InfoWorld ,1987-07-06 InfoWorld is targeted to Senior IT professionals Content is segmented into Channels and Topic Centers InfoWorld also celebrates people companies and projects *GOLD COURSE ** SPEED READING* Silviu Vasile, Today is the best day to evolve and continue the upward path you started when you chose personal development and which you should accelerate now when you use fast reading and live in the culture of speed reading You may not have been successful because you lacked the determination to act in the most serious way possible You relied on the SAFETY NET You knew that no matter what you did you had a way out and a way to deal with failure Success means going so far as to get to the POINT WITHOUT RETURN to the place where you can only go forward You have no alternative but success because any other option is excluded You have to look inside yourself and discover unsuspected resources access your true power of the subconscious Thus you will find brilliant ideas and realize how valuable and well prepared you are and how easy it is to make decisions that you would have postponed indefinitely Success is the steps you take in the right direction I believe that first of all the wisest decision you have to make is to be and remain honest People lose their integrity when they have no definite value or when resources are limited or endangered Evolution means peace and maintaining individual and collective integrity at a high level Speed reading is the factor that increases your value and helps you maintain your integrity The higher your value the more critical resources you have access to and the more you can negotiate and trade those resources Speed reading works as a lever for you and your purposes and all you have to do is use it You can easily retain substantial amounts of information over medium periods by training your memory and using your creativity This book challenges you to be creative and live your life challenging yourself and experiencing your inner freedom stepping out of your comfort zone and believing in yourself with all your might The technique and exercises presented will broaden your horizons and help you evolve Challenge yourself to be happy and enjoy the little things that happen Life sends you small joys and tries your patience and courage whenever a challenge comes that you have to overcome **PC Mag** ,1987-11-10 PCMag com is a leading authority on technology delivering Labs based independent reviews of the latest products and services Our expert industry analysis and practical solutions help you make better buying decisions and get more from technology *Boys' Life* ,1988-06 Boys Life is the official youth magazine for the Boy Scouts of America Published since 1911 it contains a proven mix of news nature sports history fiction science comics and Scouting *PC Mag* ,1987-10-27 PCMag com is a leading authority on technology delivering Labs based independent reviews of the latest products and services Our expert industry analysis and practical solutions help you make better buying decisions and get more from technology **SILVER COURSE * SPEED READING** Silviu Vasile, If you forget too quickly and too easily important things fundamental information and this negatively affects your personal and professional performance this forgetfulness becomes a problem for your development If you don't have a trained memory or if you haven't mastered speed reading techniques very well then all is not lost This book can help

you for the next period but also for your whole life from now on You are the most qualified person who knows or needs to know what you are doing with your life where you are going and what your goals are for the future Think of yourself right now at this moment as the sum of the investments you have made over time up to the present moment Whether you are happy or not you have yourself to congratulate or to blame If you know what you want then you will continue to invest in your future If you are uncertain then you will indulge in commonality and mediocrity If you've failed to perform so far or if you have but feel you can and deserve to do better then your answer is speed reading Just understand that speed reading is only your first step to success Speed reading teaches you what to read and how to read You need to give speed reading a chance Don't start off sceptically thinking that speed readers are just charlatans because you've got certain benchmarks milestones to guide you I've succeeded in this area and you certainly will too I have overcome my condition as a mediocre student then you will succeed in doing the same You are no different from successful people We all have the same huge potential Thanks to the activation of this potential we can read quickly and increase our personal value permanently What I'm suggesting to you through speed reading is to accumulate assets that bring you residual income extra energy and residual time that you can reinvest What I propose is that you invest resources in speed reading and brilliance When you are a genius person then whatever comes into your life you will be able to find solutions opportunities to evolve and embrace new life principles The first benefit of speed reading is improved memory The weaker your memory the more information gaps there will be and these gaps will decrease your personal performance You are a sum of memories If tomorrow you start forgetting important things then your life will never be the same Memory is not a quality you were born with and don't have to do anything for Memory is a medium to long term investment and depending on the capital you choose to invest you will get results If you take it seriously from high school and then train your memory during college and when you finish college you don't hang your degree on a nail but continue the training then you are already a successful person This course will only answer a number of questions and confirm what you already know Diamond Course *** Photo Reading Silviu Vasile, This book tells you a lot about speed reading and photography You are in the privileged position from which you can continue to increase your reading speed while maintaining the same rate of comprehension of the text The course is complex but you can choose exactly those techniques that suit you best All of these techniques can be reduced to two or three main techniques that you have seen work for you and those you can keep exploring and why not improving Speed reading can be condensed into a single sentence but that doesn't change the facts of the matter If I want to go to the gym because I want to have a worked body and the trainer shows me the exercises I need to do in a session that doesn't automatically mean I'll look good It's one thing to learn technique in a few minutes and another to exercise every day You need willpower discipline and determination to repeat the basic exercises daily Without constant effort you cannot achieve results If you go to the gym three times a week then you start to form a habit and this habit helps you to live in the culture of sport Being connected to the information in

that sport and being able to generate so much enthusiasm that it counteracts your desire to give up the fight and return to your comfort zone That s why I wrote about speed reading to start living in the culture of this wonderful field You have speed reading on your side With it you can get to break the 1000 words per minute barrier That means you ll be able to read four times faster than the average person with the same or even better comprehension of the text **Personal Computing**,1987 PC ,1987-11 **The Software Encyclopedia 2000** Bowker Editorial Staff,2000-05
