Svantesson, 2017-10-06 Internet jurisdiction has emerged as one of the greatest and most urgent challenges online affecting areas as diverse as e commerce data privacy law enforcement content take downs cloud computing e health cyber security intellectual property freedom of speech and cyberwar In this innovative book Professor Svantesson presents a vision for a new approach to Internet jurisdiction based on an extensive period of research dedicated

to the topic The book demonstrates that our current paradigm remains attached to territorial thinking that is out of sync with our modern world especially but not only online Having made the claim that our adherence to the territoriality principle is based more on habit rather than on any clear and universally accepted legal principles Professor Svantesson advances a new jurisprudential framework for how we approach jurisdiction a framework that unites private and public international law He also proposes several other reform initiatives aimed at equipping us to solve the Internet jurisdiction puzzle In addition the book provides a history of Internet jurisdiction and challenges our traditional categorisation of different types of jurisdiction It places Internet jurisdiction in a broader context and outlines methods for how to properly understand and work with rules of Internet jurisdiction While Solving the Internet Jurisdiction Puzzle paints a clear picture of the concerns involved and the problems that needs to be overcome this book is distinctly aimed at finding practical solutions anchored in a solid theoretical framework Professor Svantesson argues that many of the Internet jurisdiction problems we face are due to a sleepwalking like acceptance of orthodox thinking Solving the Internet Jurisdiction Puzzle acts as a wake up call to this issue
