Bloom, 2013-09-13 In 1980 Polish workers astonished the world by demanding and winning an independent union with the right to strike called Solidarity the beginning of the end of the Soviet empire Jack M Bloom's *Seeing Through the Eyes of the Polish Revolution* explains how it happened from the imposition to Communism to its end based on 150 interviews of Solidarity leaders activists supporters and opponents Bloom presents the perspectives and experiences of these participants He shows how an opposition was built the battle between Solidarity and the ruling party the conflicts that emerged within each side during this tense period how Solidarity survived the imposition of martial law and how the opposition forced the government to negotiate itself out of power      **Handbook of Research on the Global Political Economy of Work** Maurizio Atzeni, Dario Azzellini, Alessandra Mezzadri, Phoebe Moore, Ursula Apitzsch, 2023-10-06 This ground breaking Handbook broadens empirical and theoretical understandings of work work relations and workers It advances a global intersectional labour studies agenda laying the foundations for the politically emancipatory project of decolonising the political economy of work      **A Radical History of the World** Neil Faulkner, 2018-09-20 History is a weapon The powerful have their version of events the people have another And if we understand how the past was forged we arm ourselves to change the future This is a history of struggle revolution and social change of hominids hunters and herders of emperors and slaves of patriarchs and women of rich and poor of dictators and revolutionaries From the ancient empires of Persia and Rome to the Russian Revolution the Vietnam War and the 2008 Crash this is a history of greed and violence but also of solidarity and resistance Many times in the past a different society became an absolute necessity Humans have always struggled to create a better life This history proves that we the many have the power to change the world      **International Socialism**, 1990      Revolutionary Rehearsals Colin Barker, 2008-09 Five times in the last 40 years the working class has posed a radical alternative to the status quo France 1968 A general strike and factory occupations by millions of workers shake the country Chile 1972 Workers defending the Popular Unity government set up workers councils the cordones and demand control over production Portugal 1974 Army officers overthrow the dictator Caetano and release an upsurge of popular power which lasts 18 months Iran 1979 The viciously repressive Shah is toppled and workers set up independent councils the shoras Poland 1980 Demanding radical change workers build the independent trade union Solidarity to fight for their own interests exposing the false socialism of the Eastern Bloc In each of these cases the actions of workers themselves were the driving force of struggles with revolutionary potential They demonstrate that workers can and will fight back on a

mass scale Each episode offers an inspiring glimpse of the way in which workers rise to the challenge of fighting for a better world and pose their own alternative to the system Although none of these struggles ultimately achieved their goals they were revolutionary rehearsals that hold important lessons about the struggle for socialism under modern conditions

**The Next Democracy?** Tony Milligan, 2016-07-18 Representative democracy has long been problematic and subject to erosion through the introduction of components of direct democracy referenda voter initiatives and systems of recall Following the increase of direct action across the world through the Occupy movement and the rise of new populist parties championing greater citizen inclusion in decision making many are considering whether the hierarchical system of political control might have had its day But what might be the alternative next democracy This book considers the viability of a populist conception of democratic organization which puts power into the hands of ordinary citizens Examining contemporary and classic theory to contextualize the critique of existing systems the book goes on to explore alternative arrangements tested out by activists eco protestors and anti capitalists from the recent Occupy agenda to Gandhi's experiments in alternative living Milligan confronts the practical challenges posed by these systems of direct democracy and discusses the considerable difficulties of scaling up and sustaining them in state level contexts Whilst the book concedes that

such concerns are genuine it argues that a theory of generalized direct democracy can shake off its utopian aspirations and become a legitimate alternative for the future      *The politics of betrayal* Ashley Lavelle,2015-11-01 The radical who becomes a conservative is a common theme in political history Benito Mussolini the Italian socialist who became a fascist is the best known example but there have been many others including the numerous American Trotskyists and Marxists who later became neo conservatives anti communists or in some instances McCarthyists The politics of betrayal examines why several one time radicals subsequently became part of the establishment in various countries including the former Black Panther Party leader turned Republican Eldridge Cleaver the Australian communist Adela Pankhurst who became an admirer of the Nazis and the ex radical journalist Christopher Hitchens whose defection to the neo conservative camp of George W Bush s administration following 11 September 2001 offers one of the most surprising instances of the phenomenon in recent times How and why do so many radicals betray the cause What implications does it have for left politics Were the ex radicals right to become conservatives This book the first of its kind answers these and more questions      *The World Wide Web of Work* Marcel van der Linden,2023-05-09 Global Labour History has rapidly gained ground as a field of study in the 21st century attracting interest in the Global South and North alike Scholars derive inspiration from the broad perspective and the effort to perceive connections between global trends over time in work and labour relations incorporating slaves indentured labourers and sharecroppers housewives and domestic servants Casting this sweeping analytical gaze The World Wide Web of Work discusses the core concepts capitalism and workers and refines notions such as coerced labour household strategies and labour markets It explores in new ways the connections between labourers in different parts of the world arguing that both globalisation and modern labour management originated in agriculture in the Global South and were only later introduced in Northern industrial settings It reveals that 19th century chattel slavery was frequently replaced by other forms of coerced labour and it reconstructs the laborious 20th century attempts of the International Labour Organisation to regulate labour standards supra nationally The book also pays attention to the relational inequality through which workers in wealthy countries benefit from the exploitation of those in poor countries The final part addresses workers resistance and acquiescence why collective actions often have unanticipated consequences why and how workers sometimes organise massive flights from exploitation and oppression and why proletarian revolutions took place in pre industrial or industrialising countries and never in fully developed capitalist societies      *Solidarność* Jacek Kuroń,Karol Modzelewski,1982      **The Fall** Steven Saxonberg,2017-07-05 With a foreword by Seymour Lipset Hoover Institution and George Mason University USAThe Fall examines one of the twentieth century s great historical puzzles why did the communist led regimes in Eastern Europe collapse so quickly and why was the process of collapse so different from country to country This major study explains why the impetus for change in Poland and Hungary came from the regimes themselves while in Czechoslovakia and East Germany it was mass movements which led to the downfall of the regimes      *The Celtic*

*Tiger* Kieran Allen, 2000 The only comparative analysis of the foreign policies of European Union member states Examines those policies which are Europeanised through the EU's processes and those policies which are retained or excluded from these processes Analyses the dual impact of the Maastricht Treaty on the European Union and the post Cold War environment on the foreign policy processes of the EU's member states Argues for a distinctive approach to the foreign policy analysis of EU states which recognises the fundamental changes that membership brings after the Cold War but also acknowledges the diverse role of policies which states seek to retain or advance as being special All the empirical chapters are structured by six sets of explanatory questions      *Festival of the Oppressed* Colin Barker, 1986      The Solidarity Sourcebook Stan Persky, Henry Flam, 1982      Class Struggles in Eastern Europe, 1945-83 Chris Harman, 1983      **Society and Change**, 1989
