Heather Walton Brent Waters Nick Watson Childly Language Alison Sealey, 2014-06-11 Childly Language explores how attitudes and cultural assumptions about children and childhood are revealed in contemporary English It addresses such questions as How is concern for children s safety and welfare reflected in the vocabulary and grammar of contemporary English and When we say that an adult is being childish what are we saying about the characteristics of children **Agency, Freedom, and Responsibility in the Early Heidegger** Hans Pedersen, 2020-08-25 This book employs Heidegger s work of the 1920s and early 1930s to develop distinctively Heideggerian accounts of agency freedom and responsibility making the case that Heidegger s thought provides a compelling alternative to the mainstream philosophical accounts of these concepts Hans Pedersen demonstrates that Heidegger s thought can be fruitfully used to develop a plausible alternative understanding of agency that avoids the metaphysical commitments that give rise to the standard free will debate The first several chapters are devoted to working out an account of the ontological structure of human agency specifically focusing on the Heideggerian understanding of the role of mental states causal explanations and deliberation in human agency arguing that action need not be understood in terms of the causal efficacy of mental states In the following chapters building on the prior account of agency Pedersen develops Heideggerian accounts of freedom and responsibility Having shown that action need not be understood causally the Heideggerian view thereby avoids the conflict between free will and determinism that gives rise to the problem of free will and the correlative problem of responsibility Early Departures for the Sun Raymond Sturgis, 2009-08-21 Early Departures for the Sun is a riveting book that chronicles the prevailing violence which permeates our lives and homes America has become so obsessed with violence that little children are learning to kill before they understand the English alphabet Many people search for a spiritual answer only to hope that their faiths would lead them to see their love ones who were violently removed from their lives Violence also reared its ugly head in today s foster care and adopted homes In which the children that reside there are the victims of a terrible procedure that terminates parental rights by the thousands from data collected by corrupt Child Protective Service workers America judicial system has failed our children and America cannot survive by giving its children an option of life in prison or death from gun violence Early Departures for the Sun gives honest reflections of how violence destroys the hearts and souls of people in marriages and relationships The court dockets are replete with court dates from women and men who have filed personal protection orders against people who they now need protection due to violent and threatening behavior The author conveys the sadness and despair of parents that have lost children to gun violence robbing toddlers and infants of a chance of living a fulfilled life The senseless act of violence is mainly from ex boyfriends ex husbands or teenage cowards that found answers to their problems by shooting in homes and schools without remorse Early Departures for the Sun gives a realistic view of how violent our world has become but a more kinder and spiritual view of love ones taking the Early Departure to the Sun right outside heaven s door Early Departures for the Sun is a CALL OUT book so that everyone can enlist in the war against violence as

well as an encouragement so we all can stand with those whom may have lost someone to violence **Beyond**

Grobelaar, Gert Breed, Alfred Brunsdon, Marcia J. Bunge, Sam Ndogo, Hannes (J.J.) Knoetze, Nico Vorster, 2016-12-31 The purpose of this book is to combine perspectives of scholars from Africa on Child Theologies from a variety of theological sub disciplines to provide some theological and ministerial perspectives on this topic The book disseminates original research and new developments in this study field especially as relevant to the African context In the process it addresses also the global need to hear voices from Africa in this academic field It wants to convey the importance of considering Africa s children in theologising The different chapters represent diverse methodologies but the central and common focus is to approach the

subject from the viewpoint of Africa's children. The individual authors varied theological sub-disciplinary dispositions contribute to the unique and distinct character of the book. Almost all chapters are theoretical, orientated with less empirical research, although some of the chapters refer to empirical research which the authors have done in the past. Most of the academic literature in the field of Theologies of Childhood is from American or British European origin. The African context is fairly absent in this discourse, although it is the youngest continent and presents unique and relevant challenges. This book was written by theological scholars from Africa focussing on Africa's children. It addresses not only theoretical challenges in this field but also provides theological perspectives for ministry with children and for important social change. Written from a variety of theological sub-disciplines, the book is aimed at scholars across theological sub-disciplines, especially those theological scholars interested in the intersections between theology, childhood studies and African cultural or social themes. It addresses themes and provides insights that is also relevant for specialist leaders and professionals in this field. No part of the book was plagiarised from another publication or published elsewhere before.
