Something In Common:

Reading Cavell Alice Crary, Sanford Shieh, 2006-04-18 Exploring the work of one of the most eminent figures in contemporary philosophy this compelling account includes contributions from Hilary Putnam Cora Diamond Jim Conant and Stephen Mulhall *A Custodian of Grammar* Kristijan Krkac, 2013-01-22 The nature of method has always been a topic at the very heart of western philosophical traditions especially in the 20th century One of the most influential philosophers of the last century Ludwig Wittgenstein changed not just his philosophical standpoint at least twice in his lifetime but the very method of studying philosophy as well *A Custodian of Grammar* discusses Wittgenstein's method in his later period sometimes referred to as morphology Krkac explores this topic from the primer of morphology and proceeds to more demanding and complicated topics such as forms of life and perspicuous presentations He also examines Wittgenstein's applications of his method namely to consciousness perception and certainty This book will be of interest to Wittgenstein scholars and to students investigating various philosophical methods of philosophy from the 20th century

No Other Name? Paul F. Knitter, 1985-01-01 Wittgenstein Kelly Dean Jolley, 2014-12-05 Wittgenstein's complex and demanding work challenges much that is taken for granted in philosophical thinking as well as in the theorizing of art theology science and culture Each essay in this collection explores a key concept involved in Wittgenstein's thinking relating it to his understanding of philosophy and outlining the arguments and explaining the implications of each concept Concepts covered include grammar meaning and meaning blindness language games and private language family resemblances psychologism rule following teaching and learning avowals Moore's Paradox aspect seeing the meter stick and criteria Students new to Wittgenstein and readers interested in developing their understanding of specific aspects of his philosophical work will find this book very welcome

Introduction to Philosophy Martin Heidegger, 2024-04-09 Introduction to Philosophy volume 27 of Heidegger's Complete Works presents Heidegger's lecture course delivered in the winter semester of 1928-1929 at the University of Freiburg translated into English for the first time by William McNeil In this lecture series Heidegger explores two major themes the relation between philosophy and science and the relation between philosophy and Weltanschauung worldview Through extensive analyses of truth unconcealment and transcendence he delves into topics that would expand into his later work From being with and community to the phenomenon of world and the play of world Heidegger covers a wide range of philosophical concepts with unprecedented clarity and profound insight Introduction to Philosophy offer an encounter with a true master at work

Essentialism Garth L. Hallett, 1991-09-27 *Essays in Analysis* Alice Ambrose, 2024-01-15 First published in English in 1966 *Essays in Analysis* addresses the problems in logic and foundations of mathematics metaphysics and epistemology The problems are all root problems in their fields and range from questions concerning our knowledge of the external world to questions about logical entailment mathematical proof and induction Their treatment is not guided by any underlying systematic view as is characteristic in speculative philosophy The unity and

orientation of the collection are instead provided by the method employed throughout the method of analysis A central method of philosophy from Zeno to the present has been analysis of concepts and the guiding idea throughout these essays is that analysis is the only means by which philosophers can bring clarification to their subject The complaint has been made that clarity is not enough but unless it is steadfastly pursued obscurity and confusion are free to pass for profundity As will be evident from even a cursory view reading of these studies all are deeply influenced by Moore and Wittgenstein with whom the author studied for some years at Cambridge university This is an interesting read for scholars and researchers of philosophy

Introduction to Philosophy Jack Rogers, Robert A. Evans, Forrest E. Baird, 1998-07-21 This unique approach to the history of Western thought uses the case study method to clarify ways of understanding reality and defining philosophy The cases reflect the life experiences of twelve key philosophers from classical to contemporary times Rogers and Baird summarize the historical context central questions and crucial factors of each life discussed A brief response to each case written by a major contemporary philosopher helps readers analyze the cases and shows how philosophy deals with basic human concerns Each case includes study questions notes and suggested readings

A General Introduction to Psychoanalysis Зигмунд Фрейд, 2021-12-02

How to Do Things with Pornography Nancy Bauer, 2015-04-06 In Nancy Bauer's view most feminist philosophers are content to work within theoretical frameworks that are false to human beings everyday experiences Here she models a new way to write about pornography women's self objectification hook up culture and other contemporary phenomena and in doing so she raises basic questions about philosophy

