Speaking Of Priests:

Pimps in the Pupit John Williams, *Talking Acadian* John Chetro-Szivos, 2006-08 One of the most fascinating of the many subcultures of North America is that of the French speaking Acadians TALKING ACADIAN Communication Work and Culture by John Chetro Szivos looks into the lives of the French speaking American Acadians particularly those who left eastern Canada to settle in Massachusetts in the 1960s This book captures their feelings about family life and their values mores and morals It traces the ways they use communication to develop and maintain their culture What the reader learns is that to talk about Acadians you must talk about work This group gives us new insights into the world of work a central feature of living for the Acadians and crucial to their self definition There are few sources about this culture and their experiences in the United States This book makes contributions to communication studies more specifically the Coordinated Management Meaning by analyzing the situated interactions of this community demonstrating the capacity of communication to transmit the rules and grammar of a culture and highlighting Cronen s consequentiality of communication John Chetro Szivos is a communication scholar and chair of the Department of Communication at Fitchburg State College in Massachusetts He received bachelor s and master s degrees from Assumption College a master s from Anna Maria College and his doctorate in communication from the University of Massachusetts Amherst He has published several works in the field of communication specifically on the Coordinated Management of Meaning theory and American pragmatism

Católicos Mario T. García, 2010-01-01 Chicano Catholicism both as a popular religion and a foundation for community organizing has over the past century inspired Chicano resistance to external forces of oppression and discrimination including from other non Mexican Catholics and even the institutionalized church Chicano Catholics have also used their faith to assert their particular identity and establish a kind of cultural citizenship Based exclusively on original research and sources Mario T Garc a here offers the first major historical study to explore the various dimensions of the role of Catholicism in Chicano history in the twentieth century This is also one of the first significant studies in the still limited field of Chicano religious history Topics range from how early Chicano Catholic intellectuals and civil rights leaders were influenced by Catholic Social Doctrine to the role that popular religion has played in the lives of ordinary men and women in both rural and urban areas Garc a also examines faith based Chicano community movements like Cat licos Por La Raza in the 1960s and the Sanctuary movement in Los Angeles in the 1980s While Latino a history and culture has been for the most part inextricably linked with the tenets and practices of Catholicism there has been very little written until recently about Chicano Catholic history Garc a helps to fill that void and explore the impact both positive and negative that the Catholic experience has had on the Chicano community

International Priests in America Dean R. Hoge, Aniedi Okure, 2006 Foreign born priests have always played a significant role in America Only from 1940 to 1960 did the church produce enough native born priests to serve its parishes In the past those priests usually came from Europe most notably Ireland In the future most of the world

will be served by priests from Asia Africa and Latin America particularly India and Nigeria Sixteen percent of the priests serving in the United States since 1985 are foreign born and the number is rising But many Americans prefer not to have them in their churches saying the language and cultural differences are too great and the screening isn't sufficient International Priests in America studies this phenomenon from the perspective of parishioners lay ministers diocesan leaders and priests This groundbreaking book is guided by two questions Should the Catholic Church in the United States bring in more international priests If so how should this be done **Should the Church Teach Tithing?** Russell Earl Kelly, 2001-01-11 Following a thorough examination of every biblical text on tithing Dr Kelly concludes that the church would be best served spiritually by believing and applying better New Testament principles of giving After discussing sound biblical reasons for Christians to replace tithing he presents God's better principles of grace Doctrines such as the New Testament concept of law and covenant and the priesthood of believers are presented as they affect tithing Following several chapters which discuss disputed texts relating to pastoral support this book traces the early development of church support as found in the Church Fathers before Nicea This book leaves no question or objection about tithing unanswered It is a must read for any serious Bible student There is a wealth of other doctrinal insights to be gained as one goes through the Bible in search of the truth about tithing **The Making of the Slovak People's Party** Thomas Lorman, 2019-05-30 Winner of the BASEES George Blazyska Prize In 1945 just six years after coming to power the Slovak People's Party SLS was disbanded as a criminal organisation and its leader Jozef Tiso hanged for treason What made it possible for the SLS initially founded in 1905 by priests to represent the Catholic Slovak minority residing in the north of the Kingdom of Hungary to form an openly pro Nazi government in 1939 And what put Slovakia on the path to a fascism that would see more than 45 000 Jews deported to their deaths in 1942 To answer these questions Thomas Lorman draws on more than a decade's research in archives across the region in Hungarian Slovak and Latin and studies the party's formative years in depth for the first time in English Lorman examines the various strands which fused to form the party and its popularity including a complex and nebulous nationalism Catholicism and a resounding mistrust of liberalism and modernity The Making of the Slovak People's Party is a vital and timely study of the genesis and success of far right movements that will be essential reading for all scholars working on 20th century Eastern European history nationalism and the interplay of religion and politics Hidden and Forgotten Iheanyi M. Enwerem, 2019-04-16 Catholics of African descent have been in the Catholic Church in Canada since Canada's pre independent days and yet there has been and still is a poverty of pastoral outreach to them In a richly researched yet enjoyably readable study Father Enwerem posits that the recent arrival of African missionaries is a good sign for the rejuvenation of Catholicism in Canada but he suggests that the Church's continuing silence on the presence and contributions of Africans in the historiography of Catholicism in Canada betrays a subtle racism Compelling and utterly convincing Hidden and Forgotten addresses the urgent need to correct this incomplete and therefore false history of

Catholicism in Canada **Irish Priests in the United States** William L. Smith, 2004-06-14 Four thousand Irish born and Irish seminary educated priests have served in the United States and nearly 1 250 are currently affiliated with American dioceses The Irish Catholic upbringing of these priests along with their Irish education immigrant status and missionary spirit distinguish them from American born priests These priests have left an indelible mark in the U S primarily by staffing Catholic parishes in the South West and Southwest They are however a vanishing subculture due to an increasing mortality rate and the dearth of vocations to the priesthood in Ireland This book is the beginning of a much needed discussion about the experiences and beliefs of Irish priests It provides a cultural analysis of these men including an examination of the diverse and oftentimes contradictory sides they find themselves on regarding philosophical theological and pastoral issues The book is based on archival and survey research that has revealed numerous letters and other documents Survey research conducted in the 1990s examines the priests thoughts on seminary education ethnicity satisfaction with the priesthood ecclesiological and theological concerns and Vatican II

Farm Workers and the Churches Alan J. Watt, 2010-02-23 In the mid 1960s the charismatic Cesar Chavez led members of California's La Causa movement in boycotting the grape harvest and melon pickers in South Texas called a strike against growers contesting unfair labor and wage practices in both states In *Farm Workers and the Churches* Alan J Watt shows how the religious and social contexts of the farm workers their leaders and the larger society helped or hindered these two pivotal actions Watt explores the ways in which liberal expressions of Northern Protestantism transplanted to California and combined with the pro labor wing of the Catholic Church and the heritage of Mexican popular piety provided a fertile field for the growth of broad support for Chavez and his organizing efforts Eventually La Causa was able to achieve collective bargaining victories including a historic labor contract between California agribusiness and farm workers The movement did not fare as well in Texas where the combination of a locally weak union leadership a more conservative Southern Protestant ethos and the strikebreaking measures of the Texas Rangers all boded ill However a general Chicano movement ultimately took permanent root in the state because of the workers struggle Watt offers a careful examination of the complex interactions among religious traditions social heritage and ethnicity as these factors affected the course and outcomes of these two pioneering campaigns undertaken by La Causa
