s Dr Beeching s Axe 50 Years On is a unique memorial to all that was lost following the publication of the Beeching Report on 27 March 1963 Uniquely the author has tried to include every railway line that was closed as a result of the Beeching Report and more They are all shown on Map 9 in Part 2 of the Report and have been annotated for clarity at the beginning of each regional chapter in the book Needless to say it is not plain sailing there are lines that were marked for closure on the maps but were closed before publication of the Report there are lines that were not originally on Beeching s original hit list but which were closed anyway there are lines that were originally marked down for closure but which were fortunately reprieved There are even one or two which seem to have not existed at all The author has included them all      [The Railway Closure Controversy](#) E. marvels of locomotive engineering sent to the scrapyard and grand termini felled by the wrecker's ball. Then there are the lost delights of train travel such as haute cuisine in the dining car, the grand expresses with their evocative names and continental boat trains to romantic far off places. *The Trains Now Departed* tells the stories of some of the most fascinating lost trains of Britain vividly evoking the glories of a bygone age. In his personal odyssey around Britain, Michael Williams tells the tales of the pioneers who built the tracks, the yarns of the men and women who operated them and the colourful trains that ran on them. It is a journey into the soul of our railways summoning up a magic which although mired in time is fortunately not lost for ever. THIS EDITION REVISED AND UPDATED TO INCLUDE MAPS     *An Indian Summer of Steam*

David Maidment, 2016-01-30 *An Indian Summer of Steam* is the second volume of David Maidment's railway autobiography following his first book *A Privileged Journey*. David was a railway enthusiast who made the hobby his career. After management training on the Western Region between 1961 and 1964, he became a stationmaster in a Welsh Valley, an Area Manager on the Cardiff Swansea main line and radiating valleys, the South Wales Train Planning Officer, the Head of Productivity Services for the Western Region and subsequently the British Railways Board for four years from 1982 as Chief Operating Manager of the London Midland Region, the BRB's first Quality Reliability Manager in 1986 and finally British Rail's Head of Safety Policy after the Clapham Junction train accident until privatisation. This experience led to a number of years as an international railway safety consultant and as a result of an encounter on an Indian railway station during a business trip abroad to found the Railway Children charity to support street children living on the rail and bus stations of India, East Africa and the UK, described in 2012 by an officer of the United Nations Human Rights Commission as the largest charity in the world working exclusively for street children. All this is the background to the descriptions the author gives of the last years of steam and his many journeys and experiences during his training in South Wales and the South West, his travels all over BR from 1962 until the end of steam in 1968, his search for steam in France, East and West Germany and China and the steam specials in Britain, France, Germany and China after the demise of regular steam working. The book includes over 100 black and white and 100 colour photos, most taken by the author during his travels and nearly forty pages of logs of locomotive performance in Britain and the continent. All royalties from the book are being donated by the author to the charity he founded, a brief description of which is included in the last chapter of the book.     **The British National Bibliography** Arthur James Wells, 1995     *Whitaker's Books in Print*, 1998     **Wessex: A Landscape History** Hadrian Cook, 2024-04-04 Wessex is famous for its coasts, heaths, woodlands, chalk downland, limestone hills and gorges, settlements and farmed vales. This book provides an account of the physical form, development and operation of its landscape as it was shaped by our ancestors. Major themes include the development of agriculture, settlements, industry and transport.     **The Sherlock Holmes Journal**, 1980     *The Journal of Transport History*, 1972
