investigations into magic ritual practices and popular beliefs The chronological and geographic focuses of the papers presented here vary from prehistory to the present day including numinous interpretations of fossils and ritual deposits in Bronze Age Europe apotropaic devices in Roman and Medieval Britain the evolution of superstitions and ritual customs from the voodoo doll of Europe and Africa to a Scottish wishing tree and an exploration of spatiality in West African healing practices The objectives of this collection of nine papers are twofold First to provide a platform from which to showcase innovative research and theoretical approaches in a subject which has largely been neglected within archaeology and related disciplines and secondly to redress this neglect The papers were presented at the 2012 Theoretical Archaeology Group TAG conference in Liverpool
