Some Features Of Our Times:

Philosophers of Our Times Ted Honderich, 2015-01-29 Eighteen of the world's most eminent philosophers of recent years tackle central questions of philosophy in this collection of the prestigious annual lectures given at the Royal Institute of Philosophy in London. The line up of authors is stellar: Simon Blackburn, Ned Block, Tyler Burge, David Chalmers, Noam Chomsky, Jerry Fodor, Jürgen Habermas, Anthony Kenny, Christine Korsgaard, John McDowell, Alasdair MacIntyre, Thomas Nagel, Derek Parfit, T. M. Scanlon, John Searle, Sir Peter Strawson, Bernard Williams, and Mary Warnock. There are six pieces on questions to do with mind, perception and action, four on reason and morality, six range over freedom, identity, religion and politics, and the last two take a step back to look at philosophy itself and how it works. The best way to learn about philosophy is to read philosophy at its best: that is what this fascinating anthology offers.

Our Times A. N. Wilson, 2011-01-04 When Queen Elizabeth II was crowned in 1953, many proclaimed the start of a new Elizabethan Age. Few had any inkling, however, of the stupendous changes that would occur over the next fifty years, both in Britain and around the world. In *Our Times*, A. N. Wilson takes the reader on an exhilarating journey through postwar Britain. With his acute eye, not just for the broad social and cultural sweep but also for the telling detail, he brilliantly distills half a century of unprecedented social and political change. Here are the defining events and characters of the modern age: from the Suez crisis to Vietnam, from the Beatles to Princess Diana. Here are the Angry Young Men, the rise of pop culture and celebrity, industrial unrest and the Winter of Discontent, the Thatcher era and the eventual collapse of the Soviet Union. This book propels the reader from postwar austerity to the end of the British Empire and the emergence of America as a superpower, to the multicultural Britain of today. With *Our Times*, Wilson triumphantly concludes the acclaimed trilogy that opened with *The Victorians* and was followed by *After the Victorians*. *Our Times* makes compelling reading for anyone interested in the forces that have shaped our world.

The Dilemma of Our Times (Works of Harold J. Laski) Harold J. Laski, 2014-10-24 This book, originally published in 1952, unfinished and perhaps imperfect, is the last book of one of the most acute political thinkers of the twentieth century. Laski's earlier optimism about a swing to the Left was beginning to be reversed, and in this volume he saw the defects of his previous optimistic surveys, which in his opinion still had value but needed to be brought up to date. Consequently, he began to write an additional chapter which was never completed. It remains a valuable last word of an author who for thirty years was respected and listened to on the topic of civilisation's survival through change.

Marx for Our Times Daniel Bensaïd, 2002 Without denying the contradictory character of Marx's thought, Daniel Bensaïd sets out to demonstrate that it was not a philosophy of the end of history, an empirical sociology of classes, or a positive science of economics positing an inexorable progress towards an ineluctable communism. Instead, Marx's critique of political economy encompassed three great critiques of the scientific and political canons of its age: of historical reason, sociological rationality,

and scientific positivism which make the thinker from the nineteenth century fully relevant to the twenty first century of global capitalism Indeed we find here a post postmodern Marx able to inhabit a contemporary world replete with contingency emergency and contradictory temporalities Published in France on the eve of the strikes of 1995 that signalled a profound revolt against la pensee unique Marx for Our Times is an invitation to rediscover our foremost contemporary Karl Marx

Rubin,1998-11 As a psychoanalyst and psychotherapist Rubin argues that psychoanalysis is in need of revision in order to remain relevant today because its interest in both decoding and concealing the truth is simultaneously its strength and weakness Rubin attempts a middle course between blind acceptance and premature dismissal Although parts one and two focus on the history institutions and theory of psychoanalysis the remainder constitutes a non traditional and self consciously experimental approach wherein the author reflects on his own work his theoretical omissions and the unsolved problems in his discourse Annotation copyrighted by Book News Inc Portland OR A Mirror For Our Times Paul Weller,2009-02-22

26th September 2008 marks the twentieth anniversary of the beginning of The Satanic Verses controversy a controversy that in many ways became paradigmatic for the following two decades Taking as its starting point the opening two years of the controversy Paul Weller uses the events and arguments of those years as a lens through which to view what later developed both in relation to the controversy itself but also its wider entails and the incidents and issues through which aspects of the original controversy were reprised The anniversary of the controversy presents a good opportunity to review the incidents issues and debates of the time in some historical perspective while also connecting them with subsequent incidents that have reprised some of the key themes such as the cartoons controversy the terror attacks of 9 11 and 7 7 and the killing of the Dutch filmmaker Theo Van Gogh The book holds up a mirror for our times that will be of interest to academics politicians students and religious believers as well as to all who are engaged with the twenty first century challenges posed by living with radical difference freedom of expression and mutual respect with exploring the relationship between religion and secularity and with overcoming the threats posed by religiously informed violence **A Lesson for Our Times** C. Skardon,2010-03-19 Even though it has faded in the minds of most the Cold War was the dominant happening in the second half of the 20th Century The underlying cause was the Soviet Unions expansionism which was driven by imperialist ambition overlaid with ideology Combating this radical and highly threatening form of political and territorial aggrandizement made extraordinary demands on the Western nations and especially the United States because of its strength and democratic tradition These forces vied in the Hungary Suez Crisis of 1956 as not before or after when 200 000 Soviet troops intervened

in Hungary to put down the revolution and the attendant Uprising and acting contrary to Western interests Britain and France invaded the Canal Zone and the Israelis the Sinai raising the crisis to a point of extreme danger as the East West confrontation nearly burst its bounds Had the allies not been halted in Egypt by the Eisenhower Administrations use of the UN Charter and UN mechanisms for maintaining peace and the Russians not deterred from invading Western Europe by threat of U S nuclear retaliation it seemed possible that the world would experience a general war with nuclear weapons as a major component A Lesson for Our Times focuses on this possibility While it is about the steps taken by the United States to prevent the worst from occurring immediately it is also about what was done to prevent a similar crisis from occurring in the future To say that these actions were unique and effective is true but not enough They were also unprecedented in the history of the nation and surely the world as well as proof that the peace keeping system devised after World War II would function as intended if undergirded and augmented by U S prestige and wherewithal Here then was Hungary Suez in its totality More should be known about the crisis for these reasons alone This book seeks to meet that need while filling a large gap in the understanding of the Cold War It also recalls a time when Americas conduct as the worlds primary superpower was as clear and visionary as it was purposeful and constructive in a word when American diplomacy was at its zenith
