**Sociology of the Black Experience** Daniel C. Thompson, 1974-07-09      **Sociology of the Black Experience** Daniel Calbert Thompson, 1974      **Transcending the Color Line** Bobby E. Mills, 2014-09-16 Transcending the Color Line by sociologist and professor Bobby E Mills PhD represents a philosophical attempt to make sense out of American black collective experience This collection of essays does not reflect traditional sociological perspectives and methodological considerations Instead the query is How do we live More importantly what are we willing to sacrifice in order to live the way we say we want to live In other words these essays dig deeper to the moral and spiritual issues that lie beneath the more obvious sociological ones Invariably the search for moral understanding and spiritual meaning is neither easy nor popular Yet it is the abstract empirical amoral and apolitical character of traditional sociology that has all but rendered it irrelevant to the resolution of contemporary social ills The biased theoretical assumptions of the scientific method i e abstract empiricism are the social basis for the collective bias otherwise known as the illusion of value neutrality This collective cultural bias is the social foundation for institutional racism sexism theological dogmatism i e denominationalism and above all authoritarianism Indeed every ism is a schism and schisms divide Our either/or logic fosters cultural extremism rather than a universal perspective on humanity By digging deep to the true source of our sociological and leadership issues these essays not only call black and white individuals accountable to the dysfunction present in our shared social experience but inspire all people to transcend the color line and become part of the solution      **The Death of White Sociology** Joyce A. Ladner, 1998      **Afro-American Life, History and Culture** , 1985      **Rethinking Race and Ethnicity in Research Methods** John H Stanfield II, 2016-06-03 This collection of original work demonstrates the new ways in which particular research methodologies are used valued and critiqued in the field of race and ethnic studies Contributing authors discuss the ways in which their personal and professional histories and experiences lead them to select and use particular methodologies over the course of their careers They then provide the intellectual histories strengths and weaknesses of these methods as applied to issues of race and ethnicity and discuss the ethical practical and epistemological issues that have influenced and challenged their methodological principles and applications Through these rigorous self examinations this text presents a dynamic example of how scholars engage both research methodologies and issues of social justice and ethics This volume is a successor to Stanfield's landmark Race and Ethnicity in Research Methods      **HUD Challenge** , 1975      **The End of Black Studies** Clovis E. Semmes, 2016-08-12 Following a history of racial oppression and segregation Black Americans were able to move in greater numbers into previously all or predominantly White colleges and universities However they encountered normative structures that excluded or distorted the Black experience and denied Black perspectives As a result Black studies grew up reconstructing the humanity of a historically oppressed devalued and exploited group Knowledge production in Black studies offers distinct insights into the strength and resiliency of the human spirit and poses exemplary models for

enlightened social change This book examines the foundational parameters and historical mission of the field of African American Studies which emerged from a broad based Black intellectual tradition defined by the metaproblem of cultural hegemony Semmes seeks to broaden our thinking about the scope and content of Black studies The End of Black Studies identifies Afrocentric or Black centered approaches to knowledge production that are distinctly different from yet inclusive of a historiographical emphasis on ancient Egypt but alternative to the claim of a singular African worldview This book will appeal to students and scholars interested in the field of Black Studies including African American studies Africana studies Africology and Pan African studies It will be a source of critical discussion for graduate seminars examining theory building and or knowledge production research and writing in Black studies The End of Black Studies has received the 2017 Outstanding Book Award from the National Council for Black Studies Read the Introduction for free online using our eBook widget Challenge ,1975 **The Black Student in the Wisconsin State Universities System** Cornelius P.
