Colorado's Healthcare Heritage Thomas J. Sherlock,Tom Sherlock,2013 In the early days on the Colorado frontier women took care of family and neighbors because accepting that we re all in this together was the only realistic survival strategy on the high plains along the Front Range in the mountain towns and on the Western Slope As dangerous occupations became fundamental to Colorado s economy if they were injured or got sick there was no one to care for the young men who worked as miners steel workers cowboys and railroad construction workers in remote parts of Colorado So physicians surgeons nurses Catholic Sisters Reform and Orthodox Jews Protestants and other humanitarians established hospitals and when Colorado became a mecca for people with tuberculosis sanatoriums Those pioneers and the communities they served created our community based humanitarian healthcare tradition These stories about our Wild West heritage honor the legacy of our 19th century healthcare pioneers and will inspire and entertain 21st century readers Because we can be inspired only if we understand the facts and because facts are more likely to be understood when presented in context this

chronology includes national and international developments that establish an indispensable frame of reference for understanding how our pioneers created the local community based healthcare system that we've inherited

Encyclopedia of Women in the American West Gordon Moris Bakken, Brenda Farrington, 2003-06-26 American women have followed their manifest destiny since the 1800s moving West to homestead, found businesses, authored novels and wrote poetry, practiced medicine and law, preached and performed missionary work, became educators, artists, judges, civil rights activists, and many other important roles spurred on by their strength, spirit, and determination

Sage Cane's House of Grace and Favor Christy Hubbard, C.C. Harrison, Author C.C. Harrison writing as Christy Hubbard Women needed guts to live in the Old West and Sage Cane had an abundance. Finding herself penniless and in debt after the death of her father, then abandoned at the altar by a fortune hunting scoundrel, she headed for Colorado gold country to take possession of the hotel she inherited from her Aunt Hannah Honey Wild. When she arrives, she is shocked to discover the hotel is really a bordello called Wild Mountain Honey Pleasure Palace. She announces her decision to close it down but meets resistance from Bridger Norwood, who is convinced it has to remain open in order to keep the peace in the rough and tumble mining town. But Sage wasn't born to let adversity keep her down or men control her destiny. It was a town of by and for men with nothing for women. Not a slip of silk or froth of lace could be found anywhere outside the bordello. While the men mined for gold, drank in the saloons, gambled at the card tables, or visited Wild Mountain Honey, the wives were left behind to scabble together a home in tents, huts, and dugouts. That is until Sage Cane secretly opened a charm school to teach them how to dress for adornment, whisper into a man's ear, and practice the fine art of seduction. SAGE CANE'S HOUSE OF GRACE AND FAVOR vividly brings to life the hardships and dangers women faced in the rugged frontier towns that catered to men. Secrets are revealed and secrets are kept, but women did what they had to do to survive in this story of a town forced to rise to the standards of its women. Christy Hubbard introduces the most unforgettable charmer since Scarlett O'Hara in a wild and wonderful tale of girl power in the Old West

The Colorado Trail in Crisis Karl Ford, 2024-04-15 The Colorado Trail in Crisis addresses the sweeping transformation of western forests and wilderness ecosystems affected by climate change. This book is equal parts trail journal and synthesis of natural and human history. Karl Ford uses research on climate impacts to forests, wildlife, hydrology, and more to stress the urgent need for an action plan to reduce greenhouse gases and save forests and watersheds. Using his hike along the popular five hundred mile Colorado Trail to present his personal observations about more than a hundred miles of dead and dying forest, Karl Ford presents a brief environmental history of these areas of the state, weaving in scientific studies about forest mortality caused by insect infestations, wildfire, drought, and loss of snowpack, and describes the poor current prospects for reforestation as the climate continues to warm. His own Lakota ancestry, as well as historical references to local Tabeguache Ute Chief Ouray and displaced Ute populations, meaningfully frames important conversations about caretaking and connection to place. Ford also proposes potential solutions to drought and forest mortality problems, as well as

varying approaches and limitations to mitigation efforts The Colorado Trail in Crisis appeals to hikers and nature lovers seeking to learn about the natural history beauty and serenity of the Colorado Trail as well as students conservationists and scientists researching climate change effects on Colorado mountain ecosystems
