

A serene landscape featuring a wooden pier extending from the bottom center towards the horizon. The pier is made of dark brown wooden planks. The ocean is a deep blue, and the sky is a mix of light blue and white clouds. In the distance, there are faint, hazy mountains. A few birds are visible in the sky on the left side.

Ethics Unbound Katrin Froese, 2013-05-30 This book closely examines texts from Chinese and Western traditions that hold up ethics as the inviolable ground of human existence as well as those that regard ethics with suspicion The negative notion of morality contends that because ethics cannot be divorced from questions of belonging and identity there is a danger that it can be nudged into the domain of the unethical since ethical virtues can become properties to be possessed with which the recognition of others is solicited Ethics thus fosters the very egoism it hopes to transcend and risks excluding the unfamiliar and the stranger The author argues inspirationally that the unethical underbelly of ethics must be recognized in order to ensure that it remains vibrant
