Solar Journal (oecological Sections) Richard Grossinger, 1970 *Solar Journal (oecological Sections)*. Richard Grossinger, 1970 **The Night Sky, Updated and Expanded Edition** Richard Grossinger, 2014-09-30 Ever since Homo sapiens first looked up at the stars we as a species have been looking for meaning in the mysteries of the night sky Over the millennia as our knowledge science and technology developed the stories we told ourselves about the universe and our place in it developed as well In *The Night Sky* Richard Grossinger traces those developments covering multiple aspects of humanity's complex relationship to the cosmos Covering not only astronomy but also cosmology cosmogony astrology and science fiction he offers us a revelatory look at the firmament through his own telescope fitted with an anthropological lens Throughout his explorations Grossinger continually reflects on the deeper meaning of our changing concepts about the universe and creation offering insight into how each new discovery causes us to redefine the values moralities and aesthetics by which we live He also calls into question the self aggrandizing notion that humanity can and will conquer all and injects our strident confidence in science with a healthy dose of humility and wonder Filled with poetic observation and profound questions *The Night Sky* is a brilliant reflection of humanity's relationship with the cosmos a relationship fed by longing doubt and awe **Notes on Grossinger's "Solar Journal: Oecological Sections"** Robert Duncan, 1970 *Dark Pool of Light 3 Volume Set* Richard Grossinger, 2012-12-18 In books like *Embryogenesis* and *Embryos Galaxies and Sentient Beings* author Richard Grossinger brought together the subjects of biological embryology and the esoteric process of human consciousness becoming embodied The embryo is the universe writing itself on its own body In *Dark Pool of Light* his latest creation Grossinger weaves neuroscience based behaviorism and the phenomenology of being and reality together with psychological and psychospiritual views of that single thing which is most difficult to understand or vindicate our own existence In 2008 Grossinger began studying with noted psychic teacher John Friedlander who helped him refine his vision of cerebral and somatic awareness to still subtler levels *Dark Pool of Light* began unnamed in the journals of my psychic work with John Friedlander says Grossinger not so much a record of actual practices as insights from them and extensions out of them An expansive inquiry into the nature of consciousness the series examines the tension between the scientific and philosophical and psychic views of the same phenomena and includes field notes and experiential exercises that invite the reader to make their own explorations *Dark Pool of Light* is divided into three volumes in Volume 1 Grossinger begins with the scientific and philosophical analytical views of reality exploring the science parascience philosophy and psychology of consciousness Covering topics as diverse as current discoveries in neuroscience and the philosophy of the ancient Greeks the book gives a broad overview of the bodies of knowledge concerning the nature of reality and consciousness Volume Two discusses the similarities and differences between European esoteric traditions and Buddhism in their approaches to the subjects and gives a detailed description of the psychic training Grossinger undertook that informs much of his worldview

This expansive inquiry into the nature of consciousness ends with this third volume in the series *The Crisis and Future of Consciousness* Grossinger addresses the perennial question of evil and shares the author's hopes and fears for the future of humanity While wisdom gleaned from such seemingly disparate sources as science philosophy religion and spirituality might appear very very different things Grossinger nevertheless finds their meeting place in subjective lived experience **Dark Pool of Light, Volume Three** Richard Grossinger, 2012-12-18 In books like *Embryogenesis and Embryos* *Galaxies and Sentient Beings* author Richard Grossinger brought together the subjects of biological embryology and the esoteric process of human consciousness becoming embodied The embryo is the universe writing itself on its own body In *Dark Pool of Light* his three volume series of books discussing the nature of reality and consciousness Grossinger weaves neuroscience based behaviorism and the phenomenology of being and reality together with psychological and psychospiritual views of that single thing which is most difficult to understand or vindicate our own existence In 2008 Grossinger began studying with noted psychic teacher John Friedlander who helped him refine his vision of cerebral and somatic awareness to still subtler levels *Dark Pool of Light* began unnamed in the journals of my psychic work with John Friedlander says Grossinger not so much a record of actual practices as insights from them and extensions out of them This expansive inquiry into the nature of consciousness ends with this third volume in the series *The Crisis and Future of Consciousness* Grossinger addresses the perennial question of evil and shares the author's hopes and fears for the future of humanity While wisdom gleaned from such seemingly disparate sources as science philosophy religion and spirituality might appear very very different things Grossinger nevertheless finds their meeting place in subjective lived experience [The Bardo of Waking Life](#) Richard Grossinger, 2011-05-31 An avant garde set of improvisational essays Richard Grossinger's *The Bardo of Waking Life* is a meditation on the Tibetan Buddhist bardo realm which in popular culture is viewed as the bridge between lives the state people enter after death and before rebirth This book examines waking life and its history and language as if it were a bardo state rather than ultimate reality and thus seeks a context for life and dreams even as it addresses more mundane issues including genetic theory the war in Iraq and George W Bush's presidency North Korea advertising global warming Prison Industrial Culture childhood trauma even country western music Written with playfulness and precision *Bardo* takes a new probing approach to all the important questions of creation destruction and existence In these intellectual field notes Grossinger proves thematically fearless as he crosses quantum mechanics with totemic hexes and draws transcendental insight from the ephemeral space time we call daily life If as Tibetan cosmology holds true all conditional realms are bardos then the state we all share is nothing less than the bardo of waking life **Migraine Auras** Richard Grossinger, 2013-01-08 Migraine headaches are familiar and generally treatable ailments Less understood are migraine auras or scotoma visual distortions sometimes accompanied by headache and sometimes not that make it difficult sometimes impossible to see clearly Migraine auras can be frightening disorienting even incapacitating Richard Grossinger who has suffered from them himself

