Some Heroes of the American Revolution J. D. Bailey, 2011-10 *Some Heroes of the American Revolution* James Davis Bailey, 1924 **Greenville** Archie Vernon Huff, Jr., 2020-05-26 The history of South Carolina's thriving upstate Since the Cherokee Nation hunted the verdant hills in what is now known as Greenville County South Carolina the search for economic prosperity has defined the history of this thriving Upstate region and its expanding urban center In a sweeping chronicle of the city and county A V Huff traces Greenville's business tradition as well as its political religious and cultural evolution Huff describes the area's Revolutionary War skirmishes early settlement and mix of diversified agriculture small manufacturing operations and summer resorts Calling Greenville atypical of much of the antebellum South the author tells of the strong Unionist sentiment relative unimportance of slavery and lack of staple agriculture in the region He recounts Greenville's years of Reconstruction textile leadership depression and postwar industrial diversification In addition to tracing Greenville's economic growth Huff identifies the region's other hallmarks including the fierce independence of its residents He assesses Greenville's peaceful end to segregation strong evangelical Protestant tradition conservative arts programs and influential role in South Carolina politics **Eutaw Springs** Robert M. Dunkerly, Irene B. Boland, 2017-05-15 An in depth analysis of one of the War for Independence's bloodiest and least understood conflicts The Battle of Eutaw Springs took place on September 8 1781 and was among the last in the War of Independence It was brutal in its combat and reprisals with Continental and Whig militia fighting British regulars and Loyalist regiments Although its outcome was seemingly inconclusive the battle fought near present day Eutawville South Carolina contained all the elements that defined the war in the South In Eutaw Springs The Final Battle of the American Revolution's Southern Campaign Robert M Dunkerly and Irene B Boland tell the story of this lesser known and under studied battle of the Revolutionary War's Southern Campaign Shrouded in myth and misconception the battle has also been overshadowed by the surrender of Yorktown Eutaw Springs represented lost opportunities for both armies The American forces were desperate for a victory in 1781 and Gen Nathanael Greene finally had the ground of his own choosing British forces under Col Alexander Stewart were equally determined to keep a solid grip on the territory they still held in the South Carolina lowcountry In one of the bloodiest battles of the war both armies sustained heavy casualties with each side losing nearly twenty percent of its soldiers Neither side won the hard fought battle and controversies plagued both sides in the aftermath Dunkerly and Boland analyze the engagement and its significance within the context of the war's closing months study the area's geology and setting and recount the action using primary sources aided by recent archaeology A well put together book that is easy to read and it makes good use of graphic material Eutaw Springs is recommended The Journal of America's Military Past A long overdue study of Nathanael Greene's last main force Southern campaign engagement Drawing from a wealth of resources including new research archaeology and pension documents the authors have created an easy reading account For students of the Revolutionary War this is must

reading because so much focus has been directed at Yorktown where the British abandoned an army instead of the more mobile war in the South where the war was finally won by wearing down the British. Lawrence Babits, George Washington Distinguished Professor of History, East Carolina University. A very good analysis of the political, military, and physical environment with some profiles of a number of interesting people, most notably Nathanael Greene, after Washington, the most important American general of the war, though he never won a battle. New York Military Affairs Symposium Review.

Reminiscences of Public Men, with Speeches and Addresses. 2d Series Benjamin Franklin Perry, 1889 **How the Irish Won the American Revolution** Phillip Thomas Tucker, 2015-10-06

When the Continental Congress decided to declare independence from the British empire in 1776, ten percent of the population of their fledgling country were from Ireland. By 1790, close to 500,000 Irish citizens had immigrated to America. They were very active in the American Revolution, both on the battlefields and off, and yet their stories are not well known. The important contributions of the Irish on military, political, and economic levels have been long overlooked and ignored by generations of historians. However, new evidence has revealed that Washington's Continental Army consisted of a far larger percentage of Irish soldiers than previously thought, between 40 and 50 percent, who fought during some of the most important battles of the American Revolution. Romanticized versions of this historical period tend to focus on the upper class figures that had the biggest roles in America's struggle for liberty. But these adaptations neglect the impact of European and Irish ideals, as well as citizens, on the formation of the revolution. Irish contributors such as John Barry, the colonies' foremost naval officer, Henry Knox, an artillery officer and future Secretary of War, Richard Montgomery, America's first war hero and martyr, and Charles Thomson, a radical organizer and Secretary to the Continental Congress, were all instrumental in carrying out the vision for a free country. Without their timely and disproportionate assistance, America almost certainly would have lost the desperate fight for its existence.
