Speaking Of Ethnography:

Speaking of Ethnography Michael Agar, 1986 In this eloquently written volume Michael Agar expands the premise set forth in his very popular work *The Professional Stranger* *Speaking of Ethnography* challenges the assumption that conventional scientific procedures are appropriate for the study of human affairs Agar's work is informed by a hermeneutic and phenomenological tradition in which he questions the researcher's own taken-for-granted procedures Explorations in the Ethnography of Speaking Richard Bauman, 1975-01-31 First published in 1974 this collection of classic case studies in the ethnography of speaking had a formative influence on the field No other volume has so successfully provided a broad cross-cultural survey of the use and function of language and speech in everyday life The essays deal with traditional societies in Native North America and South America Africa and Oceania English French and Yiddish speaking communities in Europe and North America Afro-American communities in North America and the Caribbean Now reissued the collection includes a major new Introduction by the editors that traces the subsequent development of the ethnography of speaking and indicates directions for further research Copyright Libri GmbH All rights reserved **Understanding Communication Research Methods** Stephen M. Croucher, Daniel Cronn-Mills, 2014-10-17 Comprehensive innovative and focused on the undergraduate student this textbook prepares students to read and conduct research Using an engaging how-to approach that draws from scholarship real life and popular culture the book offers students practical reasons why they should care about research methods and a guide to actually conduct research themselves Examining quantitative qualitative and critical research methods the textbook helps undergraduate students better grasp the theoretical and practical uses of method by clearly illustrating practical applications The book defines all the main research traditions illustrates key methods used in communication research and provides level appropriate applications of the methods through theoretical and practical examples and exercises including sample student papers that demonstrate research methods in action **The SAGE Handbook of Sociolinguistics** Ruth Wodak, Barbara Johnstone, Paul E Kerswill, 2011 This Handbook answers a long-standing need for an up-to-date comprehensive international in-depth critical survey of the history trajectory data results and key figures involved in sociolinguistics The result is a work of unprecedented coverage and insight It is all here from the foundational contributions to the field to the impact of new media new technologies of communication globalization trans-border fluidities and agendas of research *Speaking Subjects in Multilingualism Research* Judith Purkaysthofer, Mi-Cha Flubacher, 2022-07-22 This book discusses salient moments of multilingual encounters and brings together contributions focused on the interplay between language use by individuals and societies and language-related inequalities or opportunities for speakers The chapters demonstrate how biographical and speaker-centred approaches can contribute to an understanding of linguistic diversity how researchers can empirically account for lived experiences of languages and how such accounts are embedded in a larger discussion on social inequality Together the chapters make a powerful case for the

importance of speaker centred methodologies in multilingual and multilingualism research The book is a rich source of theoretical and methodological reflections and will thus be a valuable resource for both experienced researchers and students beginning to explore biographical research methods Talking Culture Michael Moerman,1988 Argues that anyone anthropologist psychologist or policeman who uses what people say to find out what people think had better know how speech itself is organized *Artificial Intelligence for Natural Language Processing* Dhanalekshmi Prasad Yedurkar,Ganesh R. Pathak,Manisha Galphade,Thompson Stephan,2025-09-16 Artificial Intelligence for Natural Language Processing offers a comprehensive exploration of how advanced computational methods are transforming the way machines understand human language This book delves into the core principles of Natural Language Processing through an engaging progression from fundamental word level analysis to complex discourse and pragmatic analysis integrating linguistic theory with cutting edge Artificial Intelligence methodologies It provides a robust framework for both the theoretical underpinnings and practical applications of NLP ensuring that readers gain a clear understanding of how computers can effectively process and interpret human language What sets this book apart is its methodical structure that guides the reader through each level of language analysis building upon earlier chapters to culminate in a deep integration of artificial intelligence within NLP systems The detailed explanations and examples are designed to bridge the gap between abstract theory and real world application making it an invaluable resource for anyone looking to grasp the nuances of language processing FEATURES Provides a step by step progression from word level analysis to syntactic semantic and pragmatic processing Offers in depth discussions on word sense disambiguation with illustrative examples Presents an exploration of discourse integration and contextual meaning essential for modern NLP models Delivers comprehensive coverage of AI applications in NLP highlighting state of the art computational techniques Suggests clear accessible explanations suitable for both beginners and advanced practitioners This book is ideal for graduate students researchers and professionals in computer science linguistics and artificial intelligence Whether you are a seasoned researcher looking to deepen your understanding or a newcomer eager to explore the field Artificial Intelligence for Natural Language Processing serves as both an essential academic resource and a practical guide for navigating the evolving landscape of language technology EBOOK: Disseminating Qualitative Research in Educational Settings Christina Hughes,2003-11-16 This book is a useful addition to the growing literature in the field of educational research methodology and offers a lively and very unusual introduction to an aspect of research which has so far received little attention It is particularly helpful in drawing on experience across the educational landscape including adult and lifelong education as well as schools based work For this very reason it will be a very valuable resource for a broad audience Studies in the Education of Adults The processes and practices of the dissemination of research findings are exceptionally neglected fields in the research methods literature Yet disseminating and using our findings are significant reasons why we undertake research Organised in three parts this text provides an accessible critically informed and up to

date overview of key aspects of dissemination In so doing this text provides a critical review of contemporary policy and dissemination models in education contains a series of case studies produced by internationally respected researchers in a range of educational fields Drawing on their extensive experiences of dissemination these case studies illuminate how dissemination acts proceed in qualitative research projects They also illuminate the dilemmas facing qualitative researchers who strive to disseminate their work Enables researchers to develop informed practice in respect of disseminating research in a range of educational settings The SAGE Encyclopedia of Human Communication Sciences and Disorders Jack S. Damico, Martin J. Ball, 2019-03-01 The SAGE Encyclopedia of Human Communication Sciences and Disorders is an in depth encyclopedia aimed at students interested in interdisciplinary perspectives on human communication both normal and disordered across the lifespan This timely and unique set will look at the spectrum of communication disorders from causation and prevention to testing and assessment through rehabilitation intervention and education Examples of the interdisciplinary reach of this encyclopedia A strong focus on health issues with topics such as Asperger s syndrome fetal alcohol syndrome anatomy of the human larynx dementia etc Including core psychology and cognitive sciences topics such as social development stigma language acquisition self help groups memory depression memory Behaviorism and cognitive development Education is covered in topics such as cooperative learning special education classroom based service delivery The editors have recruited top researchers and clinicians across multiple fields to contribute to approximately 640 signed entries across four volumes *Handbook of Pragmatics* Jef Verschueren, Jan-Ola Östman, Jan Blommaert, 1995
