A Philosophical Exploration of the Humanities and Social Sciences Giorgio Baruchello, Ársæll Már Arnarsson, 2022-11-07 Humor has been praised by philosophers and poets as a balm to soothe the sorrows that outrageous fortune's slings and arrows cause inevitably if not incessantly to each and every one of us In mundane life having a sense of humor is seen not only as a positive trait of character but as a social prerequisite without which a person's career and mating prospects are severely diminished if not annihilated However humor is much more than this and so much else In particular humor can accompany cruelty inform it sustain it and exemplify it Therefore in this book we provide a comprehensive reasoned exploration of the vast literature on the concepts of humor and cruelty as these have been tackled in Western philosophy humanities and social sciences especially psychology Also the apparent cacophony of extant interpretations of these two concepts is explained as the inevitable and even useful result of the polysemy inherent to all common sense concepts in line with the understanding of concepts developed by M Polanyi in the 20th century Thus a thorough nuanced grasp of their complex mutual relationship is established and many platitudes affecting today's received views and scholarship are cast aside Like Aristotle and Dewey Arnarsson and Baruchello do not define their terms at the outset but instead they relentlessly pursue the meanings of two ordinary words that everyone vaguely understads to arrive at a critical insight into the concepts these words represent which are both disparate and interrelated Richard Marc Rubin President George Santayana Society

His Young Wife. A Novel Julie P. Smith, 2024-06-17 Reprint of the original first published in 1877

A Cognitive Psychology of Mass Communication Richard Jackson Harris, 2004 The author examines how our experiences with media affect the way we acquire knowledge and how this knowledge creates consequences for attitudes and behaviour

Thoughtless: Think Less, Be More William Sharkey, 2014-05 We as humans experience much stress and suffering yet we aren't really sure why this is so We guess that our stress and suffering comes from a lack of money security loving relationships a difficult childhood lack of religious faith because we suffer from depression or some other sort of chemical deficiency in the brain or a variety of other reasons But there is another explanation We suffer because we think too much We have stress because we are too attached to our thought Thoughtless will show you why thoughts are the reason behind the stress and suffering that is common to almost all humans and how to do something about it how to end it William illustrates how it is possible to allow joy and inner peace to fill your experience of life by becoming thoughtless
