Becker,2015-06-17 Silver grey manpower is a gold mine to society One by one the baby boom cohorts will reach the age of 65 starting from 2010 They are large cohorts relatively well educated and healthy with considerable pension and health care rights In short they are lucky devils As a result of ageing cohorts that were born in 1985 onwards and that enter the labour market as from approximately 2010 will be required to pay many additional taxes during the course of their entire working life spanning more than forty years They are in short unlucky dogs Redistribution of joys and burdens could trigger conflicts between generations A better solution is to identify and deploy society s hidden resources Taking this issue as a basis the book in hand explores strategies that enable senior citizens and young people to give meaning to solidarity among generations for a start in 2012 as the European Year for Active Ageing but also as part of Europe 2020 the European Commission s 2010 2020 strategy With these two strategies journalists and television producers will swing into action In

Ryan, 2013-11-01 Samuel Stouffer a little

known sociologist from Sac City Iowa is likely not a name World War II historians associate with other stalwart men of the war such as Eisenhower Patton or MacArthur Yet Stouffer in his role as head of the Army Information and Education Division's Research Branch spearheaded an effort to understand the citizen soldier his reasons for fighting and his overall Army experience Using empirical methods of inquiry to transform general assumptions about leadership and soldiering into a sociological understanding of a draftee Army Stouffer perhaps did more for the everyday soldier than any general officer could have hoped to accomplish Stouffer and his colleagues surveyed more than a half million American GIs during World War II asking questions about everything from promotions and rations to combat motivation and beliefs about the enemy Soldiers answers often demonstrated that their opinions differed greatly from what their senior leaders thought soldier opinions were or should be Stouffer and his team of sociologists published monthly reports entitled What the Soldier Thinks and after the war compiled the Research Branch's exhaustive data into an indispensable study popularly referred to as The American Soldier General George C Marshall was one of the first to recognize the value of Stouffer's work referring to The American Soldier as the first quantitative studies of the mental and emotional life of the soldier Marshall also recognized the considerable value of The American Soldier beyond the military Stouffer's wartime work influenced multiple facets of policy including demobilization and the GI Bill Post war Stouffer's techniques in survey research set the state of the art in the civilian world as well Both a biography of Samuel Stouffer and a study of the Research Branch Samuel Stouffer and the GI Survey illuminates the role that sociology played in understanding the American draftee Army of the Second World War Joseph W Ryan tracks Stouffer's career as he guided the Army leadership toward a more accurate knowledge of their citizen

soldiers while simultaneously establishing the parameters of modern survey research David R Segal s introduction places Stouffer among the elite sociologists of his day and discusses his lasting impact on the field Stouffer and his team changed how Americans think about war and how citizen soldiers were treated during wartime Samuel Stouffer and the GI Survey brings a contemporary perspective to these significant contributions Problems of Communism ,1972
