No Greater King David W. Holman, 2014-03-05 In 1860 slavery flourished in Texas. With the Civil War imminent, Easterners brought slaves to the West in droves. By the eve of the Civil War, almost one third of the Texas population was slaves. The author seeks to portray the slave experience as viewed through the eyes of the slaves. Caleb, a young slave on a cotton plantation in Brazoria County, Texas, experiences the trials and tribulations of slavery. Things change dramatically when his genial Master dies, only to leave his sadistic son Sandy in charge. Meanwhile, in 1861, the plantation owner's other son, Win, volunteers to fight in the Confederate Army and enlists with Terry's Texas Rangers. We follow him as he trains, drills, and travels with the men to fight in the Battle of Shiloh. The novel tells the story of the lives of Caleb and Win during this turbulent period.

These Were the Sioux Mari Sandoz, 1961-01-01 The Sioux Indians came into my life before I had any preconceived notions about them, writes Mari Sandoz about the visitors to her family homestead in the Sandhills of Nebraska when she was a child. These *Were the Sioux*, written in her last decade, takes the reader far inside a world of rituals surrounding puberty, courtship, and marriage, as well as the hunt and the battle.

Cold Warriors Suzanne Clark, 2000 *Cold Warriors: Manliness on Trial in the Rhetoric of the West* returns to familiar cultural forces: the West, anticommunism, and manliness, to show how they combined to suppress dissent and dominate the unruliness of literature in the name of a national identity after World War II. Few realize how much the domination of a white male American literary canon was a product not of long history but of the Cold War. Suzanne Clark describes here how the Cold War excluded women writers, on several levels, together with others: African American, Native American, poor men, as well as women who were ignored in the struggle over white male identity. Clark first shows how defining national individual American identity in the Cold War involved a brand new configuration of cultural history. At the same time, it called upon the nostalgia for the old discourses of the West: the national manliness.

asserted by Theodore Roosevelt to claim that there was and always had been only one real American identity By subverting the claims of a national identity Clark finds many male writers risked falling outside the boundaries not only of public rhetoric but also of the literary world men as different from one another as the determinedly masculine Ernest Hemingway and the antiheroic storyteller of the everyday Bernard Malamud Equally vocal and contentious Cold War women writers were unwilling to be silenced as Clark demonstrates in her discussion of the work of Mari Sandoz and Ursula Le Guin The book concludes with a discussion of how the silencing of gender race and class in Cold War writing maintained its discipline until the eruptions of the sixties By questioning the identity politics of manliness in the Cold War context of persecution and trial Clark finds that the involvement of men in identity politics set the stage for our subsequent cultural history *Wyoming Library Roundup* ,1976 *Twentieth-century Western Writers* ,1982 Lists writers of western fiction with a biography a bibliography of the writer s works and a critical essay on each writer Sometimes comments by the author himself are included *Capital City* Mari Sandoz,2007-11-01 An evocative fictional portrait of the impact of the Depression on the Great Plains captures working class people of the period as they struggle to overcome the hardships challenges and pain of everyday life in the face of poverty political and economic upheaval and corruption Reprint
