Speeches To The Conservative Party Conference 1975 1988:

Making Speeches Tom Hurst, 2025-03-20 Having recently passed the 40th anniversary of Margaret Thatcher's entry into Number 10 Downing Street the burgeoning field of Thatcher studies continues to attract the attention of scholars and students alike The dense array of literature has thus far comprehensively covered Thatcher's politics personal life and famous speeches but the approaches she took to her speech writing have hitherto been overlooked By consulting a variety of primary sources such as the Churchill archives which house Thatcher's papers Tom Hurst deftly presents a comprehensive account of Margaret Thatcher's Speechmaking By encompassing the creation delivery and dissemination of the speeches before concluding with a focus on the reception of these speeches in an unprecedented digital age Hurst fills an existing gap By focusing on the oft overlooked staff who helped Thatcher draft her speeches and in so doing shaped Thatcherism from behind the scenes Hurst promotes an entirely original work that unveils the Iron Lady's reliance on her speechmakers which has previously been unexplored

The British Conservative Party Lenon Campos Maschette, 2024-02-20 Citizenship has been an ill explored subject within Conservative Party studies When this subject has been analysed it is usually made by scholars of citizenship more concerned with general overviews than understanding specific Conservative approaches to the concept This book intends to fill this gap Through a rigorous analysis of sources the author explores how the Conservative Party contested the welfare model of citizenship and sought to recreate a new relationship between the individual the state and civil society Starting from Thatcher's idea of active citizenship and going through the analysis of John Major's Citizen's Charter and David Cameron's Big Society project the book sheds new light on how these developments responded to long term problems while dialoguing with specific circumstances and the different Conservative leaders' ideas From an ideological perspective the author analyses how these leaders echoed and re signified more traditional political ideas and ideologies while negotiating with and borrowing new flourishing concepts during those years Far from being a unidimensional citizenship concept in reinterpreting old ideas and utilizing new ones these Conservatives elaborated a complex and many times contradictory citizenship model that tried to address both long lasting and more timely issues that overlapped in British society

Making History Now and Then D. Cannadine, 2008-06-17 Collects twelve previously unpublished essays by one of Britain's most eminent historians David Cannadine including his inaugural and valedictory lectures at the Institute of Historical Research A unique volume discussing the study and nature of History itself and a range of key topics and periods in British and Imperial History

Finding a Role? Brian Harrison, 2011-09-09 In 1970 the cold war was still cold Northern Ireland's troubles were escalating the UK's relations with the EEC were unclear and corporatist approaches to the economy precariously persisted By 1990 Communism was crumbling world wide Thatcher's economic revolution had occurred terrorism in Northern Ireland was waning multi culturalism was in place family structures were changing fast and British political institutions had become controversial Seven analytic chapters pursue these changes and accumulate rich detail on

changes in international relations landscape and townscape social framework family and welfare structures economic policies and realities intellect and culture politics and government The concluding chapter ranges chronologically even more widely to bring out the interaction of past and present then asks how far the UK had by 1990 identified its world role Like Harrison's *Seeking a Role The United Kingdom 1951 1970 2009* the immediately preceding volume in this series Finding a Role includes a full chronological table and an ample index of names and themes This the first thorough wide ranging and synoptic study of the UK so far published on this period has two overriding aims to show how British institutions evolved but also to illuminate changes in the British people their hopes and fears values and enjoyments failures and achievements It therefore equips its readers to understand events since 1990 and so to decide for themselves where the UK should now be going

British Prime Ministers and Democracy Roland Quinault, 2011-03-17 Today representative democracy is the dominant political system in the world Britain played a prominent part in the democratization of the world through both its constitutional reforms at home and its power and influence abroad In that process Prime Ministers played a prominent role through their power and influence in government Parliament and the country more generally Quinault examines the stance of ten leading Prime Ministers from the mid nineteenth century until the twenty first century on the theory and practice of democracy The attitude of each Prime Minister is assessed by considering their general views on democracy and their use of that term and concept in their discourse and thereby their role in advancing or resisting democratic political change Particular attention is paid to their role in electoral reform together with their stance on the composition and powers of the House of Lords and the role of the monarchy in the governing process Their attitudes to the democratic aspects of some major international issues are also considered
