Beauregard sets out to offer a new materialist perspective on planning practice that reveals the many ways in which the nonhuman things of the world mediate what planners say and do Drawing on actor network theory and science and technology studies Beauregard lays out a framework that acknowledges the inevitable insufficiency of our representations of reality while also engaging more holistically with the world in all of its diversity including human and nonhuman actors alike **Art Matters** Pamela Gordon, 2023-10-13 *Art Matters* enables students to experience art actively and meaningfully weaving together innovative pedagogy and compelling stories about a wide assortment of artworks and artists to show students that art is everywhere art is vibrant and art matters
