Socratic Citizen A Theory Of Deliberative Democracy:

The Socratic Citizen Adolf G. Gundersen, 2000 Socrates the father of political philosophy was put to death in 399 BC by the world's first democracy Ever since defenders of democracy have attempted to show that the central tension symbolized by that event between philosophical truth embodied by Socrates and democratic whim could be contained In *The Socratic Citizen* Adolf G Gundersen addresses this tension in a new way by recasting Socrates as a model for the democratic citizen Gundersen asserts that political deliberation is best thought of as a two person affair or a dyad He proposes this dyadic theory as an intriguing alternative to the present American system where interest groups define the debate and the average citizen is reduced to simply agreeing or disagreeing with these manufactured positions A powerful reclamation of everyday conversation as an integral form of political discourse *The Socratic Citizen* is an original contribution to political philosophy

Democracy as the Political Empowerment of the Citizen Majid Behrouzi, 2006-01-01 This book along with its companion volume *Democracy as the Political Empowerment of the People* relates the democratic potential of the latest electronic technologies to the idea of direct participatory democracy Having clarified the original

meaning of the idea of democracy this volume proceeds to develop a new theory of democracy

Direct Deliberative e Democracy China's Quest for Political Legitimacy Baogang Guo, 2010-09-23 This book examines the new equity enhancing politics in China in the context of Chinese traditional cognitive patterns of political legitimacy and its implication for Chinese political development in the near future Based on an analysis of the new governing philosophy the generation of political elite and a new set of public policies the book reaffirms the emergence of a new Chinese polity that infuses one party rule with limited electoral and deliberative democracies Unlike many scholars who perceive the contemporary Chinese history as a constant search for democracy this book takes a very different approach It asserts that the enduring question in political development in China today is no different from what was sought after throughout Chinese history namely the constant search for political legitimacy Even though the quest for democracy is instrumental to that end it may not ultimately lead to the embrace of a full fledged liberal democracy The new politics is not only a rationalization of the efficiency based development but also a major paradigm shift in China's developmental strategy

Towards a Deliberative and Associational Democracy Stephen Elstub, 2008-04-25 In an era where citizens of liberal democracies are becoming increasingly disillusioned dissatisfied and disenfranchised by the dominant political institutions and decision making processes in these polities new ideas of how to deepen democracy re engage citizens and enhance decision making legitimacy are required This book suggests that a combination of deliberative democracy and associational democracy is both a normatively desirable and an empirically plausible solution to the complex problems that are present in contemporary societies as well as being compatible with many recent trends in governance Author Stephen Elstub argues that by combining deliberative with associational democracy the weaknesses of each model alone are compensated by the other allowing the key strengths of each to manifest themselves And he goes further by offering a detailed set of original institutional requirements for liberal democracies that if adopted will enable a deliberative and associational democracy to be realised in practice

Political Theory and Partisan Politics Edward Bryan Portis, Adolf G. Gundersen, Ruth Lessl Shively, 2012-02-01 Political theorists typically define political action in terms of rational potential rather than conflict and for this reason neglect the partisan nature of political experience This volume redresses this neglect focusing on the interrelated questions of whether the task of political theory is to find some means of containing partisan politics and whether political theory is itself separate from partisan politics Each section of the book corresponds to one of three ways of conceiving the optimal or necessary relationship between political theory and partisan political struggle The first section considers the extent to which partisan politics requires constitutional consensus and the degree to which such a consensus requires correct theoretical underpinnings The second focuses on the compatibility of theoretical deliberation with partisan politics and the third on the possibility that political theory is itself necessarily a form or means of partisan engagement The end result is a theoretically diverse but focused debate on this important but neglected subject Contributors include William E Connolly

