Solvent Abuse Oliver Chadwick,H. Ross Anderson,J. Martin Bland,John Ramsey,2013-03-07 1 1 History of Solvent Abuse The practice of deliberately inhaling various gases or vapors in order to induce an altered state of mood or sensibility is not new As noted repeatedly in other reviews eg Cohen 1973 Novak 1980 it was recognized in early Greek civilization as an adjunct to divination indeed it has now become customary if not obligatory to refer to the Oracle at Delphi before considering the more recent history of the subject According to legend the priestess at the Temple at Delphi would achieve communion with the Gods by inhaling the naturally occurring gas that emanated from a fissure in a rock Inhalation would induce a trance like state Her mystical observations and utterances while in this state were interpreted by the Temple Prophet and issued as divine pronouncements to those seeking guidance Incenses perfumes and spices have probably always been used in ceremonial worship and religious ritual However in so far as it is possible to make the distinction these substances have been used primarily for their aromatic qualities rather than for their intoxicating effects The recreational use of gases and vapors dates from the end of the eighteenth century and may be seen as a concomitant of the scientific advances that preceded the industrial revolution Following the synthesis of nitrous oxide by Sir Joseph Priestley in 1776 the potential uses of the gas were explored in depth by Sir Humphrey Davy Current Catalog National Library of Medicine (U.S.),1993 First multi year cumulation covers six years 1965 70 National Library of Medicine Current Catalog National Library of Medicine (U.S.),1992 **Irish Journal of Psychological Medicine** ,1992 The Oxford Handbook of Adolescent Substance Abuse Robert A.
