The Real in the Ideal R.C.S. Walker, 2019-04-25 This book first published in 1989 presents sixteen articles on Kant and Berkeley examining their attitude to the physical world They were both idealists regarding the physical world as being in some way a product of perceptions and thought At the same time they both held it to be no mere illusion but real and objective it was in a sense ideal but in a different sense also real

Schelling and Spinoza Benjamin Norris, 2022-08-01 Schelling and Spinoza reconstructs Schelling's reading of Spinoza's metaphysics to better understand the roles realism and idealism play in Schelling's work Schelling initially praises Spinoza's monism but comes to criticize the lifelessness produced by Spinoza's dualistic account of the relation between thought and existence By turning to Schelling's notion of the Absolute author Benjamin Norris presents a novel reading of Schelling's early and middle philosophical endeavors as a kind of ideal realism dependent on the hyphen that marks both the identity and the non identity of realism and idealism Through close analysis of Schelling's work he convincingly argues that any contemporary return to Schelling must grapple with his critique of Spinoza This critique calls into question the categories of immanence and transcendence that orient the current debate surrounding realism antirealism and idealism Schelling and Spinoza is an important contribution to our understanding of both Schelling and Spinoza as well as the viability of the frightening claim that only one thing truly exists

The Philosophy of Schopenhauer Dale Jacquette, 2015-01-30 Dale Jacquette charts the development of Schopenhauer's ideas from the time of his early dissertation on *The Fourfold Root of the Principle of Sufficient Reason* through the two editions of his magnum opus *The World as Will and Representation* to his later collections of philosophical aphorisms and competition essays Jacquette explores the central topics in Schopenhauer's philosophy including his metaphysics of the world as representation and Will his so called pessimistic philosophical appraisal of the human condition

his examination of the concept of death his dualistic analysis of free will and his simplified non Kantian theory of morality Jacquette shows how these many complex themes fit together in a unified portrait of Schopenhauer s philosophy The synthesis of Plato Kant and Buddhist and Hindu ideas is given particular attention as is his influence on Nietzsche first a follower and then arch opponent of Schopenhauer s thought and the early Wittgenstein The book provides a comprehensive and in depth historical and philosophical introduction to Schopenhauer s distinctive contribution to philosophy

The Metaphysics of Becoming Thomas Padiyath,2014-08-22 This study attempts to elucidate a possible meeting point of the traditions of Eastern and Western metaphysical thinking In discussing Whitehead's and Aurobindo's views on being and becoming it seeks the possibility of a better engagement between the East and the West in the light of the philosophical insights It is an initiation into the *Sitz im Leben* of Whitehead's philosophy and his general thought pattern It carries a perceptive analysis to show the clear primacy of Becoming or Process in Whitehead that extends even to the Divine It also highlights Aurobindo as a unique Indian Philosopher who articulated Indian thought in Western categories He was able to integrate the evolutionary theory of the West with the Indian understanding of becoming The relationship between God and Creativity and Sachchidananda and the Supermind is studied within the context of Enlightenment and Modernity and the way of doing philosophy in the West and in the East

Buddhist Epistemology in the Geluk School Jonathan Samuels,Khedrup Je,Gyaltsab Je,The First Jamyang Shepa,2025-08-26 Tibet's philosophical tradition is on brilliant display in this anthology of works exploring the means to finding certainty in an impermanent and interdependent world Here descendants of the great Tsongkhapa plumb the nature of knowing to harness it in the service of awakening This volume includes translations of three separate Tibetan works by iconic figures in the Geluk school of Buddhism The first work *Banisher of Ignorance* is by Khedrup Gelek Palsang 1385-1438 and the second *On Preclusion and Relationship* is by Gyaltsab Darma Rinchen 1364-1432 The authors popularly known as Khedrup Je and Gyaltsab Je were the foremost disciples of the Geluk school founder Tsongkhapa Losang Drakpa 1357-1419 The third text *Mighty Pramana* Sun is a commentary on the first chapter of Candrakirti's *Clear Words Prasannapada* by Jamyang Shepa 1648-1721 These works concern themselves primarily with the Buddhist theory of knowledge the means by which we are able to know things and how we can be certain of that knowledge Encapsulating this theory is the notion of *pramana* the Buddhist understanding of which was shaped most significantly by the Indian masters Dignaga fifth to sixth century and Dharmakirti seventh century Based on their explanation *pramana* is often translated as valid cognition a literal reference to the kind of cognition that they proposed could be relied upon to supply indisputable knowledge In the Buddhist *Pramana* tradition rigorous reasoning is held to play a crucial role in gaining such knowledge and there is no better exemplar of the sophistication this endeavor achieved in Tibet than Khedrup Je's work here He systematically catalogs and rebuts a host of views with unmatched acumen and flair All three works illustrate how those who follow the tradition have viewed the systematic approach as necessary not only for textual analysis for those seeking to unravel the complexities of the Indian Buddhist scriptures and treatises but also for practitioners aiming to progress along the spiritual path and achieve the highest Buddhist goals

Library of Universal Literature: Critique of pure reason ,1900

Critique of Pure Reason Immanuel Kant,1901 Metaphysicians have for

centuries attempted to clarify the nature of the world and how rational human beings construct their ideas of it Materialists believed that the world including its human component consisted of objective matter an irreducible substance to which qualities and characteristics could be attributed Mindthoughts ideas and perceptions was viewed as a more sophisticated material substance Idealists on the other hand argued that the world acquired its reality from mind which breathed metaphysical life into substances that had no independent existence of their own These two camps seemed deadlocked until Immanuel Kant's Critique of Pure Reason endeavored to show that the most accurate theory of reality would be one that combined relevant aspects of each position yet transcended both to arrive at a more fundamental metaphysical theory Kant's synthesis sought to disclose how human reason goes about constructing its experience of the world thus intertwining objective stimuli with rational processes that arrive at an orderly view of nature

Committee on Foreign Relations, 2001 *Perennial Questions* J Krishnamurti, 2022-09-09 What is necessary is to examine unemotionally not merely intellectually the intellect doesn't solve any problem it can only invent a lot of ideas theories Nor can emotion dissipate the urgency of the problems that one has to face and resolve What is necessary it seems to me is a mind that is capable of examination To examine there must be freedom from personal views with a mind that is not guided by one's own temperament inclination nor is compelled by circumstances it seems to me that one must look at them not as an individual but as a human being the human being supercedes the individual human beings have the same common factor of sorrow of joy of unresolved miseries despairs the immense loneliness of modern existence the utter meaninglessness of life as it is lived now throughout the world if we could consider these problems as human beings then perhaps we can intelligently with care resolve our problems An extensive compendium of Krishnamurti's talks and discussions in the USA Europe India New Zealand and South Africa from 1933 to 1967 the Collected Works have been carefully authenticated against existing transcripts and tapes Each volume includes a frontispiece photograph of Krishnamurti with question and subject indexes at the end The content of each volume is not limited to the subject of the title but rather offers a unique view of Krishnamurti's
