Speech And Language Assessment For The Bilingual Handicapped:

Speech and Language Assessment for the Bilingual Handicapped Larry J. Mattes,1991 **Speech and Language Assessment for the Bilingual Handicapped** L.J. Mattes,D.R. Omark,1985-12 **Speech and Language Assessment for the Bilingual Handicapped** Larry J. Mattes,Donald R. Omark,1984-01-01 *Speech and Language Assessment for the Bilingual Handicapped* Larry J. Mattes,Donald R. Omark,1984-05 **Bilingualism and Language Disability (PLE: Psycholinguistics)** Nick Miller,2013-11-12 Society is becoming increasingly multi lingual and this presents monolingual professionals particularly those in special education and speech pathology with severe problems Is the language delay in a child from a bilingual environment a result of this background or is there a specific speech problem Is a child s poor performance in school due to his problems of coping with two languages or does he need remedial teaching Originally published in 1984 this book is not concerned with second language learning but with speech and learning difficulties in bilingual children as they are presented to remedial teachers psychologists and speech therapists To this end the first group of specially written articles deals with the patterns of language usage in bilingual communities and the social and psychological factors which shape these patterns with processes in normal bilingual language acquisition and with the relationship between cognitive development and growing up with two languages Management issues and methods involved in helping children with language problems are also tackled they include taking case histories family liaison counselling bilingual programmes mother tongue teaching curriculum development and the training of personnel to work in the bilingual bicultural field This book provided a great deal of practical help in a field that was relatively new at the time of writing and helped to enlighten readers on the issues involved and assist in crystalising thought and directing future research

Interprofessional Practice with Diverse Populations Allan Barsky,Esther Geva,Fern Westernoff,2000-08-30 Concepts such as cultural competence multicultural practice and ethnosensitivity have taken root in the literature At the same time concepts such as cross disciplinary transdisciplinary interdisciplinary and interprofessional practice have been articulated Although these two trends coexist in print the literature in the various helping professions does not address whether and how the issues of client diversity and interprofessional practice can come together in productive and better informed ways The present book promises to close this gap and offer health care professionals theoretically grounded examples of best practices The range of diversity includes Native American Taiwanese Portuguese African American Algerian Irish South Asian and gay clients *Language Disabilities in Cultural and Linguistic Diversity* Deirdre Martin,2009 *Language Disabilities in Cultural and Linguistic Diversity* offers a new approach to understanding the familiar dilemma of disentangling difficulties in communication for learners developing the language of schooling The author takes a socio cultural Vygotskian approach to reinterpret international research in language disabilities namely specific language impairment communication difficulties dyslexia and deafness **Bilingualism and Language Disability** Niklas Miller,2013-12-11 *Working with Bilingual*

Language Disability Deirdre M. Duncan, 2013-12-20 The decision to write this book was taken by a group of practising speech therapists who worked with bilingually language handicapped children in the UK They formed a professional interest group called the Specific Interest Group in Bilingualism because of the need felt by speech therapists to have some forum for discussing the challenges posed by the assessment and treatment of the bilingually language handicapped In these regular discussion groups it became clear that similar experiences were encountered by all speech therapists working with these client populations up and down the country They centred on managing the linguistic diversity the need for development of language information the need for appropriate assessment protocols the recruitment of bilingual staff and appreciating the positive perspective of working in this field In the UK the range of languages is extensive Italian Spanish Portuguese Greek Turkish Polish Ukrainian Hong Kong Chinese Vietnamese Chinese Creole Black English Bengali Gujarati and Panjabi cover the main ethnolinguistic groups In the 1987 ILEA language census over 140 languages were recorded as being spoken in London

Communication Disorders in Multicultural Populations Dolores E. Battle, 2011-11-01 Written by some of the top researchers and clinicians in the field *Communication Disorders in Multicultural Populations* 4th Edition offers an in depth look at the major cultural groups in the U S and the issues concerning their communication development common disorders and treatment options This fourth edition features a wealth of updates and new features including the latest research and added coverage of communication issues in countries such as Australia China Canada and Brazil to give speech language pathology students and speech language pathologists a balanced and global perspective on the most topical multicultural communication issues of today Comprehensive coverage focuses on a wide variety of cultural and age populations Cutting edge research and data offer up to date discussions based on the latest studies in multiculturalism as it relates to the SLP and AuD professions Diverse panel of expert authors include some of the top researchers and clinicians in the field Additional resources provide a focused listing of print and electronic sources at the end of each chapter to support more in depth study of a particular subject Chapter on international perspectives tackles issues in countries such as Australia Canada China and Brazil to give you a more global understanding of communication disorders The latest statistics from the 2010 U S Census report offers the most current data available Increased content on older adults covers the multicultural issues voice disorders and neurogenic disorders particular to this important demographic Case studies give you practice solving realistic clinical problems Chapter overview and conclusion outline the key information in each chapter and serve as a checklist for content mastery
