A Song in the Dark Richard Barrios, 1995 Chronicling the early musical film years from 1926 to 1934 *A Song in the Dark* offers a fascinating look at these innovative films the product of much of the major experimentation that went on during the development of sound technology The triumphs disasters and offscreen intrigue of this era form a remarkable story of this vital and unique film history *The Oxford Handbook of Musical Theatre Screen Adaptations* Dominic McHugh, 2019-06-14 Hollywood's conversion to sound in the 1920s created an early peak in the film musical following the immense success of *The Jazz Singer* The opportunity to synchronize moving pictures with a soundtrack suited the musical in particular since the heightened experience of song and dance drew attention to the novelty of the technological development Until the near collapse of the genre in the 1960s the film musical enjoyed around thirty years of development as landmarks such as *The Wizard of Oz* *Meet Me in St Louis* *Singin in the Rain* and *Gigi* showed the exciting possibilities of putting musicals on the silver screen *The Oxford Handbook of Musical Theatre Screen Adaptations* traces how the genre of the stage to screen musical has evolved starting with screen adaptations of operettas such as *The Desert Song* and *Rio Rita* and looks at how the Hollywood studios in the 1930s exploited the publication of sheet music as part of their income Numerous chapters examine specific screen adaptations in depth including not only favorites such as *Annie* and *Kiss Me Kate* but also some of the lesser known titles like *Li'l Abner* and *Roberta* and problematic adaptations such as *Carousel* and *Paint Your Wagon* Together the chapters incite lively debates about the process of adapting Broadway for the big screen and provide models for future studies *The New Historical Dictionary of the American Film Industry* Anthony Slide, 2014-02-25 *The New Historical Dictionary of the American Film Industry* is a completely revised and updated edition of Anthony Slide's *The American Film Industry* originally published in 1986 and recipient of the American Library Association's Outstanding Reference Book award for that year More than 200 new entries have been added and all original entries have been updated each entry is followed by a short bibliography As its predecessor the new dictionary is unique in that it is not a who's who of the industry but rather a what's what a dictionary of producing and releasing companies technical innovations industry terms studios genres color systems institutions and organizations etc More than 800 entries include everything from Academy of Motion Pictures Arts and Sciences to Zoom Lens from Astoria Studios to Zoetrope Outstanding Reference Source American Library Association

The Movie Musical Desirée J. Garcia, 2021-01-15 With the release of each new musical film critics ask Has the musical returned The very frequency of the question would seem to belie its implication Indeed while musicals have changed over time they have never truly gone away This point becomes especially clear if we look beyond the golden age of the 1940s and 50s beyond Hollywood and even beyond the United States *The Movie Musical* is a thematic exploration of the genre with a focus on how the musical changes and adapts in order to preserve its own relevance From *The Jazz Singer* 1927 *The Sound of Music* 1965 to *La La Land* 2016 and *The Greatest Showman* 2017 and many more the book traverses time and space from

the classical period of musical film production at midcentury to the present and from Hollywood to Europe the United Kingdom and Asia Chapters explore the genre as an archive of its own formation its engagement with race ethnicity and gender and its relationship to ever evolving technologies and media Ultimately the book tells a story of the musical s evolution that denies the familiar narrative that the genre is in crisis instead The Movie Musical demonstrates that if we look beyond the familiar places we see that the musical is dynamic capacious and always with us

Movie Mutations Jonathan Rosenbaum, Adrian Martin, 2019-07-25 The idea of cinephilia is a crucial one for students of the cinema but it is often associated with a bygone arthouse era At the beginning of the twenty first century corporatism public relations and bottom line accounting seem to govern mainstream film making Formula driven Hollywood blockbusters dominate the world marketplace In times like these can the love of cinema still flourish In fact contemporary cinema is stunningly varied and rich From Taiwan and Iran to Brazil and the Baltic states it is flourishing and constantly mutating Directors like Abbas Kiarostami Hou Hsiao hsien and Tsai Ming liang are making extraordinary films that are the equal of the great classics previously unrecognised works from the past are being discovered and new definitions and boundaries of genres are being formulated Even when this work is not widely distributed it is seen at film festivals on every continent and available on DVD and it is being discussed in a proliferating number of print and web publications Those who follow and share such work as contributors from around the world demonstrate in this book are forming new kinds of critical communities that enable significant exchanges between cultures at a time when other forces seem bent on keeping them mutually isolated In contrast to any talk of the death of cinema *Movie Mutations* pronounces the art form alive well and still developing in new and unforeseen directions In weaving together transnational discussions and debates *Movie Mutations* shows why the idea of cinephilia is just as relevant today as it ever was
