The Worlds of Russian Village Women Laura J. Olson,Svetlana Adonyeva,2013-01-10 Russian rural women have been depicted as victims of oppressive patriarchy celebrated as symbols of inherent female strength and extolled as the original source of a great world culture Throughout the years of collectivization industrialization and World War II women played major roles in the evolution of the Russian village But how do they see themselves What do their stories songs and customs reveal about their values desires and motivations Based upon nearly three decades of fieldwork from 1983 to 2010 *The Worlds of Russian Rural Women* follows three generations of Russian women and shows how they alternately preserve discard and rework the cultural traditions of their forebears to suit changing needs and self conceptions In a major contribution to the study of folklore Laura J Olson and Svetlana Adonyeva document the ways that women s tales of traditional practices associated with marriage childbirth and death reflect both upholding and transgression of social norms Their romance songs satirical ditties and healing and harmful magic reveal the complexity of power relations in the Russian villages *Moscow 1941* Rodric Braithwaite,2007-10-09 In 1941 close to one million Russian soldiers died defending Moscow from German invasion more casualties than that of the United States and Britain during all of World War II Many of these soldiers were in fact not soldiers at all but instead ordinary people who took up arms to defend their city Students dropped their books for guns released prisoners exchanged their freedom for battle and women fought alongside men on the bloody mud covered frozen road to Moscow By the time the United States entered the war the Germans were already retreating and a decisive victory had been won for the Allies With extensive research into the lives of soldiers politicians writers artists workers and children Rodric Braithwaite creates a richly detailed narrative that captures this crucial moment *Moscow 1941* is a dramatic unforgettable portrait of an often overlooked battle that changed the world Lost in Transition Kristen Ghodsee,2011-09-14 Through ethnographic essays and short stories based on her experiences in Eastern Europe between 1989 and 2009 Kristen Ghodsee explains why many Eastern Europeans are nostalgic for the communist past

**Buddhists, Shamans, and Soviets** Justine Buck Quijada,2019-02-15 History in the Soviet Union was a political project From the Soviet perspective Buryats an indigenous Siberian ethnic group were a backwards nationality that was carried along on the inexorable march towards the Communist utopian future When the Soviet Union ended the Soviet version of history lost its power and Buryats like other Siberian indigenous peoples were able to revive religious and cultural traditions that had been suppressed by the Soviet state In the process they also recovered knowledge about the past that the Soviet

Union had silenced Borrowing the analytic lens of the chronotope from Bakhtin Quijada argues that rituals have chronotopes which situate people within time and space As they revived rituals Post Soviet Buryats encountered new historical information and traditional ways of being in time that enabled them to re imagine the Buryat past and what it means to be Buryat Through the temporal perspective of a reincarnating Buddhist monk Dashi Dorzho Etigelov Buddhists come to see the Soviet period as a test on the path of dharma Shamanic practitioners in contrast renegotiate their relationship to the past by speaking to their ancestors through the bodies of shamans By comparing the versions of history that are produced in Buddhist shamanic and civic rituals Buddhists Shamans and Soviets offers a new lens for analyzing ritual a new perspective on how an indigenous people grapples with a history of state repression and an innovative approach to the ethnographic study of how people know about the past

**Changing Economies and Changing Identities in Postsocialist Eastern Europe** Ingo Schröder,2008 This book addresses class formation and changes in personhood in contemporary Eastern Europe in the context of the spread of a market economy The authors investigate processes of social closure marginalization and elite formation paying particular attention to their cultural expressions and to the legitimizing discourses of nationalist and neoliberal agendas While individual and collective identities are inextricably linked with the consolidation of global capitalism external blueprints are everywhere mediated through historically grounded experiences and local social relations

Comprising studies from Bulgaria Latvia Lithuania Poland and Russia the volume explores practices stories and performances in everyday life worlds The ethnographies show both individual and collective identities to be emergent projects constrained by economic processes and state policies but ultimately created by people themselves as they pursue their interests and search for meaning

Parsons,2021-04-30 In the early 1990s Russia experienced one of the most extreme increases in mortality in modern history Men s life expectancy dropped by six years women s life expectancy dropped by three Middle aged men living in Moscow were particularly at risk of dying early deaths While the

early 1990s represent the apex of mortality the crisis continues Drawing on fieldwork in the capital city during 2006 and 2007 this account brings ethnography to bear on a topic that has until recently been the province of epidemiology and demography Middle aged Muscovites talk about being unneeded *ne nuzhny* or having little to give others Considering this concept of being unneeded reveals how political economic transformation undermined the logic of social relations whereby individuals used their position within the Soviet state to give things to other people Being unneeded is also gendered while women are still needed by their families men are often unneeded by state or family Western literature on the mortality crisis focuses on a lack of social capital often assuming that what individuals receive is most important but being needed is more about what individuals give Social connections and their influence on health are culturally specific In Soviet times needed people helped friends and acquaintances push against the limits of the state crafting a sense of space and freedom When the state collapsed this sense of bounded freedom was compromised and another freedom became deadly This book is a recipient of the annual Norman L and Roselea J Goldberg Prize for the best project in the area of medicine *Democracy, Gender, and Social Policy in Russia* Andrea Chandler, 2015-12-17 Through compelling and insightful analysis of the Russian case this book explores the role that social welfare plays in regime transitions It examines the role that gender and social welfare has played in Russia's post communist political evolution from Yeltsin's assumption of the presidency to Putin's return for a third term as president in 2012 **The Oxford Handbook of Slavic and East European Folklore** Margaret H.