A Dissertation on the Philosophy of Aristotle Thomas Taylor, 1812

Origines Kalendariae Hellenicae: Or, the History of the Primitive Calendar Among the Greeks, Before and After the Legislation of Solon Edward Greswell, 1862

Self Richard Sorabji, 2006-09-14 Richard Sorabji presents a brilliant exploration of the history of our understanding of the self which has remained elusive and mysterious throughout the spectacular development of human knowledge of the outside world He ranges from ancient to contemporary thought Western and Eastern to reveal and assess the insights of a remarkable variety of thinkers He discusses a set of topics which are at the heart of our understanding of ourselves personal identity memory the importance of seeing one's life as a whole the relation between self intellect will and agency self awareness the stream of consciousness embodiment death and survival He rejects the view found in various philosophical and religious writings that the self is an illusion and develops his own original conception of the self as essential to our ownership of our experience and our apprehension of the world

Making the New Post-Soviet Person Jarrett Zigon, 2010-03-25 The post Soviet years have widely been interpreted as a period of intense moral questioning debate and struggle Despite this claim few studies have revealed how this moral experience has been lived and articulated by Russians themselves This book provides an intimate portrait of how five Muscovites have experienced the post Soviet years as a period of intense refashioning of their moral personhood and how this process can only be understood at the intersection of their unique personal experiences a shared

Russian Soviet history and increasingly influential global discourses and practices The result is a new approach to understanding everyday moral experience and the processes by which new moral persons are cultivated *Questions on the Soul by John Buridan and Others* Gyula Klima, 2017-03-30 This volume features essays that explore the insights of the 14th century Parisian nominalist philosopher John Buridan It serves as a companion to the Latin text edition and annotated English translation of his question commentary on Aristotle's *On the Soul* The contributors survey Buridan's work both in its own historical theoretical context and in relation to contemporary issues The essays come in three main sections which correspond to the three books of Buridan's *Questions* Coverage first deals with the classification of the science of the soul within the system of Aristotelian sciences and surveys the main issues within it The next section examines the metaphysics of the soul It considers Buridan's peculiar version of Aristotelian hylomorphism in dealing with the problem of what kind of entity the soul in particular the human soul is and what powers and actions it has on the basis of which we can approach the question of its essence The volume concludes with a look at Buridan's doctrine of the nature and functions of the human intellect Coverage in this section includes the problem of self knowledge in Buridan's theory Buridan's answer to the traditional medieval problem concerning the primary object of the intellect and his unique treatment of logical problems in psychological contexts *Sociological Theory in the Classical Era* Laura Desfor Edles, Scott Appelrouth, 2014-11-18 Trained at UCLA and at NYU respectively Laura Desfor Edles and Scott Appelrouth were frustrated by their inability to find a sociological theory text that could inspire enthusiasm in undergraduate students while providing them with analytical tools for understanding theory and exposing them to original writings from pivotal theorists They developed this widely used text reader to fill that need *Sociological Theory in the Classical Era* introduces students to original major writings from sociology's key classical theorists It also provides a thorough framework for understanding these challenging readings For each theorist the authors give a biographical sketch discuss intellectual influences and core ideas and offer contemporary examples and applications of those ideas Introductions to every reading provide additional background on their structure and significance This book also makes frequent use of photos diagrams tables and charts to help illustrate important concepts

Medieval Commentaries on Aristotle's Categories Lloyd A. Newton, 2008 The contributors to this volume cover a wide range of philosophers from Simplicius to John Wyclif and philosophical problems including the harmony of Platonism and Aristotelianism the relationship between logic and metaphysics the number of categories and realism vs nominalism

The Medieval Reception of Book Zeta of Aristotle's Metaphysics (2 Vol. Set) Gabriele Galluzzo, 2012-11-09 Focusing on the medieval reception of Book Zeta of Aristotle's *Metaphysics* Volume One of this work offers an unprecedented and philosophically oriented study of medieval ontology against the background of the current metaphysical debate on the nature of material objects Volume Two makes available to scholars one of the culminating points in the medieval reception of Aristotle's metaphysical thought by presenting the first critical edition of Book VII of Paul of Venice's *Commentary* on

Aristotle's Metaphysics 1420-1424
Winslow, 1859
