The Connecting Church 2.0 Randy Frazee, 2013-03-12 The development of meaningful relationships where every member carries a significant sense of belonging is central to what it means to be the church So why do many Christians feel disappointed and disillusioned with their efforts to experience authentic community Despite the best efforts of pastors small group leaders and faithful lay

persons church too often is a place of loneliness rather than connection In this revised and updated version of his best selling book Randy Frazee shows us how church can be so much better More intimate and alive The answer may seem radical today but it was a central component of life in the early church First century Christians knew what it meant to live in vital community with one another relating with a depth and commitment that made the body of Christ a perfect metaphor for the church What would it take to reclaim that kind of love joy support and dynamic spiritual growth Read this book and find out

I Am My Own Cause, the Third Act Charles K. Poole, 2017-10-18 Nearly ten years of life conveniently and inconveniently occurring but entirely authentic that is the journey Charles K Poole had been on and shared in times good and bad In this third volume of his I Am My Own Cause series Poole picks up from 2010 where the second volume ended and crafts more personal insightful and inspiring stories that will make you think and make you cry but ultimately make you glad you took time to read what he has to say This third volume represents a period of even more significant change for Poole much of it painful But as he has often shown us Poole learns lessons from even the most heartbreaking events and somehow uses those lessons for the greater good And in doing so he reminds us that it is something we are capable of too Honest and written in his own irrepressible voice I Am My Own Cause The Third Act Surviving and Thriving is a fitting conclusion to this series of chapters in Poole's life but by no means is it the end It's the beginning of something new something that if he chooses to share it will continue to remind us that there is great value in being our own cause

Angels by the River James Gustave Speth, 2014 Reflections on race environment politics and living on the front lines of change In Angels by the River James Gustave Gus Speth recounts his unlikely path from a southern boyhood through his years as one of the nation's most influential mainstream environmentalists and eventually to the system changing activism that shapes his current work Born and raised in an idyllic but racially divided town that later became the scene of South Carolina's horrific Orangeburg Massacre Speth explores how the civil rights movement and the South's agrarian roots shaped his later work in the heyday of the environmental movement when he founded two landmark environmental groups fought for the nation's toughest environmental laws spearheaded programs in the United Nations advised the White House and moved into a leading academic role as dean of Yale's prestigious School of Forestry and

Environmental Studies Yet in the end he arrived somewhere quite unexpected still believing change is possible but not within the current political and economic system Throughout this compelling memoir Speth intertwines three stories his own his hometown's and his country's focusing mainly on his early years and the lessons he drew from them and his later years in which he comes full circle in applying those lessons In the process he invites others to join him politically at or near the place at which he has arrived wherever they may have started

Speed Bumps and Roundabouts: Lessons I've Learned on the Journey Pip McCracken, 2014-01-31 Why didn't life work out as I planned My plan was great I would grow up with a loving family I would have many friends to make pinky promises with I would get top grades through school and be popular to boot I would study for a degree I was passionate about and I would meet The One sigh we would get married and have children who looked and behaved like baby angels Oh and I'd live happily ever after of course Was that too much to ask I didn't plan for my parents to divorce I didn't plan to change schools because of bullying I didn't plan for university to fill me with doubts about whether I was good enough I didn't plan to be single at 28 I didn't plan to run away to the other side of the world But look where I've ended up Life is never the smooth and straightforward journey we expect Along the way things slow us down and turn us around Speed Bumps and Roundabouts is a story of those things Hope Vulnerability Apathy Gratitude Beauty Boundaries Waiting The journey is worth it the scenery can be captivating but we'll never know unless we keep going over the speed bumps and around the roundabouts *Green Forest Stories* Thornton W.

Burgess, 2020-08-25T23:07:11Z American naturalist and conservationist Thornton W Burgess was the author of more than one hundred books for children the best remembered of these is *Old Mother West Wind* which was originally written for his young son Burgess also wrote dozens of books about the creatures of the northern North American forest four of which are collected here as the *Green Forest Stories* This *Green Forest Stories* compilation focuses on Lightfoot the Deer Blacky the Crow Whitefoot the Wood Mouse and twin bear cubs Woof Woof and Boxer Readers may have encountered these characters in other of Burgess's stories about the little people of the Massachusetts forest Burgess's earliest ventures into animal fantasy are roughly contemporary with Rudyard Kipling's *Just So Stories* and Beatrix Potter's tales of various animals and represent the most lasting American entry into this genre Animal fantasy is a sub genre of children's literature in which animals are anthropomorphized into human-like characters and use language like humans It is often criticized by those who want readers to experience more realistic representations of animals and the natural world but animal fantasies engage a millennia-old tradition in the Western canon reaching back at least as far as Aesop's Fables animal characters feature in teaching stories for children and adults in cultures around the world Burgess's stories are intended for children in the early elementary grades The challenges and triumphs of the little people in his stories will feel identifiable to many young readers and the snippets of moralizing and authorial commentary interleaved with the actions of the plot reflect a teaching device with a long history In the late twentieth century Burgess fell out of favour with teachers and librarians This shift occurred in

part due to changing tastes in literary style and in part due to a changing society Burgess is entirely a writer of his time Most of the animals he depicts are male and many of the female animals who wander into the stories are more passive and more stereotyped than the kinds of representation preferred for girls today Such is not the case however of Old Granny Fox who may be the smartest of the little people Burgess represents and certainly does not lack agency or self determination The style of Burgess s storytelling is undeniably old fashioned but still deserves consideration Although the writing is often simple and plain there are rhetorical flourishes that reveal the author s attention to craft In particular Burgess s use of formulaic expressions such as jolly round bright Mr Sun and the Merry Little Breezes links these tales to an orality that stretches back to at least The Iliad and The Odyssey of Homer think of phrases such as the wine dark sea rosy fingered Dawn and bright eyed Athena Through his broader use of repetition and through onomatopoeia Burgess underscores characteristics of his characters real life forest counterparts the way a chickadee calls a squirrel scolds or a rabbit lopes for example In these stories as in the Green Meadow Stories collection we observe features that signal Burgess s experience as a writer for periodicals and as an early radio broadcaster Each chapter begins with reminders about the previous chapter and chapters end with either a strong propulsive conclusion or a traditional cliff hanger The chapters are generally quite short a comfortable size to read as a bedtime story and just long enough to hold a new reader s attention without demanding too much of that reader s energy The strong narrative voice sounds distinctly like oral storytelling One can almost imagine a small group of young people seated in a circle at the storyteller s feet That image captures the essence of these animal tales They are light bright peeks into a complex and beautiful world a world any girl or boy may want to pursue through study or personal explorations As humanity faces the daily loss of animal species stories that delight readers and listeners that encourage them to learn about and respect the creatures of the non human world deserve our renewed attention and respect This book is part of the Standard Ebooks project which produces free public domain ebooks [The Rising](#) J.
