Sites And Sights Of The Iron Age Oxbow Monographs In Archaeology No 56:

The Science and Archaeology of Materials Julian Henderson, 2013-04-15 The Science and Archaeology of Materials is set to become the definitive work in the archaeology of materials Henderson's highly illustrated work is an accessible and fascinating textbook which will be essential reading for all practical archaeologists With clear sections on a wide range of materials including ceramics glass metals and stone this work examines the very foundations of archaeological study Anyone interested in ancient technologies especially those involving high temperatures kilns and furnaces will be able to follow in each chapter how raw materials are refined transformed and shaped into objects This description is then followed by appropriate case studies which provide a new chronological and geographical example of how scientific and archaeological aspects can and do interact They include Roman pale green and highly decorated glass 17th Century glass in Britain and Europe the effect of the introduction of the wheel on pottery technology the technology of Celadon ceramics early copper metallurgy in the Middle East chemical analysis and lead isotope analysis of British Bronzes early copper alloy metallurgy in Thailand the chemical analysis of obsidian and its distribution the origins of the Stonehenge bluestones This book shows how archaeology and science intersect and feed off each other Modern scientific techniques have provided data which when set within a fully integrated archaeological context have the potential of contributing to mainstream archaeology This holistic approach generates a range of connections which benefits both areas and will enrich archaeological study in the future

The Handbook of British Archaeology Lesley Adkins, Roy Adkins, Victoria Leitch, 2017-04-13 For over 25 years The Handbook of British Archaeology has been the foremost guide to archaeological methods artefacts and monuments providing clear explanations of all specialist terms used by archaeologists This completely revised and updated edition is packed with the latest information and now includes the most recent developments in archaeological science Meticulously researched every section has been extensively updated by a team of experts There are chapters devoted to each of the archaeological periods found in Britain as well as two chapters on techniques and the nature of archaeological remains All the common artefacts types of sites and current theories and methods are covered The growing interest in post medieval and industrial archaeology is fully explored in a brand new section dealing with these crucial periods Hundreds of new illustrations enable instant comparison and identification of objects and monuments from Palaeolithic handaxes to post medieval gravestones Several maps pinpoint the key sites and other features include an extensive bibliography and a detailed index The Handbook of British Archaeology is the most comprehensive resource book available and is essential for anyone with an interest in the subject from field archaeologists and academics to students heritage professionals Time Team followers and amateur enthusiasts

The Iron Age in Northern Britain Dennis W. Harding, 2017-02-24 The Iron Age in Northern Britain examines the archaeological evidence for earlier Iron Age communities from the southern Pennines to the Northern and Western Isles and the impact of Roman expansion on local populations through to the emergence of historically recorded

communities in the post Roman period The text has been comprehensively revised and expanded to include new discoveries and to take account of advanced techniques with many new and updated illustrations The volume presents a comprehensive picture of the long Iron Age allowing readers to appreciate how perceptions of Iron Age societies have changed significantly in recent years New material in this second edition also addresses the key issues of social reconstruction gender and identity as well as assessing the impact of developer funded archaeology on the discipline Drawing on recent excavation and research and interpreting evidence from key studies across Scotland and northern England The Iron Age in Northern Britain continues to be an accessible and authoritative study of later prehistory in the region Controlling Colours Marlies

Hoecherl,2016-01-22 Colour defines our material world operates as a communication tool and creates meaning This book revisits well known and well documented sites or artefacts and explores their colours and colour connotations by looking at various contexts such as processes landscape iconography body decoration or the colour connotations of death **Coton**

Park, Rugby, Warwickshire: A Middle Iron Age Settlement with Copper Alloy Casting Andy Chapman,2020-05-28 A total area of 3.1ha taking in much of a settlement largely of the earlier Middle Iron Age was excavated in 1998 in advance of development The Iron Age settlement comprised several groups of roundhouse ring ditches and associated small enclosures forming an open settlement set alongside a linear boundary ditch *Enclosing Space, Opening New Ground* Tanja

Romankiewicz,Manuel Fernández-Götz,Gary Lock,Olivier Büchsenschütz,2019-03-31 Enclosures are among the most widely distributed features of the European Iron Age From fortifications to field systems they demarcate territories and settlements sanctuaries and central places burials and ancestral grounds This dividing of the physical and the mental landscape between an inside and an outside is investigated anew in a series of essays by some of the leading scholars on the topic The contributions cover new ground from Scotland to Spain between France and the Eurasian steppe on how concepts and communities were created as well as exploring specific aspects and broader notions of how humans marked bounded and guarded landscapes in order to connect across space and time A recurring theme considers how Iron Age enclosures created curated formed or deconstructed memory and identity and how by enclosing space these communities opened links to an earlier past in order to understand or express their Iron Age presence In this way the contributions examine perspectives that are of wider relevance for related themes in different periods **Applied Soils and Micromorphology in**
