Something For Nothing A History Of Gamblin:

Something for Nothing Alice Fleming, 1978 Discusses the history and various forms of gambling from ancient times to the present day *Something for Nothing* Jackson Lears, 2004-07-27 Jackson Lears has won accolades for his skill in identifying the rich and unexpected layers of meaning beneath the familiar and mundane in our lives Now he challenges the conventional wisdom that the Protestant ethic of perseverance industry and disciplined achievement is what made America great Turning to the deep seldom acknowledged reverence for luck that runs through our entire history from colonial times to the early twenty first century Lears traces how luck chance and gambling have shaped and at times defined our national character

The Material Unconscious Bill Brown, 1996 Within the ephemera of the everyday old photographs circus posters iron toys lies a challenge to America's dominant cultural memory What this memory has left behind Bill Brown recovers in the material unconscious of Stephen Crane's work the textual residues of daily sensations that add up to a new history of the American 1890s As revealed in Crane's disavowing appropriation of an emerging mass culture from football games and freak shows to roller coasters and early cinema the decade reappears as an underexposed moment in the genealogy of modernism and modernity Brown's story begins on the Jersey Shore in Asbury Park where Crane became a writer in the shadow of his father a grimly serious Methodist minister who vilified the popular amusements his son adored The coastal resorts became the stage for debates about technology about the body's visibility about a black service class and the new mass access to leisure From this snapshot of a recreational scene that would continue to inspire Crane's sensational modernism Brown takes us to New York's Bowery There in the visual culture established by dime museums minstrel shows and the Kodak craze he exhibits Crane dramatically obscuring the typology of race Along the way Brown demonstrates how attitudes toward play transformed the image of war the idea of childhood and nationhood and the concept of culture itself And by developing a new conceptual apparatus with such notions as recreational time abstract leisure and the amusement knowledge system he provides the groundwork for a new politics of pleasure A crucial theorization of how cultural studies can and should proceed *The Material Unconscious* insists that in the very conjuncture of canonical literature and mass culture we can best understand how proliferating and competing economies of play disrupt the so called logic and work of culture