Mary G Dietz Adolf G Gundersen John G Gunnell Donald S Lutz Edward Bryan Portis Arlene W Saxonhouse Ruth Lessl Shively and Thomas A Spragens Jr **The Politics of Public Deliberation** Carolyn M. Hendriks, 2012-10-12 This ground breaking book provides empirical and theoretical insights into the interface between deliberative democracy and the rough and tumble of interest groups in advocacy politics It examines how deliberative ideals work alongside the adversarial realities of interest based politics **Political Solidarity** Sally J. Scholz, 2010-11-01 **Democracy in the Making** Arthur S. Meyers, 2012-11-08 In 1908 a remarkable direction in community learning began in Boston and spread across the country becoming the Open Forum lecture movement These locally planned trans denominational lectures followed by periods for questions were characterized as the striking of mind upon mind This study recovers the movement and shows what can be applied to our time George W Coleman brought a deep commitment to free speech in developing the Forum and Mary Caroline Crawford was essential in implementing it Understanding this initiative broadens our awareness of personal and community courage and democratic planning We can regain this informed reflective respectful approach and achieve an America to be a democracy in the making The Dáil in the 21st Century Anthony O'Halloran, 2010 Much of the public commentary dismisses the Dáil as an irrelevant or peripheral political institution but *The Dáil in the 21st Century* argues that the position of Dáil Éireann far from declining has actually been enhanced particularly since the mid 1980s Dáil Éireann's position in Irish politics has improved significantly over time Coming from a weak base since its establishment it has acquired a strong institutional identity with improved resources and staff giving it a stronger voice This book suggests a future role for the Lower House extending its democratic reach to areas such as social partnership an area coming under increased attention in these troubled economic times *Texts on the Dáil* are rare particularly work which examines the Dáil in the context of the fundamental shifts which have occurred in contemporary Irish politics and this book offers a unique and fresh perspective on the Dáil and its operations *Pondering on Problems of Argumentation* Frans H. van Eemeren, Bart Garssen, 2009-02-11 *Pondering on Problems of Argumentation* is a collection of twenty essays brought together for anyone who is interested in theoretical issues in the study of argumentation This collection of papers gives the reader an insightful and balanced view of the kind of theoretical issues argumentation theorists are currently concerned with Because most of the perspectives on argumentation that are en vogue are represented this volume provides a multidisciplinary and even interdisciplinary outlook on the current state of affairs in argumentation theory Some of the contributions in *Pondering on Problems of Argumentation* deal with problems of argumentation that have been recognized as theoretical issues for a considerable time like the problems of fallaciousness and identifying argumentation structures Other contributions discuss issues that have become a focus of attention only recently or regained their prominence such as the relationship between dialectic and rhetoric and the strategic use of the argumentative technique of dissociation In five separate sections papers are included dealing with argumentative strategies problems of norms of reasonableness and fallaciousness types of

argument and argument schemes the structure of argumentation and rules for advocacy and discussion Democracy as the Political Empowerment of the People Majid Behrouzi, 2005-01-01 This book along with its companion volume Democracy as the Political Empowerment of the Citizen relates the democratic potential of the latest electronic technologies to the idea of direct participatory democracy Taking a critical look at the past and present theories of democracy this volume clarifies the original meaning of the idea of democracy and explains the distortions it has suffered throughout its long history

Freedom of Information Richard A. Chapman, Michael Hunt, 2010 Now a vital part of the British system of government the 2005 Freedom of Information Act also plays an important role in developing local democracy This detailed review explores the need for freedom of information in modern liberal democracies and addresses how the accountability of local authorities may best be ensured **Freedom of Information** Robert G. Vaughn, 2017-07-05 This volume contains articles examining

freedom of information statutes including those protecting government employees who expose official misconduct Using United States laws as examples the articles explore the relationship of these laws to administrative and constitutional theory in the United States In addition they demonstrate how varying conceptions of information illuminate the controversies in the application of these laws to the revolution in the electronic storage and retrieval of information The articles allow the reader to speculate how the connection of these laws to liberal democratic theory explains their recent adoption in several countries and their international application **Deliberative Democracy in Practice** David Kahane, Daniel Weinstock, Dominique

Leydet, Melissa Williams, 2010-07-01 Deliberative democracy is a dominant paradigm in normative political philosophy Deliberative democrats want politics to be more than a clash of contending interests and believe that political decisions should emerge from reasoned dialogue among citizens But can these ideals be realized in complex and unjust societies Deliberative Democracy in Practice brings together leading scholars who explore debates in deliberative democratic theory in four areas of practice education constitutions and state boundaries indigenous settler relations and citizen participation and public consultation They address issues such as whether the desire to rear deliberative citizens can be reconciled with the freedom of parents to raise their children in their own belief systems and whether real world designs for citizen participation and consultation live up to the norms of deliberative democracy This dynamic volume casts new light on the strengths and limitations of deliberative democratic theory offering guidance to policy makers and to students and scholars interested in democratic justice *Deliberative Environmental Politics* Walter F. Baber, Robert V. Bartlett, 2005 Linking

theory and practice this book explores the potential of deliberative democracy to produce more effective environmental policy **Deliberative Democracy and Human Rights** Harold Hongju Koh, 1999-01-01 In this important collection of writings leading legal and political thinkers address a wide array of issues that confront societies undergoing a transition to democratic rule Bridging the gap between theory and practice in international human rights law and policy the contributors continue discussions that were begun with the late Argentine philosopher lawyer Carlos Santiago Nino then extend those

conversations in new directions inspired by their own and Nino's work. The book focuses on some of the key questions that confront the international human rights movement today: What is the moral justification for the concept and content of universal human rights? What is the relationship among nation building, constitutionalism and democracy? What are the political implications for a conception of universal human rights? What is the relationship between moral principles and political practice? How should a society confront what Kant called radical evil? And how does a successor regime justly and practically hold a prior regime accountable for gross violations of human rights?
