Gellrich, 1995-03-06 This wide ranging study of language and cultural change in fourteenth century England argues that the influence of oral tradition is much more important to the advance of literacy than previously supposed In contrast to the view of orality and literacy as opposing forces the book maintains that the power of language consists in displacement the capacity of one channel of language to take the place of the other to make the source disappear into the copy Appreciating the interplay between oral and written language makes possible for the first time a way of understanding the high literate achievements of this century in relation to momentous developments in social and political life Part I reasseses the nominalism of Ockham and the realism of Wyclif through discussions of their major treatises on language and government Part II argues that the chronicle histories of this century are tied specifically to oral customs and Part III shows how Sir Gawain and the Green Knight and Chaucer's Knight's Tale confront outright the

displacement of language and dominion Informed by recent discussions in critical theory philosophy and anthropology the book offers a new synoptic view of fourteenth century culture As a critique of the social context of medieval literacy it speaks directly to postmodern debate about the politics of historicism today Routledge Revivals: Medieval England (1998) Paul E. **Reconstructing Alliterative Verse** Ian Cornelius, 2017-07-20 This book explores the history and development of English alliterative meter and considers why the form has remained so enigmatic **The English Alliterative Tradition** Thomas Cable, 2016-11-11 The meter of Middle English alliterative poetry Thomas Cable contends holds the key to a reinterpretation of both Old English meter and iambic pentameter which in turn provides a new understanding of Middle English meter itself Drawing upon recent insights in linguistics Cable articulates a revolutionary theory of rhythm in English poetry from its beginnings through the Renaissance and beyond Cable's discussion moves from the rhythms of Old English poetry and prose to the poetry of Chaucer and the Alliterative Revival to Shakespeare and T S Eliot He demonstrates that Middle English poetry does not show the continuity of tradition that standard authorities have asserted With the Norman Conquest of 1066 came a clear break and what followed was a drastic misreading by the poets of what had come before Throughout the book Cable constantly asks fundamental questions regarding the intentions of the poet the impact of the perceived metrical tradition upon that poet and with reference to Peircean abduction the possibility of constructing any metrical theory especially one from the distant past The answers and their implications metrical cognitive and philosophical provide the foundation for a new understanding of the creation and evolution of English versification from the seventh century to the present The English Alliterative Tradition is a major and controversial study in medieval English poetics that illustrates and clarifies key ideas of the New Philology It will be of interest to scholars and students of Old and Middle English prosody and Prose and poetry of the age of Chaucer, s. XIV Antonio Bravo, 1998 The task of the historian of historical linguistics language is to recreate texts as they were at a given stage of their linguistic life The texts which follow have been selected and edited in the hope of providing means for understanding the English language of the age of Chaucer The selection in this volume have been chosen to illustrate the history of the English language in the XIVth Century This anthology was conceived at least in part because I agree with the idea that it is in literature and in the works written by the most outstanding writers

that a language displays its full power Each selection is supplied with a brief introduction which gives information as to the source and background necessary for understanding the text and brief bibliography on MSS modern editions and language and literature criticism 
Traditions and Renewals Marie Borroff,2003-01-01 Marie Borroff is a literary critic poet and philologist as well as mediaevalist with a particular interest in the powers and effects of poetic language In this collection of essays she explores problems of central importance in the poetry of Chaucer and his nameless contemporary the Gawain or Pearl poet The work should be useful in the study of late Middle English literature 
Pearl Sarah Stanbury,2001-12-01 Pearl resists identification by author date occasion or place of composition still it is almost unanimously hailed as one of the masterpieces of our literature so skilled is its author so eloquent its language It is a story according to Sarah Stanbury of crossing over the stepping out from the ordinary life into a parallel universe where things operate by different natural laws down the rabbit hole through the wardrobe or looking glass across the ocean to be shipwrecked on Prospero s island or more recently across a bridge to the island of Willow Springs in Gloria Naylor s haunting novel Mama Day where the crossing over moves into a place of memory and hope the nostalgic space of home as well as Beulah or Eden the earthly paradise
