery or at the imperial court in Beijing. Like most texts on philosophical systems, his *Crystal Mirror* covers the major schools of India, both non-Buddhist and Buddhist, but then goes on to discuss in detail the entire range of Tibetan traditions, as well as separate chapters on the Nyingma, Kadam, Kagy, Shij, Sakya, Jonang, Geluk, and Bon. Not resting there, Thuken goes on to describe the major traditions of China, Confucian, Daoist, and Buddhist, as well as those of Mongolia, Khotan, and Shambhala. The *Crystal Mirror* is unusual too in its concern not just to describe and analyze doctrines but to trace the historical development of the various traditions. All this makes the *Crystal Mirror* an eloquent, erudite, and informative textbook on the religious history and philosophical systems of an array of Asian cultures, and provides evidence that serious and sympathetic study of the history of religions has not been a monopoly of Western scholarship.
