**Everyday Aesthetics** Katya Mandoki,2016-04-22 Katya Mandoki advances in this book the thesis that it is not only possible but crucial to open up the field of aesthetics traditionally confined to the study of art and beauty toward the richness and complexity of everyday life She argues that in every process of communication whether face to face or through

the media fashion and political propaganda there is always an excess beyond the informative and functional value of a message This excess is the aesthetic Following Huizinga's view of play as an ingredient of any social environment Mandoki explores how various cultural practices are in fact forms of playing since for the author aesthetics and play are Siamese twins One of the unique contributions of this book is the elaboration and application of a semiotic model for the simultaneous analysis of social interactions in the four registers namely visual auditory verbal and body language to detect the aesthetic strategies deployed in specific situations She argues that since the presentation of the self is targeted towards participants sensibilities aesthetics plays a key role in these modes of exchange Consequently the author updates important debates in this field to clear the way for a socio aesthetic inquiry through contexts such as the family school medical artistic or religious traditions from which social identities emerge

### **The Invention of the Text** Gianfranco

Marrone,2016-04-13T00:00:00+02:00 The notion of text is perhaps the most used and discussed within social and human sciences Nevertheless it is surprisingly one of the worst defined Philology and Linguistics Literary Criticism and Aesthetics Philosophy of Language Hermeneutics Ethnology Psychoanalysis Sociology Semiotics all these disciplines refer in various ways to the text to make of it the basic object of their analysis or to measure the distance they keep from it So what does text mean What genealogy does this concept have Why is there no salvation outside the text This book shows why the text should be the formal model to explain all human social cultural and historic phenomena and as a consequence the product of a double invention first as a sociocultural configuration secondly as an analytical reconstruction

Mariano Dagatti,2020-06-02 Este libro brinda al público un estudio sobre la configuración de la identidad política del kirchnerismo teniendo en cuenta los discursos públicos de Nicanor Kirchner. ¿Qué significa ser kirchnerista? Los imaginarios de la política se despliegan en sus palabras y rituales a quienes busca representar la fuerza con quienes se enfrenta electoralmente y simbólicamente. Las tradiciones activas mitigan o obliteran su desafío por convencer a los argentinos de su proyecto político. Estas preguntas cobran toda su pertinencia cuando se las piensa en relación con la crisis de 2001, el conflicto con el campo, el papel de los medios de comunicación masivos y la progresiva crisis de hegemonía de su fuerza que permitió en 2015 el triunfo de Cambiemos. Sin dudas un libro clave para repensar la construcción discursiva ideológica y política de uno de los grandes líderes políticos de nuestro país desde la vuelta a la democracia y una puerta de acceso a nuestra historia reciente *La historia audiovisual* Paolo Bertetti,2017-02-22

El cine, la televisión y otros medios audiovisuales son el caballo de batalla de las grandes historias de nuestra contemporaneidad. Pero cómo hace una película una obra de teatro o incluso un anuncio comercial para contar sus historias? Cómo nos fascina y entusiasma transmitir valores y visiones del mundo? Y más en general, cuáles son los mecanismos de la narrativa y las características específicas del relato audiovisual? A través de una relectura clara pero también problemática de las teorías semióticas y contribuciones metodológicas que vienen de la narratología y la semiótica del texto, el autor identifica una serie de instrumentos útiles para entender e investigar los mecanismos de la sensación de imágenes en movimiento. Por otro lado, quiere reiterar la necesidad de retomar y profundizar en una serie de cuestiones temáticas quizás demasiado superficialmente dejadas al margen en un momento en que la evolución del sistema de medios y formas recientes de contar historias inter y transmedia requieren volver a discutir las categorías establecidas e imponer nuevas reflexiones *Memorias de JALLA 2004 Lima*, 2005 *Chanson* Joël July, 2016. Imposible de numerar les

circonstances qui font de la chanson de sa création sa réception un art collectif. Interm diale sa fabrication mêle souvent plusieurs talents et la forme la plus accomplie de sa performance son expression sur scène se fait devant un auditoire. D'un côté un ensemble d'artistes et de techniciens qui se la partagent l'autre une assemblée d'individus qui la partagent. Collective aussi car elle est fondée sur un rythme qui incite la participation et opte pour des styles musicaux qui peuvent être communautaires car on assiste aujourd'hui une forte patrimonialisation du répertoire enfin car la mode est aux groupes aux reprises en duo aux featurings. Or paradoxalement nous avons l'impression l'illusion que la chanson profondément individuelle mane exclusivement de la bouche qui la chante pour nous seuls qui l'actualissons en l'écoutant. Elle se met la disposition de nos affects de consommateurs et semble nous livrer parce que les mots sont portés par la voix et le corps de l'artiste les secrets de son moi dans la forme la plus authentique qui soit ces aveux qu'il ne saurait dire sous le régime banal de la voix qui parle sans risquer le ridicule de l'emphase du cliché ou de l'insincérité. Le chant les lave et en quelque couple les vertus peuvent être cette appropriation est elle permise parce que la chanson vient nous raconter toujours quelque chose qui nous ressemble incomplètement au bonheur d'un instantané. Qu'est-ce qui rend alors malgré le contexte le processus d'identification si aisant ? Page 4 of cover