here presents a helpful guide to the subject that maps the terrain describes the various forms migraine auras can take charts his personal experiences with them and offers informed suggestions for homeopathic and other treatments *The New York Mets* Richard Grossinger,2007 No baseball team has captured America s imagination like the Mets Alternately the Lovable Losers and the Miracle Mets New York s other team offers fascinating fodder for writer Richard Grossinger in this thoughtful collection The New York Mets is a series of probing essays on the best and most interesting years of the team particularly 1969 1973 1986 and last year s abbreviated run A pivotal essay chronicles the lives of a professional athlete and a die hard fan to create a well argued deeply felt meditation on the ways in which franchise baseball has come to fail not only the fans but the players This centerpiece presents a poignant narrative of Mets pitcher Terry Leach and author Grossinger s own experiences playing and tracking the sport Taken together these powerful essays alternately take the poet s the alchemist s and the player s perspective to paint a composite portrait that brings all the stunning highs and dispiriting lows together to show the ways in which America s favorite pastime has changed Grossinger reflects on the salad days when teams were happily homegrown and laments the current money ball scenario some call baseball today Ideogram Laszlo K. Géfin,2014-07-03 The ideogram changed the course of modern American poetry and Ideogram is the first history of this important poetic tradition In modern poetry the ideogram is an idea presented to the reader by means of the juxtaposition of concrete particulars usually without connective words or phrases The poem is therefore presented in precise images usually very tersely and free from conventional form and meter The idea of presenting a concept in this manner derives in part from Ernest Fenollosa s essay The Chinese Character as a Medium for Poetry the Chinese written character itself being a juxtaposition of pictographs to form a new meaning Ezra Pound s search for an alternative to traditional forms of verse composition resulted in his use of the ideogrammic method which Laszlo K G fin asserts became the major mode of presentation in twentieth century American poetry Two generations of avant garde experimental poets since Pound have turned to it for inspiration evolving their own methods from its principles G fin begins by tracing the development of Pound s poetics from the pre Imagist stage through Imagism and Vorticism to the formulation of the ideogrammic method He then examines the Objectivist poetics of Louis Zukofsky Charles Reznikoff and George Oppen the contributions to the ideogrammic tradition of William Carlos Williams and the Projectivist theories of Charles Olson Robert Duncan and Robert Creeley He concludes with an exploration of Allen Ginsberg s theory of the ellipse and Gary Snyder s riprap method Throughout G fin maintains that the ideogrammic mode is the literary representation of the twentieth century post logical even post humanist world view Dark Pool of Light: The crisis and future of consciousness Richard Grossinger,2012 Explores and compares neuroscientific and philosophical views of reality and human consciousness Provided by publisher The Fire Robin Blaser,2006-09-29 Spanning four decades of meditation on the avant garde in poetry art and philosophy the essays collected in The Fire reveal Robin Blaser s strikingly fresh perspective on New American poets deconstructive

philosophies current events and the state of humanities now The essays gathered in one volume for the first time include commentaries on Jack Spicer Charles Olson Robert Duncan Mary Butts George Bowering Louis Dudek Christos Dikeakos and J S Bach Blaser emerged from the Berkeley Renaissance of the 1940s and 1950s having studied under legendary medieval scholar Ernst Kantorowicz and having been a major participant in the burgeoning literary scene His response to the cultural and political events of his time has been to construct a poetic voice that offers a singular perspective on a shareable world and to pose that voice alongside others as a source of countermemory and potential agency Conceived as conversations these essays brilliantly reflect that ethos as they re read the cultural events of the past fifty years Dark Pool of Light:
